

What they're saying

"LS is easier to apply and the floors hold up better than any other product I've used."

—Mike Gibson, Concrete Concept Construction, LLC, Kansas City, Kan.

"That's what intrigued me the most — the brilliance you can get with LS Guard."

—Shawn Wardall, Specialized, Inc., Waterloo, Wis.

"(LS is) a very user-friendly product. Less time involved in application compared to the other products that I've used."

—Tom Aleshire, Allied Industrial Coatings, Owassa, Okla.

CONSOLIDECK®

HIGH PERFORMANCE CONCRETE

Attractive • Durable
Easy to maintain

products for ultimate
sustainable floors

Prepare

Consolideck® surface prep cleaners and stain removers ensure concrete floors are ready for hardening/densifying and other treatments and coatings that improve floors' appearance and performance, and extend service life.

PreKlean - removes laitance and salts from new concrete floors.

SafEtch® - clean and prepare textured concrete for conventional surface coatings.

SafStrip - Safely remove paint, traffic markings and high-strength coatings.

SafStrip 8 - Neutral pH stripper rids polished concrete of paints and coatings.

Wax & Cure Remover - Remove accumulated waxes and cures.

Cleaner/Degreaser - Remove surface oil, grease and traffic staining.

Oil & Grease Stain Remover - Remove embedded oil and grease stains.

Concrete Floor Restorer - Clean and restore high-traffic concrete floors.

Cure & Seal remover - Removes the toughest high-solids cure & seals.

Harden & Densify

Consolideck® lithium-silicate hardener/densifiers save huge amounts of time and money because they don't need scrubbing and flushing like old-fashioned sodium- and potassium-silicate products. Just spray and walk away! Treated floors dry in about an hour.

LS™ - premium lithium silicate hardener and densifier.

LS/CS™ - economical lithium silicate hardener & densifier.

Create high performance concrete floors that protect indoor air quality with these SCS Indoor Advantage™ Gold certified products:

Consolideck® LS™
Consolideck® LS/CS™
Consolideck® LSGuard™
Consolideck® GemTone Stain

Decorate

Consolideck® water-based stains can be used alone or layered over integrally colored, acid-stained or color-hardened concrete for an unlimited range of rich colors. Use Consolideck® water-based solid colors for intricate designs, colorful borders or area-designation.

GemTone Stains - Penetrating, translucent stains come in 13 rich colors bringing deep, gem-like hues to concrete floors.

The Consolideck® floor system can contribute to LEED® points for EA Prerequisite 2, EA Credits 3.1, 3.2, 4.2, and ID Credit 1-1.4. Use SCS Certified Indoor Advantage Gold products to help obtain CHPS and LEED® for Schools EQ Credit 4 points.

GemTone ColorCoat - Durable water-based color coat comes in 15 colors.

SafetyColor - Bright water-based color coat comes in all ANSI safety colors for clearly marking important spaces.

Protect

The Consolideck® line includes the industry's best-performing, longest-lasting products for protecting concrete flatwork from destructive water, salt and stain attack indoors or out.

LSGuard™ - Long-lasting high-gloss sealer, hardener and densifier maximizes light-reflectance and protects stained and polished floors. No more constant re-coating with waxes, polishes or conventional resins. Ever!

Green your floor maintenance program. Consolideck® floors reduce use of waxes, polishes and stripping products.

SLX100™ - Penetrates deeply to protect concrete from water, oil and other stains.

SL100 - High-coverage, deep penetration water-repellent for concrete.

Saltguard® - Protects flatwork from harmful penetration of water and water-carried salts.

Saltguard® WB - Water-based salt and water-blocker.

SingleStep™ - One product cures AND seals concrete.

DuraSheen - Slip-resistant, high-gloss cure and seal for concrete.
