These manufacturers have been added at the request of BuildSite's dealer and contractor customers. To request a new manufacturer, simply email us at tellus@buildsite.com

About BuildSite:

BuildSite, through www.buildsite.com, provides a single source of product and technical information for commercial, residential, and infrastructure construction. We reach a broad audience of professionals, including architects, engineers, and facility managers.

Specifically, we focus on the information needs of contractors and suppliers. BuildSite's database includes more than 220 manufacturers and in excess of 18,000 products.

BuildSite's Channel Communications program lets manufacturers of building materials promote the benefits of individual products and systems at the exact time of purchase. To learn more, visit www.BuildSite.com or phone 888-717-8665.
