

DEX-O-TEX®

Fluid-Applied, Seamless Floor, Wall & Waterproofing Systems

- Industrial Flooring
- Decorative Flooring
- Thin-Set Epoxy Terrazzo
- Non-Sparking, Conductive Systems
- Static Dissipative (ESD)
- Chemical Resistant Coatings
- Urethane Concrete
- Athletic Flooring
- Fiberglass Reinforced Wall Coatings
- Impact Resistant Wall Coatings
- Parking Decks

- Secondary Containment
- Moisture Emission Control Systems
- Fracture Resistant Membranes
- Elastomeric Membranes
- Semi-Rigid Joint Fillers
- Flooring Underlayments

DEX-O-TEX® Product Line

The Dex-O-Tex Product Line of Crossfield Products Corp. is the design professional's first choice for surfacing & coating materials. These products are formulated to restore, protect & beautify concrete & other substrates, while enhancing the value & performance of commercial, industrial & institutional facilities worldwide. Since 1938, Crossfield Products Corp. has manufactured polymer systems ideal for new construction & renovation projects. Installations completed by Factory Trained Professional Applicators ensure high-quality, long-term performance of these polymeric & cementitious construction materials. Our Scientifically Superior Technologies contribute to "green" sustainable facilities, achieving the maximum available LEED Credits for new & existing buildings. Additionally, Dex-O-Tex Floor, Wall & Waterproofing Systems are designed to meet ADA compliance requirements when installed according to the Company's Installation Guidelines.

Dex-O-Tex Systems are engineered to provide the best solution for your demanding project requirements. For easy access to our complete library of downloadable Dex-O-Tex product support information, visit us at

Factory Trained Professional Applicators are available to survey & quote your next project. Contact us toll free at **800.704.5571** to find a local applicator near you today!

Floor & Wall Finishes

Polymeric Flooring Systems

TERRAZZO SYSTEMS

Thin-Set Epoxy & Polyacrylate

Dex-O-Tex offers the widest variety of thin-set epoxy and polyacrylate terrazzo flooring systems in the industry, including exterior approved, ultra-violet light stable and vapor-permeable systems. In addition, Dex-O-Tex offers epoxy and polyacrylate thin-set terrazzo systems meet the rigid standards of the National Terrazzo and Mosaic Association (NTMA), and the Terrazzo, Tile, & Marble Association of Canada (TTMAC).

DECORATIVE SYSTEMS

Trowel, Slurry & Broadcast Applied

Dex-O-Tex offers the widest variety of highly aesthetic epoxy and urethane flooring systems available in the marketplace. The beauty and uniqueness of these floors come from the choice of naturally occurring and synthetic aggregates, including the beauty of marble chips, synthetic colored quartz and vinyl chips.

COATING SYSTEMS

Epoxy & Urethane Monochromatic

Dex-O-Tex offers a wide variety of clear and solid color epoxy, polyaspartic, and urethane high-build floor coating systems that are available in a wide range of performance driven criteria, ranging from high chemical resistance to tough and durable economic systems.

INDUSTRIAL URETHANE SYSTEMS

Trowel, Slurry & Broadcast Applied

The Tek-Crete™ Series offers the widest range of urethane mortar systems in the industry. These unique systems provide superior impact, chemical, thermal shock and temperature protection. They are designed to be installed quickly, minimizing down time. Tek-Crete technologies are the best in its class of urethane flooring systems and are protecting millions of square feet of concrete in the most abusive environments, like food & beverage processing, chemical processing, and pharmaceutical manufacturing.

INDUSTRIAL EPOXY SYSTEMS

Trowel, Slurry & Broadcast Applied

Dex-O-Tex offers the widest range of industrial flooring systems in the industry, from the most economical to the highest quality, virtually indestructible flooring. These systems are available in a variety of chemistries, providing protection from environmental extremes via highly flexible and stress relieving systems to highly chemical and abrasion resistant systems for severe environments.

MOISTURE EMISSION CONTROL

VaporControl™ Primer 100

VaporControl™ Primer 200

The **DEX-O-TEX**® Way

Cementitious Polymer Modified Products

Dex-O-Tex's Cementitious Polymer Modified Product Line consists of a broad range of latex and acrylic chemistries available in liquid polymers and redispersible polymers, includes a number of silica sand free products. The range of products includes:

UNDERLAYMENTS & REPAIR MORTARS

Dex-O-Tex offers a wide range of cementitious polymer modified underlayments and repair mortars. These systems range from rigid trowel applied systems that are ideal for patching or sloping of new and existing concrete; flexible squeegee, shrinkage compensating fluid applied mortar systems that are ideal for leveling; very flexible trowel applied underlayment and patching mortar ideal when a stress relieving mortar system is desirable.

PATCHING SYSTEMS

Dex-O-Tex offers a wide range of patching and refinishing systems for horizontal, vertical and overhead applications.

Wall Coating Products

Dex-O-Tex offers a wide variety of highly functional protective fluid applied epoxy wall coating systems designed to provide superior cleanability, abrasion and impact resistance. These include:

WALL & OVERHEAD SYSTEMS

- Wall-Cote**— a tough epoxy coating
- Wall-Glas**— a fiberglass reinforced, dimensionally stable epoxy system
- Flex-Glaze**— a flexible wall coating system with a highly chemical resistant, polyaspartic finish coat
- P-61 Block Filler**— a multi-purpose filler used to smooth cinder block and joints

LEED® GREEN BUILDING RATING SYSTEM POINTS

Dex-O-Tex's Scientifically Superior thin-set terrazzo and other systems can be used with approved state-of-the-art recycled glass filler and glass chips. Recycled products and local manufacturing contribute to LEED® Green Building Rating System points when used in compliant new facility construction and renovation projects. LEED® (Leadership in Energy and Environmental Design) Rating System is a registered trade name of the USGBC (U.S. Green Building Council).

Superior Solutions for Every Industry

Food Processing

Airport Terminals

Dairy Processing

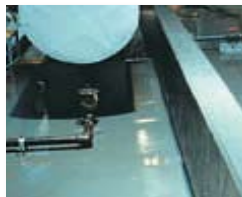

Pulp & Paper

Bio Pharmaceutical

Conductive, Spark-Proof

Secondary Containment

Parking Decks

Locker Rooms

Schools & Universities

Animal Holding

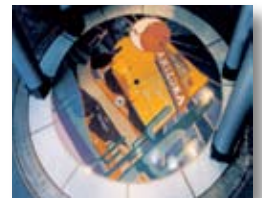

Medical Facilities

Athletic Flooring

Industrial Packaging & Distribution

Terrazzo, Commercial Applications

DEX-O-TEX®

Scientifically Superior™ Technologies

for Discriminating Facility Owners, Design Professionals & Contractors

Crossfield Products Corp. manufactures a vast array of systems for commercial, institutional & industrial facilities. Dex-O-Tex Systems are ideal for both new construction & renovation projects. No matter how demanding your environment, Dex-O-Tex Systems can be engineered to provide the right protective solution. Visit our web site at www.dexotex.com to obtain easily downloadable support information!

Industrial Applications

- Food Processing & Packaging
- Food Preparation & Service
- Chemical Processing
- Laboratories
- Clean Rooms
- Electronic Manufacturing & Assembly
- Secondary Containment
- Arsenals & Munitions
- Light, Medium & Heavy Manufacturing
- Battery Charging Areas
- Mechanical Equipment Rooms
- Aerospace Surfaces
- Warehouses

Institutional Applications

- Schools & Universities
- Correctional Facilities
- Hospitals & Health Care Facilities
- Religious Facilities
- Animal Housing
- Veterinarian Hospitals
- Locker Rooms/Restrooms

Residential Applications

- Multi-Family Housing
- Dormitories
- Multi-Use Buildings

Commercial Applications

- Hotels & Casinos
- Food Preparation & Restaurants
- Office Buildings
- Gymnasiums & Stadiums
- Transportation Terminals
- Theme Parks
- Resorts & Country Clubs
- Aquatic Centers
- Museums
- Retail Spaces
- Aircraft Terminals
- Vehicle Maintenance Areas
- Walking Decks
- Parking Decks
- TV Studios
- Freezers & Coolers
- Shopping Malls & Office Complexes
