## **MATERIAL SAFETY DATA SHEETS**

As you may know, the Material Safety Data Sheets are used to supply information about any purchased product, which may contain any hazardous or toxic substances.

With this in mind, Suspended Ceiling Systems produced by Chicago Metallic fall under the classification of "Articles" as defined by OSHA Standard 1910.1200, Paragraph "C". By this definition, an "Article" is a manufactured item which-

- I. Is formed to a specific shape or design during manufacture, or
- II. Has end use function(s) dependent in whole, or in part, upon its shape or design during end use, and
- III. Which does not release, or otherwise result in exposure to a hazardous chemical under normal conditions of use.

Products classified as "Articles" are exempt under the standard and therefore, do not require labels or data sheets.

We trust this information will satisfy your requirements. If you have any questions, do not hesitate to call.

Sincerely,

CHICAGO METALLIC CORPORATION
