RESIDENTIAL PRODUCT GUIDE

Celebrating 65 years of innovation.

TAMKO® is a company that has always focused on the future. What started in 1944 as a single 3-tab asphalt shingle line has evolved into

a comprehensive selection of residential building products. In 2009,

TAMKO celebrates 65 years of doing business with the same commitment to looking forward.

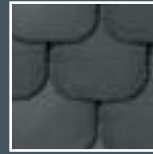

The products in this Residential Product Guide reflect TAMKO's dedication to innovation and continuous product improvement. It's a formula that has made TAMKO the preferred choice of roofers, builders and homeowners nationwide.

LAMARITE[®] SLATE
COMPOSITE SHINGLES **TAMKO**

The beauty of slate. The performance of Lamarite.[®]

Homeowners have long used slate shingles to add distinction and character to their homes. They create a magnificent beauty and allure that is surpassed only by nature itself. Now Lamarite[®] Slate Composite Shingles offer the sleek, refined beauty of real slate without the high cost and performance issues.

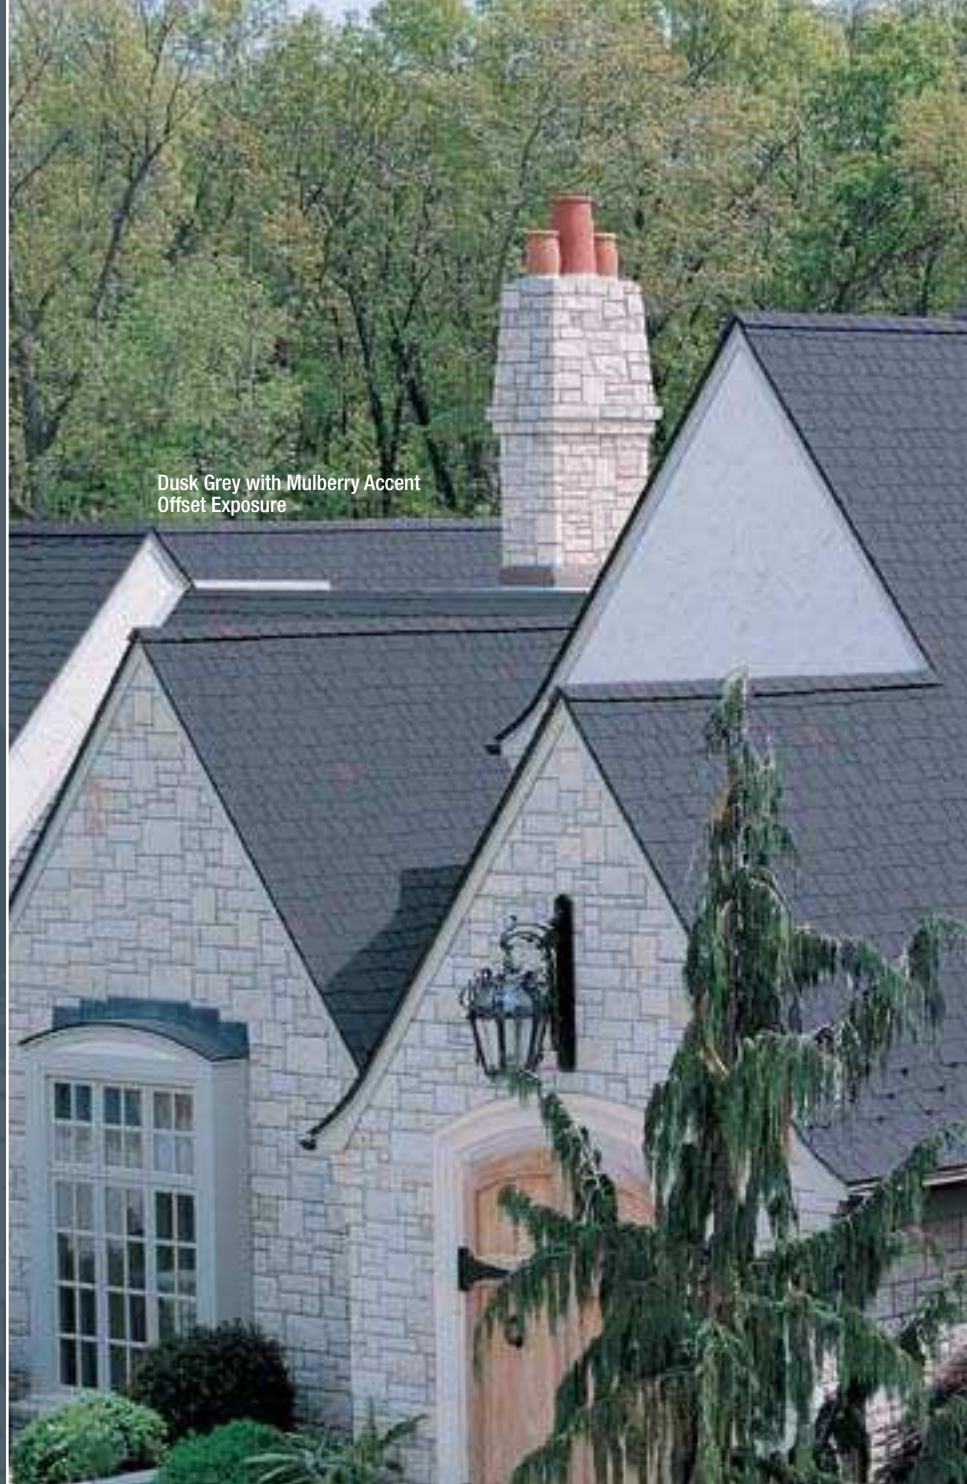

Made from innovative composite materials that are robust, fire resistant and enduring, Lamarite Slate Composite Shingles offer the natural beauty of real slate with the performance of Lamarite. Cool color options are available by special order to help provide energy savings. Lamarite shingles are listed for U.L. Class A fire resistance and U.L. Standard 2218, Class 4 impact resistance. A 50-year limited warranty* underscores the outstanding performance. Available in 5-, 7- and 12-inch widths.

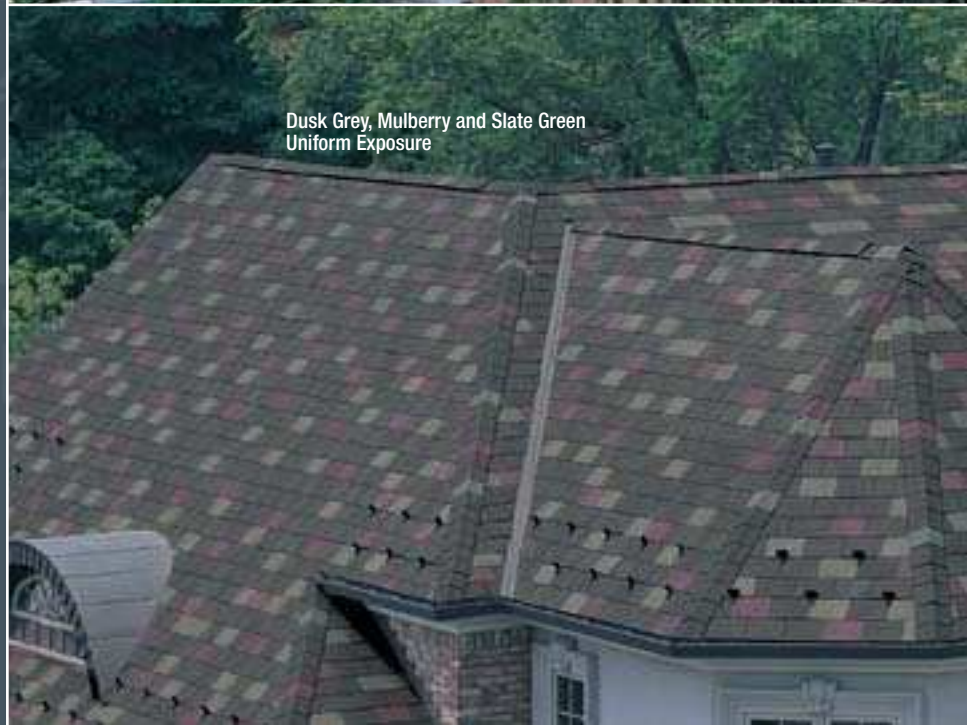

NOTE: TAMKO[®] RECOMMENDS VIEWING AN ACTUAL ROOF INSTALLATION OR SEVERAL FULL-SIZE SHINGLES PRIOR TO FINAL COLOR SELECTION FOR THE FULL IMPACT OF COLOR BLENDING AND PATTERNS. REPRODUCTION OF THESE COLORS IS AS ACCURATE AS MODERN PRINTING WILL PERMIT.

U.S. PATENT NO. 7,475,516

LAMARITE[®] SLATE
COMPOSITE SHINGLES **TAMKO**

Individualizing the look.

Lamarite[®] Slate Composite Shingles offer extensive design versatility to individualize the look. A single color can be used throughout, or several colors can be mixed to create a unique combination.

Colors & Exposure

Whether you prefer a uniform or random color scheme, you can achieve a truly unique look by using various widths at different exposure lengths, or by using an occasional accent color.

Scalloped and Diamond-Cut Shingles

All the classic beauty of Lamarite Slate Composite Shingles is also available in scalloped and diamond-cut variations, offering even more ways to add distinction to your home.

NOTE: TAMKO[®] RECOMMENDS VIEWING AN ACTUAL ROOF INSTALLATION OR SEVERAL FULL-SIZE SHINGLES PRIOR TO FINAL COLOR SELECTION FOR THE FULL IMPACT OF COLOR BLENDING AND PATTERNS. REPRODUCTION OF THESE COLORS IS AS ACCURATE AS MODERN PRINTING WILL PERMIT.

LAMARITE® SHAKE
COMPOSITE SHINGLES **TAMKO**

The rustic look of shake with greater peace of mind.

Shake shingles have forever been a favorite among homeowners, adding warmth and character with the rustic appearance they create. Unfortunately, high maintenance and safety concerns are also inherent to real wood—often making it impractical for those who seek its natural beauty.

Now there's a better option. Lamarite® Shake Composite Shingles are made with a robust composite material that provides both beauty and protection—in a product with incredible shake-like beauty. They are listed for U.L. Class A fire resistance and U.L. Standard 2218, Class 4 impact resistance, and they come with a 50-year limited warranty.* Available in 5-, 7- and 12-inch widths.

NOTE: TAMKO® RECOMMENDS VIEWING AN ACTUAL ROOF INSTALLATION OR SEVERAL FULL-SIZE SHINGLES PRIOR TO FINAL COLOR SELECTION FOR THE FULL IMPACT OF COLOR BLENDING AND PATTERNS. REPRODUCTION OF THESE COLORS IS AS ACCURATE AS OUR PRINTING WILL PERMIT.

Classic look. Contemporary protection.

METALWORKS® Steel Shingles offer the classic looks of slate, wood and tile with the contemporary protection of metal. They are listed for U.L. Class 4 impact resistance and come with a 50-year limited warranty.*

STONECREST® SLATE Steel Shingles create a dramatic look that closely replicates the random finish of natural slate. They're made with heavier-gauge steel and double stamped for stunning beauty and durability.

ASTONWOOD® Steel Shingles create the traditional look of real wood shingles with a modern twist. They are incredibly durable to help assure years of lasting beauty.

STONECREST® TILE Steel Shingles create the distinctive look of smooth, uniform tile. For those who appreciate a classic, refined appearance, these shingles provide outstanding performance and value.

METALWORKS Cool Colors

MetalWorks Steel Shingles are available with high solar reflectance to help lower energy costs. These products are rated by the Cool Roof Rating Council—a testament to the energy savings that can be achieved. For more information on MetalWorks cool colors, contact your local sales representative or visit us online at metalworksroof.com.

Heritage® 30/50

Laminated Asphalt Shingles

Choose a timeless favorite.

Features such as the rich Shadowtone granule blend, extensive color options and superior performance have established the Heritage® Series as the premier laminated asphalt shingle choice. The shingles come with a 30- or 50-year limited warranty* and also come with a 10-year Algae Relief—Algae Cleaning limited warranty** in select areas.

Classic Heritage Colors have been beloved by Americans for generations. In shades of muted greys to warm, rustic browns, each color in this classic collection adds timeless beauty to a home.

Color selection varies by production plant location. Please reference TAMKO's color chart, visit us online at tamko.com or contact TAMKO® for further information.

NOTE: TAMKO RECOMMENDS VIEWING AN ACTUAL ROOF INSTALLATION OR SEVERAL FULL-SIZE SHINGLES PRIOR TO FINAL COLOR SELECTION FOR THE FULL IMPACT OF COLOR BLENDING AND PATTERNS. REPRODUCTION OF THESE COLORS IS AS ACCURATE AS OUR PRINTING WILL PERMIT.

Asphalt Shingle Accessories

Reinforce the performance with quality TAMKO® accessories.

Laminated shingles by TAMKO® create striking beauty to enhance the curb appeal of any home. Choosing to complement the shingles with quality TAMKO accessories will reinforce their beauty and help provide years of durable protection.

Shingle Starter and Hip and Ridge Shingles
Preformed starter course shingles are used to start the first course of shingles, while preformed Hip and Ridge shingles provide the finishing touch.

Ventilation Products

Installing TAMKO ventilation products is a simple step for a contractor that can have dramatic results for a homeowner. Used in conjunction with soffit vents, these products help to assure proper roof ventilation.

Rapid Ridge®

CoolRidge®

Roll Vent®

TAM-PRO® Asbestos-Free Cements & Coatings

Asbestos-free
and energy efficient.

Made from the highest-quality bituminous ingredients, the TAM-PRO® line of 100%-asbestos-free cements and coatings is formulated to provide the precise mix required for durability and ease of application. Professional roofers trust the proven performance of these products for a wide variety of uses, from flashing details to energy-efficient cool roofs.

TAMKO's TAM-STAR and TAM-GUARD asbestos-free white elastomeric coatings provide years of protection from harmful ultraviolet and infrared radiation. These products feature highly reflective surfaces to also help lower a building's roof and interior temperatures and thus lower energy bills for the building owner. The TAM-STAR coating is an Energy Star® product. Both TAM-STAR and TAM-GUARD coatings are CRRC rated.

Underlayments

Add a layer of protection from the elements.

TAMKO® offers a complete line of organic and fiberglass-reinforced roofing underlayments for use prior to the application of shingles. Self-adhering TW Metal and Tile Underlayment and TW Underlayment are both well suited for application under metal and mechanically fastened tile roofs where prevention of water penetration is required. Self-adhering Moisture Guard Plus® underlayment provides an extra layer of waterproofing protection to help prevent water penetration caused by windblown rain or ice damming. Nail Fast® utility underlayment features SBS-modified asphalt for added flexibility and durability. A wide range of organic felt options is also available.

TW Metal & Tile Underlayment

Moisture Guard Plus

Waterproofing

Where water ends and confidence begins.

TAMKO® waterproofing products are formulated with SBS-modified asphalt to help provide superior protection from water infiltration. These sheet membranes feature peel-and-stick application for ease of use, accuracy and better adhesion for outstanding protection. Products are available both for above- and below-grade applications.

TW Window & Door Flash is a flexible self-adhering rubberized asphalt sheet membrane that is well suited for sealing window and door perimeters. It has a white polymer film surface that resists U.V. degradation for up to 180 days and a removable treated release film on the adhesive side.

Modified Roll Roofing

Performance that stands the test of time.

Whether you're building a new addition or reroofing a porch or garage, there's no better choice than Awaplan roll roofing products from TAMKO®. They provide an added measure of protection from the elements in valleys and low-sloped areas where shingles are not recommended. Mineral-surfaced and smooth roll roofing products are available. Like all TAMKO products, they're proven to last a long, long time.

Commercial offerings that instill confidence.

Commercial contractors also look to TAMKO for proven quality products, including base and ply sheets, cap sheets and flashings. Our flagship product, Awaplan, is the industry's first and finest SBS-modified roll roofing. Designed to help ease installation, TAMKO's commercial offerings have set the industry standard for strength and performance for more than 50 years.

EverGrain® Composite Decking

TAMKO

EverGrain®. Seeing is believing.®

Whether you want to create a family room or a secluded escape, you can do it with EverGrain® compression molded composite decking. With its deep lasting grain* and outstanding durability, EverGrain provides the ideal way to enhance your outdoor living experience. Designed for those who love the natural look of real wood with low maintenance. EverGrain decking requires no staining or painting and is available in nine beautiful colors** to perfectly complement any home. EverGrain comes with a 25-year limited warranty.†

EG 1•2•3 Hidden Fastener

EG 1•2•3 Hidden Fasteners enable you to create a smooth deck surface for a whole new level of style and sophistication. There's no better way to dramatize the deep grain beauty of EverGrain decking.

Add a stunning effect with a product designed exclusively for EverGrain decking. Choose EG 1•2•3 Hidden Fasteners.

* To fully appreciate the variety of wood grain patterns in EverGrain decking, view several full-length boards.

ENVISION PVC™ DECKING TAMKO

Redefining deck performance and durability.

Envision PVC™ decking offers all the low maintenance durability of PVC decking materials—as well as additional performance attributes that make it even easier to appreciate. Envision PVC decking contains no fillers such as plant fibers, wood or sawdust, for consistent density and moisture resistance. It also provides excellent resistance to staining, scratching, splitting, splintering and color fading. And with its striking realistic wood grain finish and grooved board for hidden fastener installation, it creates a distinctively beautiful extension to your home.

Envision PVC decking features a Class A rating E-84 for flame spread and comes with a 25-year limited warranty.*

View a full-length board to fully appreciate the wood grain pattern of Envision PVC decking. Representation of these colors is as accurate as our printing will permit. View several full-length pieces of material prior to final color selection and installation.
