Roof Deck Protection

Quality roofing underlayment is critical for helping to prevent wind-driven rain from infiltrating under the roof's shingles and potentially damaging the home's structure and interior.

Traditional asphalt felt underlayments can tear easily and absorb moisture, leading to wrinkling that “telegraphs” through the shingles. Competitively priced with typical #15 and #30 asphalt felts (pricing varies by market), GAF's FeltBuster™ High-Traction Synthetic Roofing Felt:

- Includes a specially designed surface for enhanced walkability and a cooler working surface (vs. typical black felts)
- Resists tearing on the roof
- Avoids wrinkling that can “telegraph” through the shingles, detracting from the finished look of the roof
- Will not absorb moisture, become brittle, or leach oils

FeltBuster™ High-Traction Synthetic Roofing Felt is a key part of the GAF Lifetime Roofing System, and has even earned the prestigious Good Housekeeping Seal, which means that Good Housekeeping stands behind the products in this system. (Refer to Good Housekeeping Magazine for its consumer protection policy. Applicable in U.S. only.)

FELTBUSTER™

HIGH-TRACTION SYNTHETIC ROOFING FELT

Homeowner's Best Choice

- **Durable Construction...** Non-asphaltic, polypropylene construction for long-lasting performance (unlike conventional felts that can disintegrate over time)
- **A Better-Looking Roof...** Lies flatter than typical felts and avoids "telegraphing" of wrinkles, which can detract from the look of your new roof
- **Peace of Mind...** Part of the GAF Lifetime Roofing System and covered by up to a Lifetime Ltd. warranty when installed on Lifetime Shingle roofs*

Professional's Best Choice

- **Enhanced Walkability...** Special spunbound surface helps provide increased traction vs. traditional asphalt felts
- **Competitively Priced...** Per square with #15 and #30 asphalt felts (pricing varies by market)
- **Tough Synthetic Construction...** Resists tearing underfoot and in high winds
- **Easier to Work With...** Super-lightweight, 10 square, 48" (1.23 m) wide roll (vs. typical 36" [914 mm] wide felt rolls)
- **Cooler to Work On...** Medium-gray surface is up to 30 degrees cooler than typical black asphalt felts**

* See *GAF Shingle & Accessory Ltd. Warranty* for complete coverage and restrictions. The word "Lifetime" means as long as the original individual owner(s) of a single-family detached residence [or the second owner(s) in certain circumstances] owns the property where the shingles and accessories are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable. Lifetime Ltd. warranty on accessories requires the use of at least three qualifying GAF accessories and the use of Lifetime Shingles.

** Based on GAF testing with underlayments installed on plywood deck at 90°F (32.2°C) ambient temperature and left exposed to direct sunlight.

*** **NOTE:** 90-day UV resistance refers to standardized testing conducted by GAF to ensure the product will not physically degrade when exposed to UV. It is **NOT** related to withstanding water, snow, or wind. While FeltBuster™ High-Traction Synthetic Roofing Felt is water resistant, it is **NOT WATERPROOF. DO NOT USE** FeltBuster™ High-Traction Synthetic Roofing Felt as a temporary roof to protect property or possessions.

Nominal Specifications

- For use with asphalt shingles
- 10 squares/roll – 1,000 sq. ft. (92.9 m²) (excludes laps)
- 48" x 250' (1.23 m x 76.2 m)
- Resists UV degradation for up to 90 days***
- Approx. 23 lbs. (10.4 kg)/roll
- Meets or exceeds the physical requirements of ASTM D226 and D4869

Always install FeltBuster™ High-Traction Synthetic Roofing Felt using plastic cap nails or plastic cap staples. Do **NOT** use nails or staples without caps.
