

# GROUT PUMP

AIR OPERATED

MODEL GP-3A

**IDEAL FOR GROUTING METAL DOOR FRAMES**

- **Low air consumption**
- **Adjustable output pressure and cycle speed**
- **Easy to operate, minimal maintenance required**
- **Pumps most types of cementitious grout (not for epoxy-type grouts)**
- **Makes an ideal tool for placing grout anywhere that high pressure is not required**
- **Lightweight and compact**
