Dusk Grey

A REMARKABLE COMBINATION OF BEAUTY AND PERFORMANCE.

Dusk Grey with Mulberry Accent
Offset Exposure

There is nothing quite like the old world charm of Lamarite® Slate Composite Shingles. With their authentic contours, multiple patterns and chiseled edge appearance, they capture everything you love about natural slate. And as a natural stone composite that contains ground limestone, Lamarite offers so much more. The shingles are lighter than natural slate, so they don't require additional structural supports. Lamarite shingles are listed for UL Class A fire resistance and UL Standard 2218, Class 4 impact resistance and come with a 50-year Limited Warranty!¹ And recent enhancements, such as several ENERGY STAR® qualified cool colors, have made Lamarite a more attractive choice than ever.

¹To obtain a copy of TAMKO's Limited Warranty, visit us online at tamko.com or call us at 1-800-641-4691.

Note: As with real slate, Lamarite Slate Composite Shingles will weather to a lighter shade after exposure to the environment, creating a natural, beautiful look. Increased variation in color uniformity may occur to Lamarite shingles in the vicinity of exposed copper or other metals. TAMKO® recommends viewing an actual roof installation or several full-size shingles prior to final color selection for the full impact of color blending and patterns. Reproduction of these colors is as accurate as modern printing will permit.

IF YOU CAN DREAM IT,
YOU CAN CREATE IT.

Dusk Grey, Mulberry and Slate Green
Uniform Exposure

There are countless ways to create old world beauty with Lamarite® Slate Composite Shingles. The shingles are offered in 5-, 7- and 12-inch widths, and they can be applied with uniform or offset exposure. Diamond and scallop shingles can be incorporated to further distinguish the look. If you'd like, you can also choose from five new pre-blended design palettes, each of which creates a stunning slate look.

To obtain a copy of TAMKO's Limited Warranty, visit us online at tamko.com or call us at 1-800-641-4691.

Note: As with real slate, Lamarite Slate Composite Shingles will weather to a lighter shade after exposure to the environment, creating a natural, beautiful look. ADD WARMTH WITH THE RUSTIC LOOK OF SHAKE.

Weathered Wood
Uniform Exposure

Shake shingles have forever been a favorite roofing material among homeowners, adding warmth and character with the rustic appearance they create. Lamarite® Shake Composite Shingles provide the ideal way to capture the rustic beauty you want while also instilling greater peace of mind. Made with a robust composite material, these shingles are listed for UL Class A fire resistance and UL Standard 2218, Class 4 impact resistance, and they come with a 50-year Limited Warranty! The beauty of wood. The performance of Lamarite.

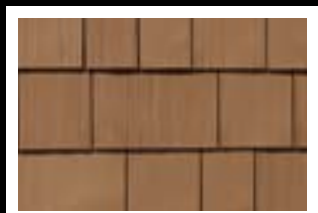

¹To obtain a copy of TAMKO's Limited Warranty, visit us online at tamko.com or call us at 1-800-641-4691.

TAMKO® Felt
Options

Nail Fast®

TAMKO® offers a complete line of organic, fiberglass-reinforced and synthetic roofing underlayments for use prior to the application of shingles. Tam-Shield synthetic underlayment is the most recent addition to the line, offering several compelling advantages over traditional felt products including lighter weight, greater coverage, better tear resistance and a cooler working surface on the roof. TAMKO also offers a wide range of self-adhering SBS-modified underlayments and saturated organic felt options.

WATERPROOFING

CONFIDENCE BEGINS WITH PROVEN WATERPROOFING PROTECTION.

TW Window & Door Flash

TW Flash-N-Wrap®

TW-60

TAMKO® SBS-modified waterproofing products feature peel-and-stick application for ease of use and better adhesion for outstanding protection. Options are available both for above- and below-grade applications. TW-60 is a flexible sheet waterproofing membrane that is well suited for below-grade applications such as foundation walls and ICF forms. TW Window & Door Flash membrane is well suited for above-grade applications to help seal window and door perimeters.

TAMKO® Cements
and Coatings

The TAM-PRO® and TAMKO® lines of Asbestos-Free Cements and Coatings are formulated to provide the precise mix required for durability and ease of application. TAM-STAR and TAM-GUARD Asbestos-Free White Elastomeric Coatings provide protection from harmful ultraviolet and infrared radiation, and their highly reflective surfaces help enhance a building's energy efficiency.

The TAM-STAR Coating is an ENERGY STAR® product.
Both TAM-STAR and TAM-GUARD Coatings are CRRC rated.

When installed properly, this product may help reduce cooling costs. Actual savings, if any, will vary based on geographical location and individual building characteristics. Consult your product manufacturer, roofing contractor or call 1-888-STAR-YES (1-888-782-7937) for more information. ENERGY STAR® only valid in U.S.

TAMKO® pioneered commercial roofing in 1978 with the introduction of Awaplan, America's first and finest.

SBS-MODIFIED ROLL ROOFING

Weathered Wood

PERFORMANCE THAT STANDS THE TEST OF TIME.

Awaplan SBS-Modified Family of Products

TAMKO® SA Base and Cap

Base and Ply Sheets, Cap Sheets and Flashings

Whether you're building a new addition or reroofing a porch or garage, there's no better choice than Awaplan roll roofing products from TAMKO®. They provide added protection from the elements in valleys and low-sloped areas where shingles are not recommended. Commercial contractors also trust Awaplan products for excellent performance on commercial jobs. In addition to Awaplan products, TAMKO SA Base and Cap self-adhering SBS-modified roofing systems combine the proven performance advantages of SBS-modified sheet membranes with the installation ease of a self-adhering product. TAMKO also offers base and ply sheets, cap sheets and flashings for residential and commercial applications.

As the only compression molded composite decking, EverGrain® creates a deep lasting grain with remarkable natural beauty.

ONLY EVERGRAIN® IS COMPRESSION MOLDED FOR DEEP GRAIN BEAUTY.

**Deck color is Redwood.
Photo of actual deck in Evergreen, Colorado.**

Nothing enhances the enjoyment of outdoor living quite like EverGrain® Composite Decking. It's made with TAMKO's exclusive compression molding process that creates deep grain beauty¹ in a strong board with outstanding durability and consistency. EverGrain decking requires no staining or painting and comes with a 20-year Limited Warranty,² including a 5-year Full Start Period.

¹ Before making your purchase, view several full-length boards. Representation of these colors is as accurate as modern printing will permit. As with any composite product, color variations will occur. View several full-length pieces of material prior to final color selection and installation. Colors will usually weather to a lighter shade within the first several months of exposure to the environment. Color selection may vary across profiles.

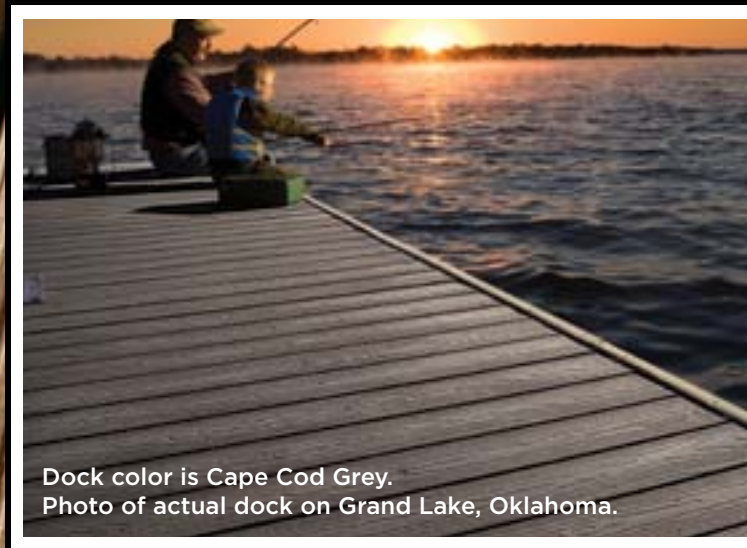

² To obtain a copy of the Limited Warranty, visit us online at tamko.com or call us at 1-800-641-4691.
