IDENTIFICATION

PRODUCT NAME: Crete-Lease "Break-In" Aluminum Form Conditioner

REVISION: 1-1-05

CHEMICAL FAMILY: Alkaline Detergent Mixture

CAS #: Not applicable for this mixture

MANUFACTURER TELEPHONE NUMBERS: 800-367-2020
419-669-2041

EMERGENCY TELEPHONE NUMBERS: 419-381-3897 – Toledo Poison Control Center
800-424-9300 – CHEMTREC
(Transportation Emergencies)

COMPOSITIONAL INFORMATION

This section is condensed. For complete information please request our printed MSDS or e-mail us, Cresset@Cresset.com, with your name, address, etc. for quicker response.

When used as recommended in an "industrial" environment, this is not considered a hazardous product.

SAFETY:
These materials are non-toxic (OSHA CFR 29). OSHA, EPA and DOT define these materials as nonflammable, but are corrosive to skin and other body tissues.

ROUTE(S) OF EXPOSURE AND EFFECTS

EYE CONTACT:	Contact with the eye may cause severe burns.
SKIN CONTACT:	Prolonged or repeated exposure may cause irritation and burns.
INHALATION:	Exposure to spray mists can cause damage to upper respiratory tract and mucous membranes.
INGESTION:	Ingestion of this product may cause burns of mucous membranes, mouth, throat, esophagus, and stomach.
CARCINOGENIC:	No ingredient in this product is listed as carcinogenic by IARC, NTP or OSHA.

FIRST AID PROCEDURES

EYE CONTACT:	Immediately flush eyes with water for at least 15 minutes, then seek medical assistance.
SKIN CONTACT:	Wash area of contact with water for 15 minutes. Wash contaminated clothing before reuse. Upon prolonged exposure this product may cause burns which require medical attention.
INHALATION:	Remove person from contaminated area to fresh air. If not breathing, give artificial respiration and obtain medical assistance immediately.
INGESTION:	DO NOT INDUCE VOMITING. Drink 2–3 glasses of water or milk and obtain medical assistance. Never give anything by mouth to an unconscious person. If vomiting occurs spontaneously, keep airway clear and seek medical assistance.

PHYSICAL DATA

FLASH POINT:	N/A
DENSITY:	8.4 Pounds per Gallon
VAPOR PRESSURE:	Less than Ether

FIRE FIGHTING PROCEDURES AND EXTINGUISHING MEDIA

This product is not combustible. Water spray, foam, carbon dioxide, or dry chemical may be used in areas where this product is stored. Protective clothing and pressure-demand, self-contained breathing apparatus should be worn by all firefighters in areas where this product is stored. Plan fire protection and response strategy through consultation with local fire protection authorities or appropriate specialists.

UNUSUAL FIRE AND EXPLOSION HAZARD

Although this product is non-combustible, as with lime, its reaction with aluminum forms produces small amounts of flammable gas. Use with adequate ventilation.

REACTIVITY

STABILITY:	Stable
HAZARDOUS POLYMERIZATION:	Will not occur
INCOMPATIBLE MATERIALS:	Strong acids.
HAZARDOUS DECOMPOSITION PRODUCTS:	Carbon dioxide or carbon monoxide or toxic fumes of Na ₂ O upon thermal decomposition.

SPILL OR LEAK PROCEDURES

Contain spill and neutralize the recovered material. Dispose of all chemicals in a manner complying with Local, State and Federal Regulations. This product is biodegradable.

PROTECTION INFORMATION

EYES: If eye contact is possible wear splash goggles.

SKIN: Rubber gloves, chemical resistant boots and apron should be worn.

RESPIRATORY: No protection needed under normal conditions. Avoid breathing of spray mists which may irritate or damage upper respiratory tract.

DOT and EPA (Not required for MSDS)

When transported by ground in 1 gallon bottles, 5 gallon pails, 55 gallon drums, or 275 gallon MegaPaks, packaged and sealed by Cresset Chemical Company, this product requires special hazardous information for shipping papers, container, truck and driver. See Cresset for details.

SARA Title III Regulatory Compliance Information:

Section 312 Hazard Class: Acute, chronic.

Section 313 Notification: Either none present or none present in reportable quantities.

CORPORATE STATEMENT
