

TERRAZZO

TERRAZZO TILES & SLABS

floor • wall • countertop

Add excitement to your space with Daltile's American-made Terrazzo Collections. With five different Terrazzo Collections to choose from and an array of vibrant color options, there are endless possibilities to complement any design. Factory sealed with state-of-the-art PROADVANCED™ Protection sealer makes it ideal for floor, wall or countertop applications. The revolutionary PROADVANCED™ Protection technology helps repel common household stains. Illuminate a room with elegance and make a splendid statement with the versatile and durable tiles and slabs from the Terrazzo Collections.

TERRAZZO TILES & SLABS FACTORY SEALED

PROTECT YOUR INVESTMENT

Daltile's Terrazzo Collection of tiles and slabs are now factory pre-sealed with Daltile's state-of-the-art PROADVANCED™ Protection sealer. The PROADVANCED™ Protection sealer provides Terrazzo tiles and slabs an invisible layer of powerful protection.

- PROADVANCED™ Protection sealer was independently lab-tested and is believed to be the highest performing product of its kind.
- Repels common household stain hazards including coffee, red wine, mustard, ketchup, cooking oil and soy sauce.
- Engineered by DuPont™, a pioneer in stain protection.

TILE WARRANTY

- 1-year surface warranty on Terrazzo tiles for both residential and commercial uses.

SLAB WARRANTY

- 15-year, fully transferable, surface warranty on Terrazzo slabs for residential use.
- 8-year surface warranty on Terrazzo slabs for commercial use.
- Warranty covers replacement labor and materials.
- Warranty includes substantial discount on the purchase of all professional-grade stone care products from DuPont™.

TILE

SLABS

RECYCLED PORCELAIN & GLASS AGGREGATE

OUR CONTRIBUTION TO ENVIRONMENTAL STEWARDSHIP

Daltile Terrazzo tiles and slabs now incorporate recycled glass and porcelain, providing the opportunity to earn credits towards LEED™ certification. Using an innovative process, we are able to use recycled glass aggregate in all concrete and epoxy-based products. The glass aggregate percentage by weight/volume can be up to 56% in some products. In 2009, over 1.1 million pounds of recycled glass was used in manufacturing of this product. Besides the environmental benefit, recycled glass produces a beautiful appearance and allows for a wide variety of color choices.

Daltile can manufacture custom colors where the porcelain can be up to 100% direct replacement for aggregate providing a green product at a low cost. In addition, the amount of cement necessary for fabrication has been reduced by substituting a portion of the cement with fly ash, and utilize slag in manufacturing our concrete-based products when possible.

THE TERRAZZO COLLECTION MAKES IT EASY TO QUALIFY FOR LEED CREDITS:

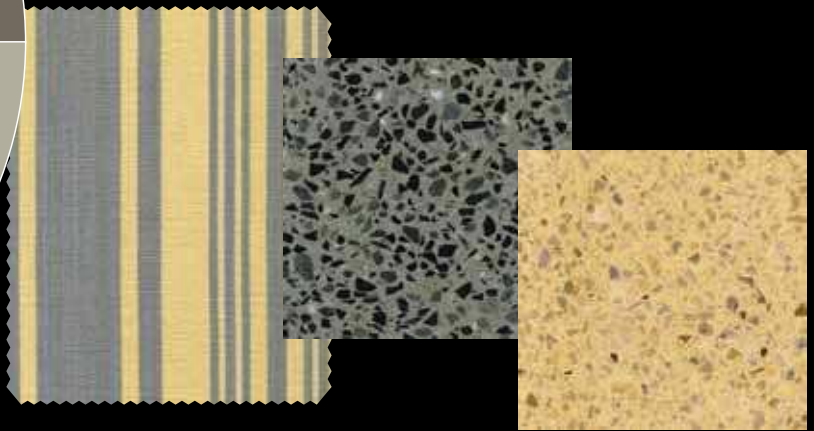

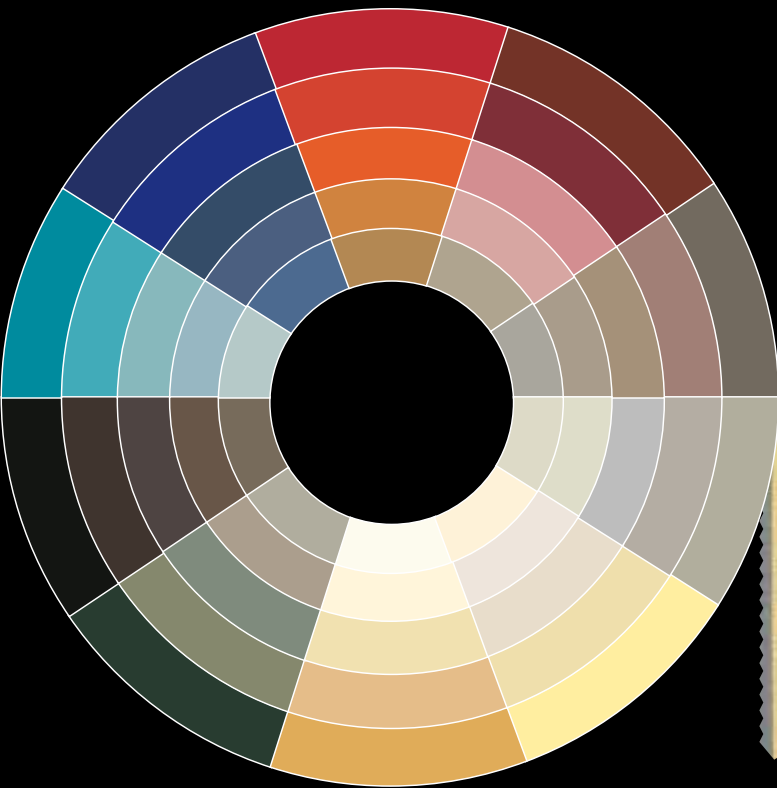

- We use a variety of recycled materials in order to aid in reducing the amount of virgin material needed to manufacture our products. (MR Credit 4)
- Daltile purchases as many raw materials as possible within 500 miles of our Terrazzo manufacturing facility. (MR Credit 5)
- Our Terrazzo products contribute to reducing the quantity of indoor air contaminants that are odorous, irritating and/or harmful to the comfort and well being of installers and occupants (IEQ Credit 4.3).

ENDLESS CUSTOM COLOR POSSIBILITIES

FLAWLESSLY COMPLEMENT ANY SPACE

Show us the custom color you are looking to achieve, and our skillful team will develop a Terrazzo tile or slab to match. Picture the furniture and atmosphere or bring in a paint or fabric swatch, and let Daltile's custom color Terrazzo team develop the perfect color for your design project.

MOLD-TO-SIZE CAPABILITIES

BREAK FREE FROM THE MOLD

To allow you even more design freedom, Daltile offers custom Mold-to-Size options. Mold-to-Size is the perfect way to get the custom size, color, sink and faucet holes, as well as, shapes and curves your design requires. Mold-to-Size options include:

- Mold-to-Size of any shape, including "curvy" shapes. Mold-to-Size can also include sink holes, faucet holes, edge treatments and a backsplash, if desired.
- The standard thickness for Mold-to-Size is 1-1/4" (3 cm). Tops can also be fabricated at 1" thick; however, this thickness requires a fiberglass scrim.
- Daltile's Mold-to-Size also allows for pouring large slabs as thin as 1/2" using epoxy. Slab size will determine if the top needs to increase in thickness. The color possibilities are limitless with epoxy.
- Mold-to-Size requires a template or a CAD file that is drawn to actual size. The template can be printed from the CAD file.

Consult your Daltile representative for more information and details on Mold-to-Size options.

WATER JET

CUTTING-EDGE TECHNOLOGY

Transform floors into works of art. Simple, yet amazingly effective; water-jet technology is the quickest, most efficient method of cutting tile to achieve the ultimate in design accuracy and eye appeal. Arcs, circles and other intricate designs can be cut using precise water-jet cutting techniques. The result is a unique installation that distinguishes the floor and the building from the ordinary.

HOW IT WORKS:

- Ultra-high water pressure cutting offers a powerful, yet precise cutting tool using ordinary water.
- The water is filtered, compressed and emitted at ultrasonic speed. The result is a jet stream that cuts cleanly, with no rough edges, giving perfect registration from tile to tile.
- All cutting is controlled through a CAD/CAM system that directs each tile cut, registering precisely with those adjacent.
- Whether a radius or straight cut or an intricate in-lay pattern, tile is delivered to the job site cut and cataloged; ready for installation.

TERRAZZO

TILES & SLABS

TILE SIZES

All sizes and colors are available in Polished, Honed or Brushed finishes and have chamfered edges.

		Thickness*	Sq. Ft. Per Carton	Weight Per Sq. Ft.
24 x 24 Field Tile	23-13/16" x 23-13/16" (60.48 cm x 60.48 cm)	7/8"	176 sq. ft. per pallet	11.25 lbs.
18 x 18 Field Tile	17-13/16" x 17-13/16" (45.24 cm x 45.24 cm)	5/8"	9	7.8 lbs.
16 x 16 Field Tile	15-13/16" x 15-13/16" (40.16 cm x 40.16 cm)	5/8"	8.9	7.8 lbs.
12 x 12 Field Tile	11-13/16" x 11-13/16" (30.0 cm x 30.0 cm)	1/2"	10	6.4 lbs.

All tiles are delivered factory-sealed with PROADVANCED™ Protection sealer.
Rectangular tile sizes of 6 x 12, 8 x 16, 9 x 18 and 12 x 24 are available via Special Order.
* Thinner tile options are available via Special Order. Please contact your Daltile representative for more information.

SLAB SIZES — All slabs are available in Polished, Honed or Brushed finishes.

		Thickness	Weight Per Sq. Ft.
96 x 62 Slab	96" x 62" (243.84 cm x 157.48 cm)	1-1/4" (3 cm)	15.5 lbs.

All slabs are delivered factory-sealed with PROADVANCED™ Protection sealer.
Slabs are available in standard format or cut-to-size.

RESIDENTIAL USAGE

FLOOR	WALL	COUNTERTOPS	EXTERIOR PATIOS*	EXTERIOR POOL DECKS*
F	W	C	EP	ED

*Only Honed and Brushed finishes are suitable for exteriors in non-freezing climates when proper installation methods are followed. Terrazzo tile with glass aggregate cannot be used for exterior applications.

Exterior installations require the application of a UV sealer at the time of installation.

COMMERCIAL USAGE

	INTERIOR			EXTERIOR

Vanities	✓	✓			

*Only Honed and Brushed finishes are suitable for exteriors in non-freezing climates when proper installation methods are followed. Terrazzo tile with glass aggregate cannot be used for exterior applications.

Exterior installations require the application of a UV sealer at the time of installation.

TRIM & ACCESSORIES

SIZES		TYPES			
6" X 24" 6" X 18" 6" X 16" 6" X 12"	4" X 24" 4" X 18" 4" X 16" 4" X 12"	Tile Base Bullnose & Polished Edge*	Tile Base Beveled & Polished Edge*	Tile Base Straight & Polished Edge*	Outcorner*
24" X 24" 18" X 18" 16" X 16" 12" X 12"		Stair Tread**	Transition**		

All trim & accessories are delivered factory-sealed with PROADVANCED™ Protection sealer.

* All Tile Bases are available in Polished or Honed finishes only.
Tile Base custom heights are available via Special Order.

** Stair Treads and Transition Tiles are available in the same sizes and finishes as field tile.

INSTALLATION

GROUT JOINT RECOMMENDATION	SHADE VARIATION
1/8" Minimum	MEDIUM (V2)

TEST RESULTS *

	ASTM#	RESULT
Water Absorption	C140	4.5%
Compressive Strength	C140	8,000 psi Average
Flexural Strength	C293	950 psi Average
Coefficient of Friction	C1028	Polished Wet: ≥0.50 Dry: ≥0.70
		Honed/Brushed Wet: ≥0.70 Dry: ≥0.70
Wedging		< 1%
Warping		Along any edge: +/- 1.5% Either diagonal: +/- 1.5%

* Honed and Brushed finishes only.

Water, oil, grease etc., create slippery conditions. Floor applications with exposure to these conditions require extra caution in product selection. Not for use on ramps.

SLAB TEST RESULTS

	ASTM#	RESULT
Compressive Strength (Minimum)	C140	14,000 psi Average
Flexural Strength	C293	1,000 psi Average

NOTES

For more information on the PROADVANCED™ Protection Warranty, please visit www.daltilestone.com/proadvanced.

Custom colors, sizes and thicknesses for tiles and slabs are available via Special Order. Please contact your Daltile representative for more information.

For maintenance and resealing information, visit www.daltile.com.

Information on installation guidelines and official specifications are located at www.daltile.com.

Use of a latex-modified thin-set is recommended for tile installation.

For additional information refer to "Factors to Consider" at: www.daltile.com/CommercialFactors.
