CONSTRUCTION SHEETING

Poly-America’s construction sheeting is made from polyethylene which provides for optimum in economy and performance. Because of its good weatherability, chemical inertness and toughness, Poly-America’s polyethylene sheeting has successfully been used for over 20 years in a wide variety of applications. Thickness ranges from as little as .3 mil for paint drop cloths to 100 mil for use as landfill liners. Widths range up to 40 ft. If you have a special application or need more information on our products, contact your area sales representative.

Poly-America’s standard sheeting will meet or exceed the following standard technical specifications:

Construction Sheeting

ASTM D4397 (see Tables 1 for Impact Resistance and WVTR requirements)

ASTM C171 Standard Specification for Sheet Materials Used for Curing Concrete

ASTM D4635
- Type 1
- Class 2
- Surface 2
- Finish 1

Federal Specification LP-378
- Type 1
- Class 1
- Grade A or B
- Finish 1

Federal Specification LP-390
- Type I
- Class L
- Grade 1 or 2
- Category 3

Federal Specification LP-512
- Type I
- Class L
Grade 1 or 2

Construction Sheeting Cont.

ASTM D1248
Type 1 (density .910 to .925)
Category 3 (melt index 1 to 10)
Class A or C (A- natural or clear)
(C- black)

ASTM D2103 Standard Classification
12230 (clear)
12231 (black)

Note: If requested custom sheeting can be made to meet the following classifications:
12130 13130 13230 12330 13330

Flexible Packaging Association B11
Type I
Surface II
Class I
Finish I
