

EXPANDED METAL
Ornamesh[®]

AMICO[®]

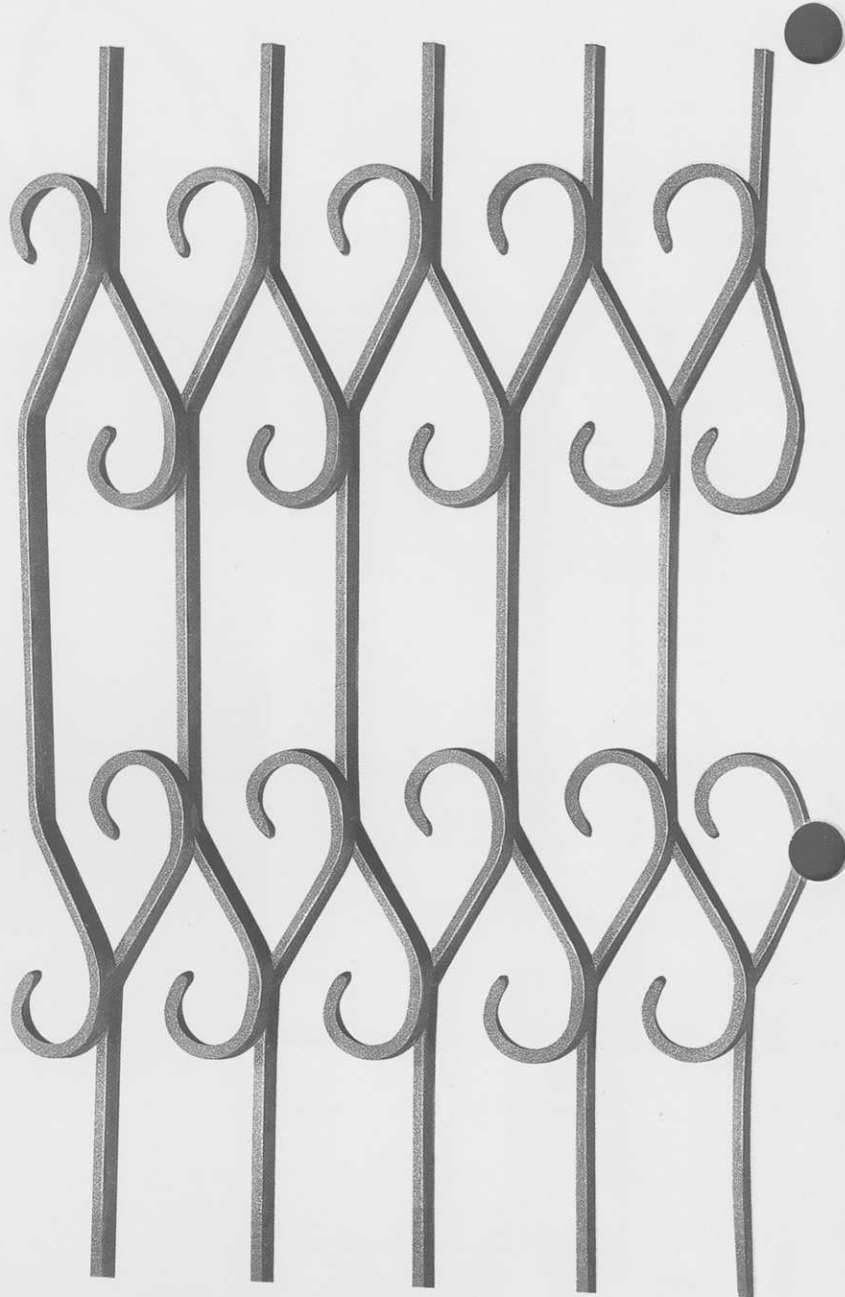

Ornameash[®]

ORNAMESH can be used for security fencing, support columns, balcony railings, security bars or gates and room dividers.

ORNAMESH is available in carbon steel or aluminum and combines rugged strength necessary for maximum security with the architectural aesthetics of ornamental iron.

ORNAMESH is an expanded metal product and for that reason, the cost of materials for any desired application is less than cast or wrought iron products...and substantial labor savings in fabrication can also be realized.

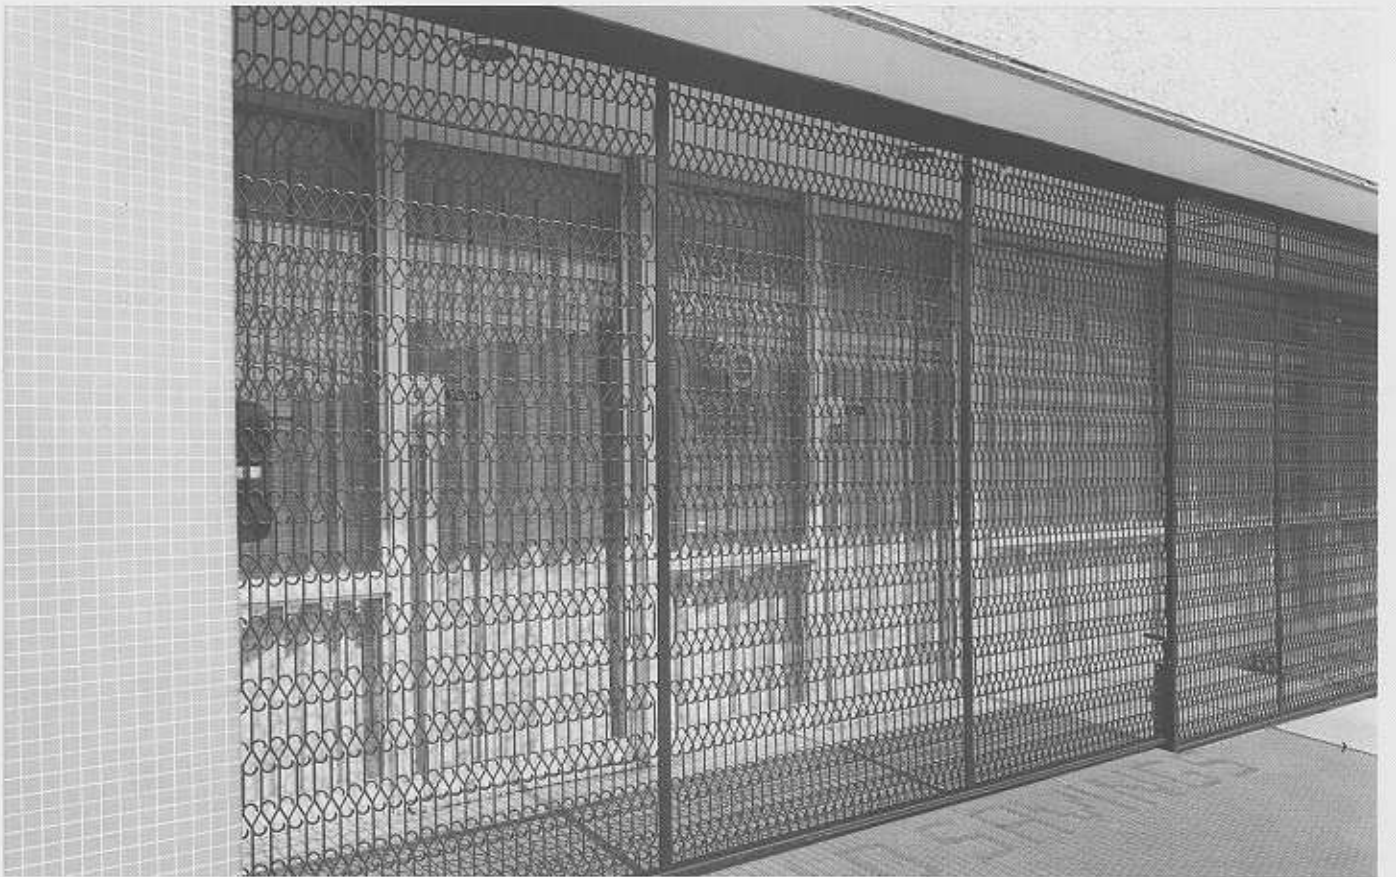

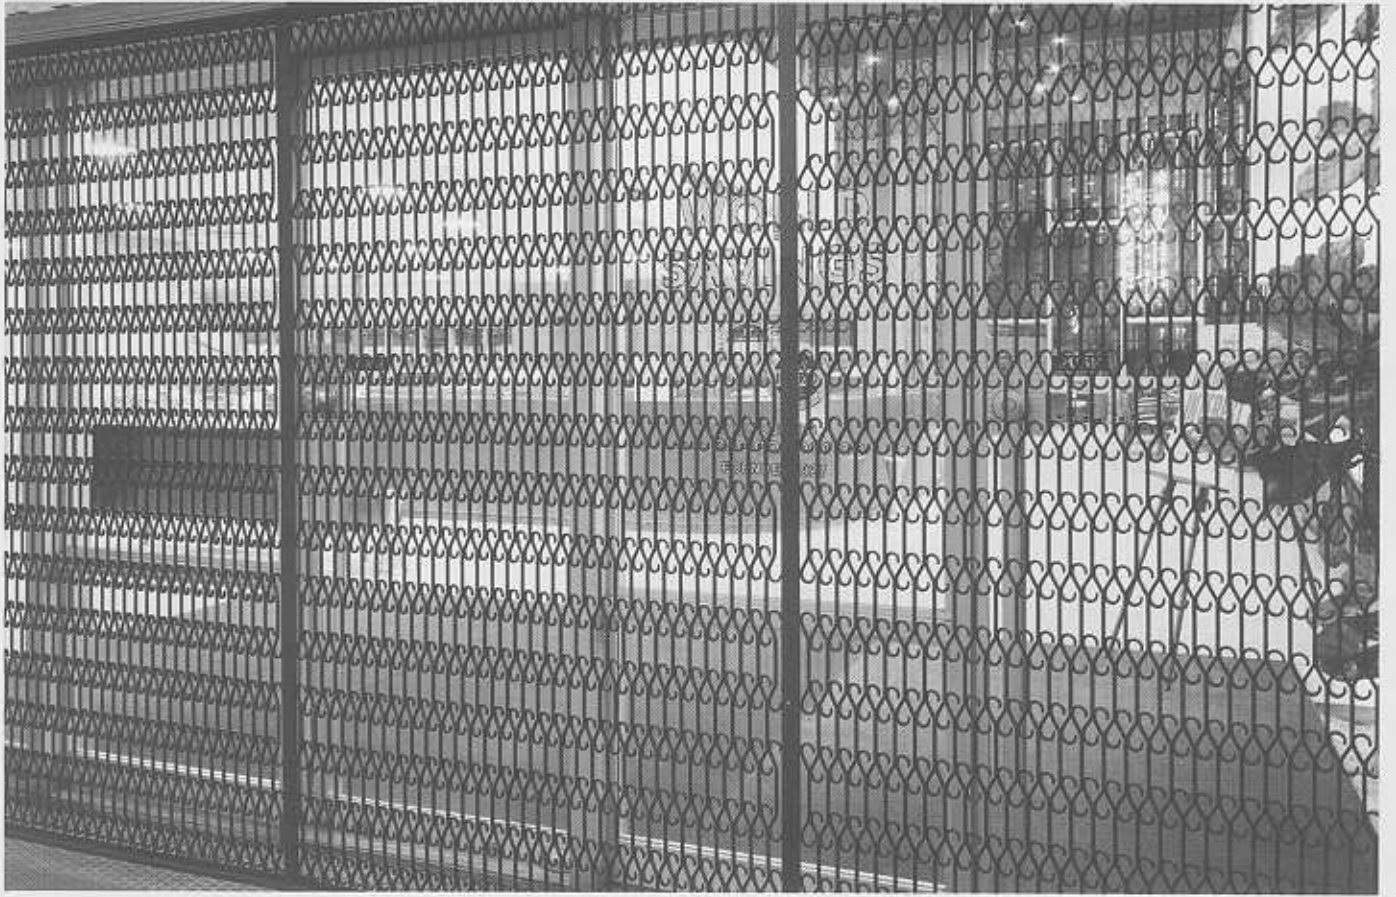

ORNAMESH CARBON STEEL

Standard Sizes In Inches		Size of Opening In Inches		Center to Center Of Bond In Inches		Size of Strands In Inches	No. of Diamonds In 12 Inches	Percent Open Area
