## RED SHIELD™ ROOFING SYSTEM AND DAMAGE REPAIR LIMITED WARRANTY

Warranty No: \_\_\_\_\_ FBPCO # \_\_\_\_\_ Square Footage: \_\_\_\_\_

Building Owner: \_\_\_\_\_

Building Identification: \_\_\_\_\_

Building Address: \_\_\_\_\_

Warranty Period Of: \_\_\_\_\_ Years, Beginning On : \_\_\_\_\_

Roofing Contractor: \_\_\_\_\_

**SAMPLE**

For the warranty period indicated above, Firestone Building Products Company ("Firestone"), an Indiana limited liability company, warrants to the Building Owner ("Owner") above that Firestone will, subject to the Terms, Conditions and Limitations set forth below, repair any leak in the Firestone Roofing System ("System").

### TERMS, CONDITIONS AND LIMITATIONS

1. The System is limited to mean the Firestone-brand reinforced membranes, Firestone brand insulation, Firestone brand metal, and other Firestone brand accessories when installed in accordance with Firestone technical specifications.
2. In the event any leak should occur in the System: (a) The Owner must give written notice to Firestone within thirty (30) days of any occurrence of a leak. By so notifying Firestone, the Owner authorizes Firestone or its designee to investigate the cause of the leak. (b) If upon investigation, Firestone determines that the leak is not excluded under the Terms, Conditions and Limitations set forth herein, the Owner's sole and exclusive remedy and Firestone's liability will be limited to the repair of the leak. (c) Should the investigation reveal that the leak is excluded under the Terms, Conditions and Limitations, the Owner is responsible for payment of the investigation costs. Failure by Owner to pay for these costs shall render this Red Shield Roof System Limited Warranty ("Limited Warranty") null and void. Firestone will advise the Owner of the type and/or extent of repairs required to be made at the Owner's expense that will permit this Limited Warranty to remain in effect for the unexpired portion of its term. Failure by the Owner to properly make these repairs in a reasonable manner using a Firestone licensed applicator and within a reasonable time shall render this Limited Warranty null and void. (d) Any dispute, controversy or claim between the Owner and Firestone concerning this Limited Warranty shall be settled by mediation. In the event that the Owner and Firestone do not resolve the dispute, controversy or claim in mediation, the Owner and Firestone agree that neither party will commence or prosecute any suit, proceeding, or claim other than in the courts of Hamilton County in the state of Indiana or the United States District Court, Southern District of Indiana, Indianapolis Division. Each party irrevocably consents to the jurisdiction and venue of the above-identified courts.
3. Firestone has no obligation under this Limited Warranty unless and until Firestone and the licensed applicator have been paid in full for all materials, supplies, services, warranty costs and other costs which are included in, or incidental to, the System.
4. As a special term of this warranty, Firestone will repair any leaks caused by unintentional and occasional damage to the membrane as a result of rooftop inspection, maintenance or service.
5. Firestone shall have no obligation under this Limited Warranty, or any other liability, now or in the future (except as noted in 4. above) if a leak or damage is caused by: (a) Natural forces, disasters, or acts of God including, but not limited to, winds in excess of 55 MPH, hurricanes, tornadoes, hail, lightning, earthquakes, atomic radiation, insects, or animals; (b) Any act(s), conduct or omission(s) by any person, or act(s) of war, which damages the System or which impairs the System's ability to resist leaks; (c) Failure by the Owner to use reasonable care in maintaining the System, said maintenance to include, but not limited to those items listed on the reverse side of this Limited Warranty titled "Building Envelope Care and Maintenance Guide"; (d) Deterioration or failure of building components, including, but not limited to, the roof substrate, walls, mortar, HVAC units, etc.; (e) Condensation or infiltration of moisture in, through, or around the walls, copings, rooftop hardware or equipment, building structure or underlying or surrounding materials; (f) Any acid, oil, harmful chemical, chemical or physical reaction and the like which comes in contact with the System, which damages the System, or which impairs the System's ability to resist leaks; (g) Alterations or repairs to the System not approved in writing by Firestone; (h) The architecture, engineering, construction or design of the roof, roofing system, or building. Firestone does not undertake any analysis of the architecture or engineering required to evaluate what type of roof system is appropriate; (i) A change in building use or purpose; (j) Deterioration caused by marine salt water atmosphere or by regular spray of either salt or fresh water. (k) Failure to give proper notice as set forth in paragraph 2(a) above.
6. This Limited Warranty is transferable subject to Firestone inspection, approval, and payment of the current transfer fee.
7. During the term of this Limited Warranty, Firestone, its designated representative or employees shall have free access to the roof during regular business hours. In the event that roof access is limited due to security or other restrictions, Owner shall reimburse Firestone for all reasonable costs incurred during inspection and/or repair of the System that are due to delays associated with said restrictions. Owner shall be responsible for the removal and replacement of any overburdens, superstrata or overlays, either permanent or temporary, excluding accepted stone ballast or pavers, as necessary to expose the system for inspection and/or repair.
8. Firestone's failure to enforce any of the terms or conditions stated herein shall not be construed as a waiver of such provision or of any other terms and conditions of this Limited Warranty.
9. This Limited Warranty shall be governed and construed in accordance with the laws of the State of Indiana without regard to conflict of laws.

FIRESTONE DOES NOT WARRANT PRODUCTS INCORPORATED OR UTILIZED IN THIS INSTALLATION THAT IT HAS NOT FURNISHED. FIRESTONE SPECIFICALLY DISCLAIMS LIABILITY, UNDER ANY THEORY OF LAW, ARISING OUT OF THE INSTALLATION OR PERFORMANCE OF, OR DAMAGES SUSTAINED BY OR CAUSED BY, PRODUCTS NOT FURNISHED BY FIRESTONE. THIS LIMITED WARRANTY SUPERSEDES AND IS IN LIEU OF ALL OTHER WARRANTIES OR GUARANTEES WHETHER WRITTEN OR ORAL, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THIS LIMITED WARRANTY SHALL BE THE OWNER'S SOLE AND EXCLUSIVE REMEDY AGAINST FIRESTONE, AND FIRESTONE SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, SPECIAL, INCIDENTAL OR OTHER DAMAGES INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS OR DAMAGE TO THE BUILDING OR ITS CONTENTS OR THE ROOF DECK. THIS LIMITED WARRANTY CANNOT BE AMENDED, ALTERED OR MODIFIED IN ANY WAY EXCEPT IN WRITING SIGNED BY THE PRESIDENT OF FIRESTONE OR A PERSON TO WHOM HIS AUTHORITY HAS BEEN DELEGATED IN WRITING. NO OTHER PERSON HAS ANY AUTHORITY TO BIND FIRESTONE WITH ANY REPRESENTATION OR WARRANTY WHETHER ORAL OR WRITTEN.

**BUILDING ENVELOPE CARE AND MAINTENANCE GUIDE**  
(Recommendations for Buildings with RubberGard MAX Warranted Roofing Systems)

**Congratulations** on your purchase of a Firestone Roofing System! Your roof is a valuable asset and as such should be properly maintained. **All roofs and roofing systems require periodic maintenance to perform as designed and to keep your Limited Warranty in full force and effect.**

1. The building envelope, including the roof, should be inspected at least twice yearly (in the Spring and Fall), and after any severe storms. Record maintenance procedures as they occur. Log all access times and parties working on the roof.
2. Although Firestone roofing membranes are designed to accommodate moderate levels of standing water, the weight of standing water, ice or snow on a roof may exceed building structural design loads. As a consequence, good roofing practice suggests that water not be allowed to remain on the roof for more than 48 hours after a rainfall. Roofs should have slope to drain and all drain areas should remain clean. Bag and remove all debris from the roof since such debris can be quickly swept into drains by rain. This will allow for proper water run-off and avoid overloading the roof with standing water.
3. The Firestone Roofing System should not be exposed to acids, solvents, greases, oil, fats, chemicals and the like. If the Firestone Roofing System is subject to contact with any such materials, contact Firestone immediately.
4. The Firestone Roofing System is designed to be a waterproofing component -- not a traffic-bearing component -- of the building envelope. If there is to be roof traffic for any reason, contact Firestone or your Firestone Licensed Applicator for the installation of acceptable protective walkways. Coverage for repair to membrane damage in item 4 on the face of this warranty does not absolve the owner of the duty to protect the membrane from damage during rooftop activities.
5. Although periodic inspection is recommended to assure that building components have not been subjected to unusual forces or conditions, the Firestone Roofing System components do not require maintenance under normal service in order to perform as designed or to keep this Limited Warranty in effect. Surfacing, such as coatings, are sometimes applied to roof membranes for a number of reasons. These surfacings are not covered under the terms of this limited warranty, although they may be covered under a separate agreement.
  - a) EPDM and other single-ply roofing membranes do not normally require surface maintenance other than periodic inspection for contaminants ( See Item 3. ) or damage. Occasionally, approved liquid roof coatings, such as Firestone AcryliTop, are applied to the surface of EPDM membranes in order to provide a lighter surface color. Such coatings do not need to be maintained to assure the performance of the underlying EPDM roof membrane, but some maintenance and re-coating may be necessary in order to maintain a uniform surface appearance.
6. All counterflashing, metal work, drains, skylights, equipment curb and supports, and any other rooftop accessories functioning in conjunction with the Firestone Roofing System must be properly maintained at all times.
7. If any additional equipment is to be installed on your roof (e.g. HVAC units, TV antennas, etc.), contact Firestone, in writing, for approval before proceeding.
8. Should there be an addition to the building, requiring tie-in to the existing Firestone Roofing System, contact Firestone before proceeding to ensure the tie-in is in accordance with Firestone specifications.
9. Should you have a problem:
  - a) Check for the obvious: clogged roof drains, loose counterflashings, broken skylights, open grills or vents, broken water pipes.
  - b) Note conditions resulting in leakage. Heavy or light rain, wind direction, temperature and time of day that the leak occurs are all-important clues to tracing roof leaks. Note whether the leak stops shortly after each rain or continues to drip until the roof is dry. If you are prepared with the facts, the diagnosis and repair of the leak can proceed more rapidly.
  - c) Contact Firestone Warranty Claims at 1-800-830-5612 immediately...but please don't call until you are reasonably sure that the Firestone Roofing System is the cause of the leak.

Firestone feels that the preceding recommendations will assist you, the building owner, in maintaining your building for many years. Remember, your building is an investment. To maximize your return on this investment, appropriate care is essential.
