1. PRODUCT DESCRIPTION
   Synthetic Skid-Resistant Aggregate is a single component additive that can be utilized to impart non-skid properties to assorted Dex-O-Tex sealers. Synthetic Skid-Resistant Aggregate is easily incorporated into AJ-44, Quik-Glaze, Dex-O-Cote WB and Weatherseal XL. Four ounces, by volume, per gallon of mixed components is recommended. Slightly less may be used if desired. This additive does not affect the performance of the fully cured final product.
