

Painted Head Stainless Steel Deck Fasteners

COLORMAX®
Painted Head Deck Screws

Grabber's ColorMax® screws offer more perfectly matched colors and more options for your decking and trim than any other competing product. ColorMax® screws are made from 305 stainless steel for superior protection against corrosion and staining. ColorMax® screws are a perfect match for PVC, composite, and cap stock deck material and will not flag, mushroom or halo. ColorMax® screws are ideal for use in high-corrosion environments, such as around pools and spas, where additional protection is required.

#1 Square Drive
Type 17 Point

DrawTite™ Shank | Trim Head - Type 17 Point

Star 20 Drive

Reverse Threads | Serpentine Cut Threads

- ▶ **Serpentine cut threads for easier driving**

- ▶ **8 colors match most deck board colors**
(custom colors also available)

Available in 11lb, 350 pc. or
1,750 pc. bulk bucket

Designed not to mushroom

Grabber's premium ColorMax® 305 stainless steel deck screws are much less likely to mushroom PVC deck material than competing brands. This is because ColorMax® deck screws pull material out as they drill in instead of compacting the material into the hole causing material to swell and mushroom.

305	SIZE	PART NO.	QTY	DESCRIPTION
