

EverGuard® Standing Seam Single Ply Roofing Systems

Data Sheet

Updated: 8/09

*Quality You Can Trust Since 1886...
From North America's Largest Roofing Manufacturer™*

ARCHITECTS & PROPERTY OWNERS:

“Now, achieve the architectural look of a standing seam metal roof... at a fraction of the cost!”

EverGuard® Self-Adhering Architectural Profiles allow property owners and architects to achieve the look of standing seam metal roofing—using cost-effective TPO membranes.

Benefits for Property Owners

- **Lower Initial Investment...**can save up to 50% on initial installed cost versus metal roofing
- **Low Life Cycle Cost...**TPO membranes provide proven, long-term water-tight protection and, unlike metal roofing, will not rust, corrode, dent, or require regular resurfacing
- **Looks Great...**Architectural Profiles are virtually indistinguishable from the “real” thing—only your roofer will know the difference!
- **Proven Performance...**from GAF Materials Corporation, North America’s largest roofing manufacturer

Benefits for Architects & Specifiers

- **Project Savings...**you achieve the architectural look of a standing seam roof, while conserving precious project dollars
- **Design Flexibility...**can be used on a wide variety of roof shapes, sizes, and slopes
- **Long-Lasting Formulation...**made from the same semi-rigid thermoplastic base as EverGuard® membranes for superior compatibility
- **Versatile...**works with all brands of TPO membranes

Benefits for Installers

- **Easiest To Install...**just 4 easy steps
- **Saves Labor...**self-adhering technology allows for faster installation
- **Less Hassle...**no messy chemicals like adhesives or primers needed
- **Readily Availability...**White, Tan, Gray, Regal Red, Regal Blue & Hartford Green
- **Most Color Options...**16 additional eye pleasing colors available
- **Flexibility...**Customize the color to match your project
- **Quality You Can Trust...**Up to 20 year manufacturer guarantees available

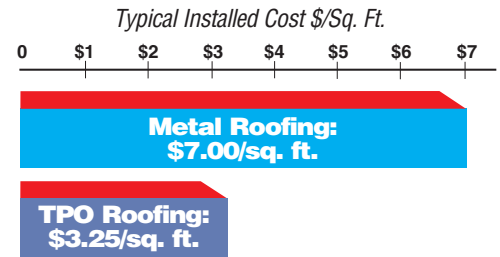

EverGuard®
SINGLE PLY ROOFING SYSTEMS

***Quality You Can Trust Since 1886...from
North America’s Largest Roofing Manufacturer™***

A Fraction Of The Cost Of Metal Roofing...

EverGuard® TPO roofing membranes with EverGuard® Architectural Profiles are just a fraction of the cost of expensive metal roofing...why pay for metal when you can get the same look for about half the price?

Faster, Easier Installation...

Compared to adhesive/tape installation, EverGuard® Architectural Profiles with self-adhering technology require just 4 easy steps to install. You'll save money by installing up to 300% faster.

Step 1 -
Clean membrane

Step 2 -
Establish a guideline

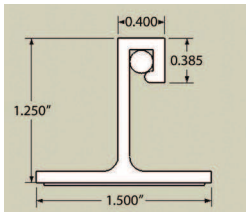

Step 3 - Remove tape/
affix to membrane

Step 4 - Permanently
weld with secure rod

Product Specifications...

Standing Seam Profiles for lineal installations

Material Composition:
Semi-rigid thermoplastic

Adhesive Technology:
Self-adhering pressure-sensitive adhesive

Length:
10' (2.39 m) - plastic dowels available to join individual lengths as necessary

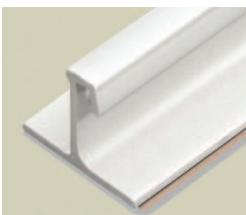

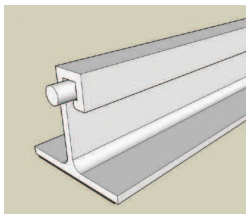

Height/Width:
See drawings above

Packaging:
30 10'- lengths per box

Max. Roof Pitch:
Unlimited

UV resistant:
Yes

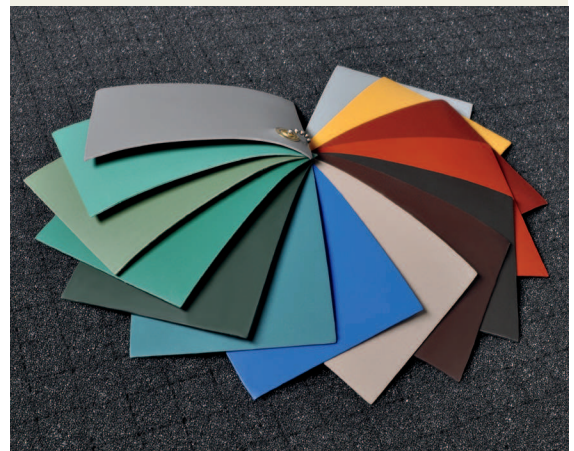

End-joint connection:
3" custom plastic dowel (shown above)

Customize Your TPO Project With Color Membranes...

**6 stock colors,
16 pre-formulated colors,
and virtually unlimited
custom colors**
