

**Deck Fasteners for Composites & PVC Decking**

Grabber's Barracuda® composite deck screw is the most advanced screw available for composite and PVC decking and features GrabberGard® exterior grade protection. Barracuda's unique shovel point helps drive through even the hardest composite materials. Barracuda® screws drive and seat better than any other deck screws even in the hardest materials including cap stock decking. Barracuda® will not flag, mushroom or halo and seat cleanly and without flagging, haloing or mushrooming.

Barracuda® deck screw colors match most common deck board colors and can be custom ordered to match any deck material.

- ▶ **#9 gauge shank for superior holding power**
- ▶ **Shovel point for quick starts and better driving**
- ▶ **Designed to work with cap stock decking**
- ▶ **Designed not to mushroom, flag or halo**
- ▶ **GrabberGard® coating for exceptional durability**
- ▶ **Star recess for positive driving**
- ▶ **#8 head for better installed appearance**
- ▶ **8 colors match most deck board colors**  
(custom colors also available)

Grabber's Barracuda® composite screws feature GrabberGard® advanced corrosion protection. GrabberGard® is ACQ compliant and is 1000 hour salt spray / 15 cycles Kesternich testing certified. Recommended for PVC or composite material 5 miles or more from salt water.

Available in 375 pc. deck pack, or 2,000 pc. bulk bucket

\* Item numbers listed are for 2,000 count bulk buckets. Add "CP" to the item numbers above for 375 count pack buckets.

Deck built by CFC Fences & Decks (Provo, Utah)

**Designed not to mushroom**

Grabber's premium Barracuda® composite deck screws are much less likely to mushroom composite deck material than competing brands. This is because Barracuda® deck screws pull material out as they drill in instead of compacting the material into the hole causing material to swell and mushroom.

**Competing  
Composite Screws**

**Barracuda®  
Composite Screw**

**Barracuda and Colormax**

**Colormatch legend for Barracuda and Colormax**

Grabber's Barracuda and Colormax deck fastener colors are custom formulated to perfectly match the most popular deck materials from leading manufactures. Don't have the color you need? Grabber can custom match any deck material upon request.
