STACK 'EM UP

Knauf **Master Bags** are designed to make warehousing a breeze. Tough, translucent poly woven bags unitize 4 or 5 batt bags into one easy-to-handle package.

- **Master Bags stack higher** to optimize warehouse space and provide a clean, safe, professional environment.
- The durable Master Bag **protects the batts from damage** during transit, loading and in storage.
- The translucent poly woven bag makes **products easy to identify.**

EASY HANDLING

Knauf Master Bags make product handling fast and easy.

- The Master Bag **maintains the unit's shape and configuration** so they are easier to move by hand on the jobsite or with forklifts or clamp trucks in the warehouse.
- The **durable** poly woven bag protects batts from impact and damage.

LOAD 'EM UP

4-pack and 5-pack Load Factors are:

MASTER BAG 4-PACKS		
WIDTH	LOAD FACTOR	QTY BAGS
11"	.240	416
15"	.158	632
23"	.240	416
16"	.158	632
19"	.194	515
24"	.240	416

MASTER BAG 5-PACKS*		
WIDTH	LOAD FACTOR	QTY BAGS
Shelbyville/Lanett		
15"	.123	813
16"	.123	813
Shasta		
15"	.106	943
16"	.123	813

*Note: Item Reference Numbers for 5-packs end in "V."

4- AND 5-PACKS

Most batt products are packaged in Master Bag 4-packs. However, several 15"/16" products are available in 5-packs, yielding 25% more insulation per unit and full truckload.

STACK 'EM UP

Organize your storage space and simplify your inventory control with Knauf Jet Packs. Designed for your convenience, Knauf Jet Stream™ Blowing Insulation is available in 42-bag stretch-wrapped units.

- Jet Packs stack 14 bags high in a three bag footprint for **improved inventory control** — count one pack instead of 42 single bags.
- The clear poly wrap and the cardboard slip sheet at the bottom of the Jet Pack provide product protection and create a **strong, compact unit**.

EASY HANDLING

Whether you're using a forklift or a clamp truck, Knauf Jet Packs make the journey fast and easy.

- Jet Pack's strong compact unit **makes unloading easy and quick.**
- The slip sheet at the bottom of the unit **minimizes forklift damage.**
- Jet Pack's unit integrity makes for a **tight, stable load** to reduce product damage during transit.

LOAD 'EM UP

Now you have two ordering options.

OPTION 1
