

EIFS/STUCCO/ STONE VENEER SOLUTIONS

Exterior Insulation and Finish Systems (EIFS) currently comprise 30% of the commercial exterior wall market. With today's increased emphasis on energy efficiency, a building envelope incorporating an EIF System provides tremendous insulating value, while meeting or exceeding the demands of current regulatory requirements. Wind-lock® continues to support successful EIFS projects with superior products like Wind-Devil® fasteners and efficient tools for securing insulation board with adhesive and/or mechanical attachments, embedding fiberglass mesh and base coating. Wind-lock also offers a complete range of products for applying stucco, stone veneer and finish coatings.

HURRY UP IS NO HASSLE

With responsive service representatives, our *Stock to Dock* shipping guarantee and a customer sales team that knows all the availability and delivery details for our entire inventory, we can help you meet the tightest deadlines and toughest project cycle challenges. Want expedited shipping, custom orders, special handling or other delivery options to help you get what you need? No problem. And we offer accuracy and smart insights as well as quick delivery. The Wind-lock team can help you at any point in a project's life, from selection recommendations to field support and troubleshooting.

WIND-DEVIL® 2

EXCLUSIVE PRODUCT

*For Nearly 3 Decades,
Still The Most Trusted
Mechanical Fastening System!*

**Stock to Dock
Shipping Guarantee**

Products highlighted in yellow are guaranteed to ship within 24 hours or freight costs are **FREE!** Larger orders may require additional lead times. Call for details.

The industry-leading, two-inch diameter Wind-Devil® 2 is by far the most popular and technologically advanced EIFS mechanical fastening system on the market. The patented “bullseye” closure arms allow easy, efficient backing out of any screw, saving time and money.

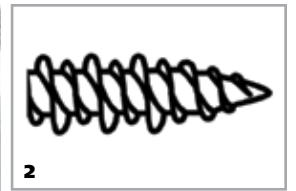

The Wind-Devil® 2 is designed and engineered for use with polymer based (PB) EIFS (Exterior Insulation and Finish Systems). It allows the attachment of EPS insulation to a variety of substrates, including wood, lite metal, steel and masonry. Our witnessed, negative wind-load testing (ASTM-E330) continues to set the industry standard for attaching EIFS.

The Wind-Devil® 2 fastening system is engineered to be utilized in wood, lite metal, steel and masonry substrates and can be applied in any weather condition.

1. Wind-Devil® 2 Plates

Call your local distributor for pricing.

Part Code	Qty/Box	Description	Approx Wt/Box
WD-2PLATE	1000	Wind-Devil 2 Plates	10 lb
WD2-PK	500	Wind-Devil 2 Pack	5 lb

WIND-DEVIL® 2 FASTENERS SERIES SELECTION

Longer length fasteners are available. See Long-lock, page 8.

2. Wood and Lite Metal Series Assembled Fasteners (WLMT)

Assembled fastener and plate for use with dimensional lumber, plywood type sheathings and metal sidings, 20 to 26 gauge.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
WLMT-1	1000	1"	#7 x 1-5/8"	16 lb
WLMT-2	1000	1-1/2"	#8 x 2"	19 lb
WLMT-3	1000	2"	#8 x 2-1/2"	21 lb
WLMT-4	1000	2-1/2"	#8 x 3"	22 lb
WLMT-5	1000	3"	#8 x 4"	25 lb
WLMT-7	500	3-1/2"-4-1/2"	#10 x 5"	20 lb
WLMT-8	500	5"-5-1/2"	#10 x 6"	22 lb

Wood and Lite Metal Zinc Screw Series Assembled Fasteners (GWLMT)

Assembled fastener and plate for use with dimensional lumber, plywood type sheathings and metal sidings, 20 to 26 gauge, using our zinc plated UZW screws.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
GWLMT-1	1000	1"	#6 x 1-5/8"	16 lb
GWLMT-2	1000	1-1/2"	#6 x 2"	18 lb
GWLMT-3	1000	2"	#8 x 2-5/8"	21 lb
GWLMT-4	1000	2-1/2"	#8 x 3"	22 lb
GWLMT-5	1000	3"	#10 x 4"	25 lb

Wood Zinc Screw Series Assembled Fasteners (GWT)

Assembled fastener and plate for use with dimensional lumber and plywood type sheathings using our zinc plated UZW screws.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
GWT-1	1000	1"	#6 x 1-5/8"	16 lb
GWT-2	1000	1-1/2"	#7 x 2"	19 lb
GWT-3	1000	2"	#8 x 2-1/2"	21 lb
GWT-4	1000	2-1/2"	#8 x 3"	22 lb
GWT-5	1000	3"	#10 x 4"	25 lb

3. Steel Series Assembled Fasteners (ST)

Assembled fastener and plate for use with 12 to 20 gauge. Does not take into account sheathing thickness.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
ST-1	1000	1"	#6 x 1-5/8"	16 lb
ST-2	1000	1-1/2"	#6 x 2"	18 lb
ST-3	1000	2"	#8 x 2-5/8"	22 lb
ST-4	1000	2-1/2"	#8 x 3"	24 lb
ST-5	1000	3"	#10 x 4"	32 lb
ST-6	1000	3-1/2"-4"	#10 x 4-3/8"	34 lb
ST-7	500	4"-4-1/2"	#10 x 5"	20 lb
ST-8	500	5"-5-1/2"	#10 x 6"	23 lb
ST-9	500	6"-6-1/2"	#10 x 7"	26 lb
ST-10	500	7"-7-1/2"	#10 x 8"	27 lb

4. Masonry Series Assembled Fasteners (MT)

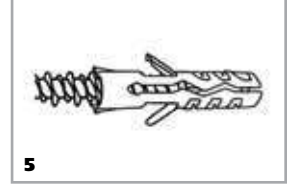

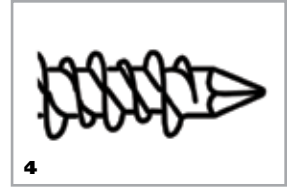

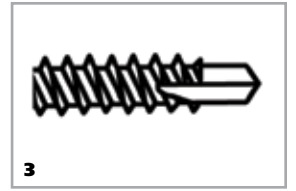

Assembled fastener and plate for use with concrete and other unit masonry. 5 drill bits per 1000 included.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
MT-1	1000	1" only	3/16" x 1-3/4"	21 lb
MT-2	1000	1-1/2"	3/16" x 2-1/4"	26 lb
MT-3	1000	2"	3/16" x 2-3/4"	26 lb
MT-4	1000	2-1/2"	3/16" x 3-1/4"	28 lb
MT-5	1000	3"	3/16" x 4"	31 lb

5. Masonry Expandable Series Assembled Fasteners (MET)

Assembled, expandable fastener and plate for use with concrete block, concrete and other unit masonry. Drill bit not included. For MET-1-MET-3 use bit M-S166; for MET-1-MET-7 use bit M-S1612. See page 11 for ordering information.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
MET-1	1000	1" only	3/16" x 2-1/4"	25 lb
MET-2	1000	1-1/2"	3/16" x 2-1/2"	26 lb
MET-3	1000	2"	3/16" x 3"	28 lb
MET-4	1000	3"	3/16" x 4"	30 lb
MET-5	1000	3-1/2"	3/16" x 4-1/2"	19 lb
MET-6	500	4"	#10 x 5"	21 lb
MET-7	500	5"	#10 x 6"	22 lb
MET-8	500	6"	#10 x 7"	25 lb
MET-9	500	7"	#10 x 8"	28 lb

WIND-DEVIL® 2 TECHNICAL DATA

WIND-LOAD TEST DATA

Wind-Devil® 2

All measurements shown are ultimate pounds per foot.

EPS Thickness	Pattern A	Pattern B	Pattern C
1"	107	88	85
1-1/2"	130	114	103
2"	144	129	124

Witness test reports available.

GENERAL CORROSION DATA

Salt Spray (ASTM-B117)

Finish	Hours to Initial (%) Signs of Red Rust	Hours and Red Rust (%) at Test Conclusion
Phosphate and oil	24 (5% or less)	240 (90-100%)
.0003" electro zinc	48 (5% or less)	240 (75-100%)
.001" hot dip galvanized	98 (5% or less)	320 (75-100%)
Wind-lock® CCS Coating	192 (5% or less)	720 (50-100%)

FASTENER PULLOUTS

WLMT Series

Dimensional lumber/wood sheathings.

Penetration dimensional lumber	1/2"	3/4"	1"	1-1/4"	1-1/2"
Pullout strength	183	304	441	652	731

WLMT Series

Lite gauge metal siding.

Nominal gauge	26	25	22	20
Lite Metal pullout strength	*	178	244	277

*Consult Wind-lock® for pullout (through penetration 1/4" min.).

ST Series

Steel/steel studs.

Nominal gauge	24	22	20	18	16	14	12
Steel pullout strength	*	211	296	471	679	847	1225

*Consult Wind-lock® for pullout (through penetration 1/4" min.).

MT Series

Masonry.

Penetration	1"	1-1/4"	1-1/2"	1-3/4"
Concrete pullout strength	380	580	830	1090
Hollow block pullout strength	229	416 [†]	452 [†]	521 [†]

[†]Denotes solid material.

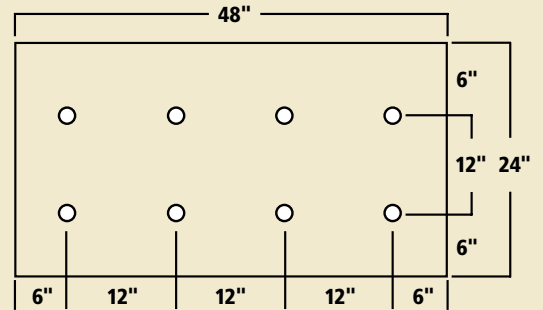

MET Series

Masonry expandable.

Concrete pullout strength	378
Hollow block pullout strength	333

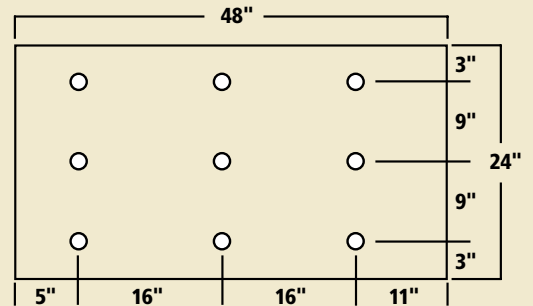

Pullout strengths shown are ultimate values. An appropriate factor of safety must be applied by the user to obtain allowable limits for design. Masonry must be pre-drilled 1/2" deeper than fastener penetration. Hardness of masonry varies and may require a non-standard drill bit. Please consult Wind-lock® for assistance in proper drill bit size. Consult system manufacturer for specific requirements.

TYPICAL WIND-DEVIL® 2 FASTENING PATTERNS

Pattern A

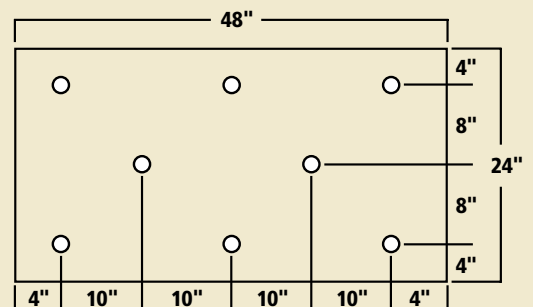

Wood sheathing, masonry and some metal sidings.

Pattern B

16" O.C. stud fastening pattern.

NOTE: For pattern "B" stud fastening over non-screwable sheathing, fastener spacing does not exceed 16" O.C. variable not to exceed 11".

Pattern C

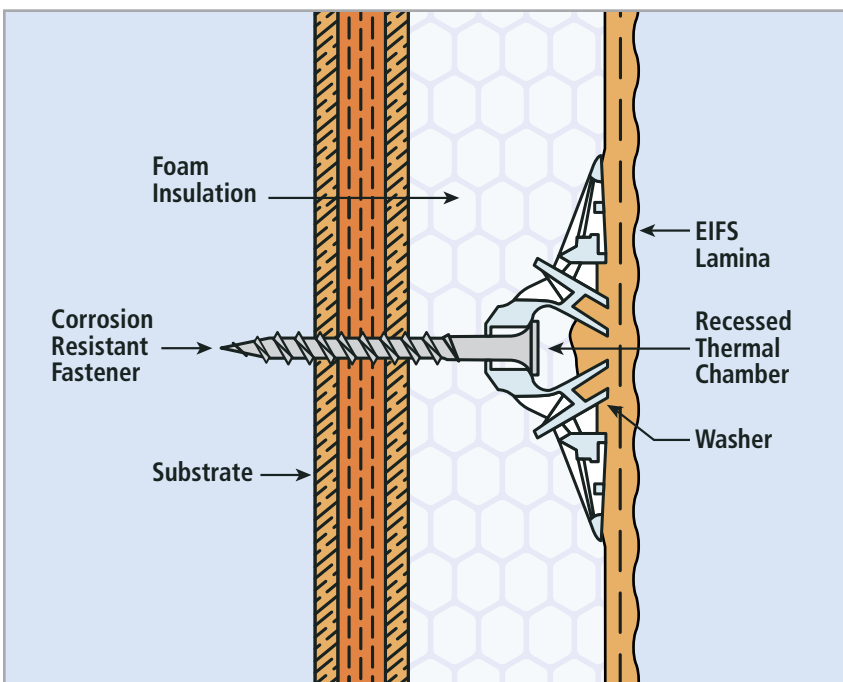

Wood sheathing, masonry and some metal sidings.

WIND-DEVIL® 2 SELECTION GUIDE

Insulation Thickness	Wood/Lite Metal Series**	Steel Series	Masonry Series
1"	WLMT-1	ST-1*	MT-1
1-1/2"	WLMT-2	ST-2*	MT-2
2"	WLMT-3	ST-3*	MT-3
2-1/2"	WLMT-4	ST-4*	MT-4
3"	WLMT-5	ST-5*	MT-5
3-1/2"	WLMT-7	ST-6*	For virtually any size fastener, contact Wind-lock® or refer to the Long-lock section, Page 8.
4"	WLMT-7	ST-7*	
4-1/2"	WLMT-7	ST-7*	
5"	WLMT-8	ST-8*	
5-1/2"	WLMT-8	ST-8*	

* Sizes are for direct application into steel and do not take into account the sheathing. For 1/2" and 5/8" sheathing, move fastener selection to next higher size.

** See page 5 for additional wood (GWT) and lite metal (GWLMT) fasteners.

Why The Wind-Devil® 2 is Best!

- Comprehensive witness testing
- Over 20 years of proven performance
- EIFS industry approved
- Significant negative wind-load resistance
- Recessed thermal chamber helps prevent thermal bridging
- Patented closure arms allow for easy “backing” out
- Installation of the Wind-Devil® 2 compresses the foam under the washer forming a “gasket” around the fastener. This gasketing action diverts moisture from the fastener.

OTHER FASTENERS

1. ULP-302 Series Selection

The ULP-302 and ULP-402 are engineered to attach PermaLath® 17, 20 gauge stucco netting, as well as 2.5 and 3.4 metal lath (hard coat stucco systems). NOT for use with PB EIFS. For standard PB applications with the thermal recessed chamber, refer to Wind-Devil® 2 and Long-lock fasteners.

Engineered Features

- 1-3/4" diameter
- Made of high-grade polypropylene plastic
- Unique design allows plate to flatten out in application
- Large ribs stiffen plate, limit deflection
- 16 keyholes allow for mechanical locking of base coat
- Can be screw fastened, nailed or shot
- Engineered "flash" allows for pre-assembly of screw fasteners

Consult system manufacturer for specific requirements.

Wood/Lite Metal Series

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
ULP-3WLM1	1000	3/4"	#7 x 1-5/8"	13 lb
ULP-3WLM2	1000	1"	#8 x 2"	15 lb
ULP-3WLM3	1000	1-1/2"	#8 x 2-1/2"	17 lb
ULP-3WLM4	1000	2"	#8 x 3"	19 lb
ULP-3WLM5	1000	3"	#8 x 4"	21 lb

Steel Series

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
ULP-3S1	1000	3/4"	#6 x 1-5/8"	12 lb
ULP-3S2	1000	1"	#6 x 2"	14 lb
ULP-3S3	1000	1-1/2"	#8 x 2-5/8"	18 lb
ULP-3S4	1000	2"	#8 x 3"	19 lb
ULP-3S5	1000	3"	#10 x 4"	27 lb

2. ULP-302 Plate

Part Code	Qty/Box	Description	Approx Wt/Box
ULP-302	1000	Plates	6 lb

3. ULP-402 Series Selection

Engineered Features

- 1-3/4" diameter
- Made of high-grade polypropylene plastic
- Pre-spotting central stem/tab allows for quick and easy pre-spotting into insulation board
- Large ribs stiffen plate, limit deflection
- 16 keyholes allow for mechanical locking of base coat
- The ULP-402 is unassembled and can be utilized with Wind-lock® highly coated exterior fasteners

Consult system manufacturer for specific requirements.

Part Code	Qty/Box	Approx Wt/Box
ULP-402	1000	6 lb

4. Long-lock Fasteners

Use these for all of your thick foam fastening needs, such as: cornice details, arches, columns, custom parapet shapes and quoins. All fasteners come fully assembled.

Engineered Features

- 1-3/4" diameter
- Finger closure and recessed fastener chamber
- Utilized for thicker insulation

Consult system manufacturer for specific requirements.

WLM—Wood/Lite Metal/Masonry Screws

Hardness of masonry varies and may require a non-standard drill bit. Please consult Wind-lock® for assistance in proper drill bit size. Includes one drill bit per 200 pieces.

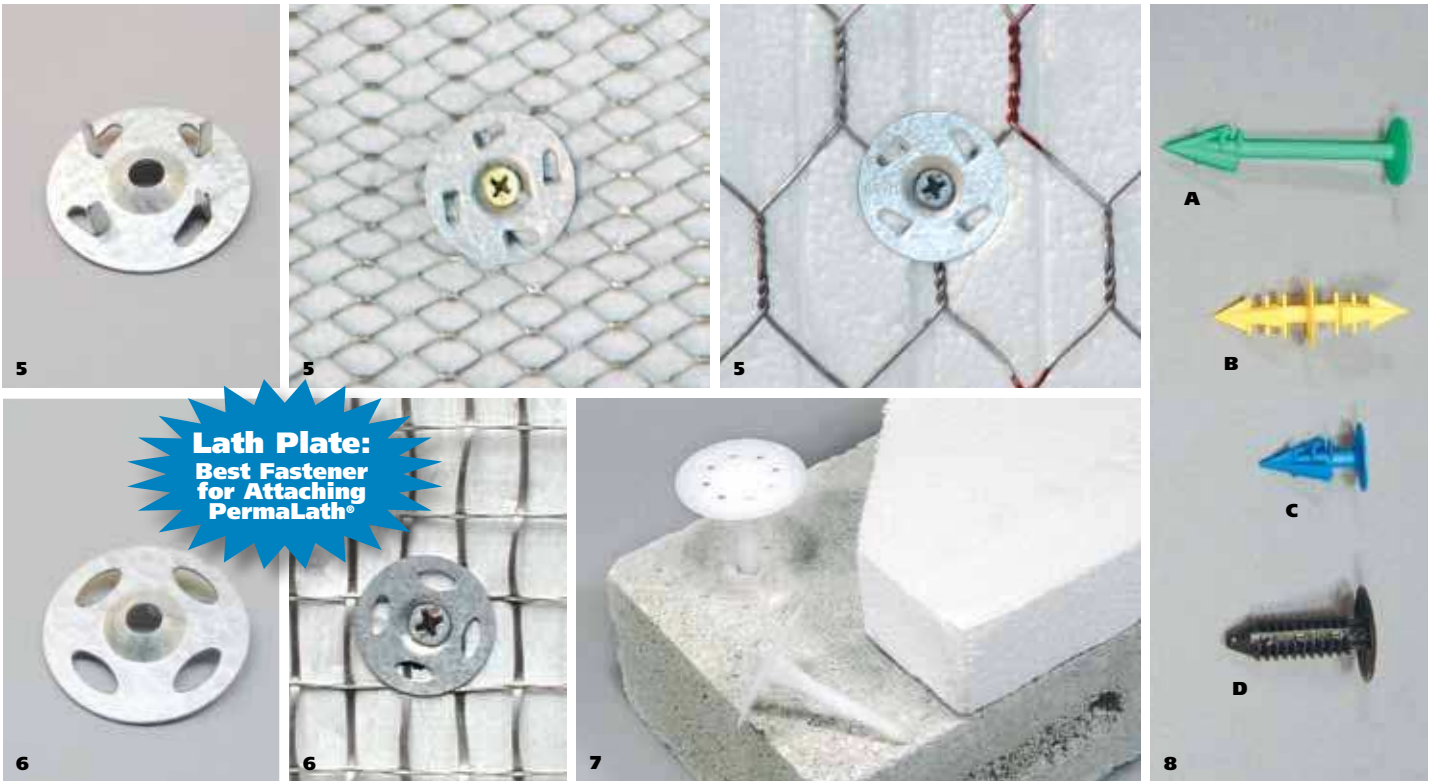

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
WLM-7	100	4"	#14 x 5"	5 lb
WLM-8	100	5"	#14 x 6"	5 lb
WLM-9	100	6"	#14 x 7"	6 lb
WLM-10	100	7"	#14 x 8"	7 lb
WLM-11	100	8"	#14 x 9"	8 lb
WLM-12	100	9"	#14 x 10"	8 lb
WLM-13	100	10"	#14 x 11"	9 lb
WLM-14	100	11"	#14 x 12"	10 lb
WLM-15	100	12"-13"	#14 x 14"	12 lb

For even longer fasteners, please contact Wind-lock®

Stock to Dock Shipping Guarantee

Products highlighted in yellow are guaranteed to ship within 24 hours or freight costs are **FREE!** Larger orders may require additional lead times. Call for details.

**Lath Plate:
Best Fastener
for Attaching
PermaLath®**

5. Lath-Lock

Designed to be used with Polymer Modified (PM) Hard Coat EIFS, insulated stucco systems, stucco systems utilizing expanded metal lath or stucco wire over rigid insulations.

Engineered Features

- 1-1/4" diameter, G-90 galvanized steel
- Flat profile
- Positive attachment
- Tabs reduce spin in insulation board
- Reversed arm creates non-stacking plate
- Recessed center chamber allows for flush seating of fastener
- Turned tabs allow for pre-spotting
- Smooth edges
- Can be screw fastened, nailed or shot

Consult system manufacturer for specific requirements.

Part Code	Qty/Box	Approx Wt/Box
LATH-LOCK	1000	9 lb

6. Lath-Plate (Legless)

Legless Lath-Plate is perfect for stone veneer and thin coat stucco utilizing PermaLath®.

Engineered Features

- 1-1/4" diameter, G-90 galvanized steel
- Flat profile
- Positive attachment
- Recessed center chamber allows for flush seating of fastener
- Smooth edges
- Can be screw fastened, nailed or shot

Consult system manufacturer for specific requirements.

Part Code	Qty/Box	Approx Wt/Box
LATH-PLATE (Legless)	1000	9 lb

7. Congrip Masonry Fasteners

Made of polypropylene with keyholes for locking in the base coat. Simply drill a pilot hole and hammer into the concrete. Requires 5/16" drill bit.

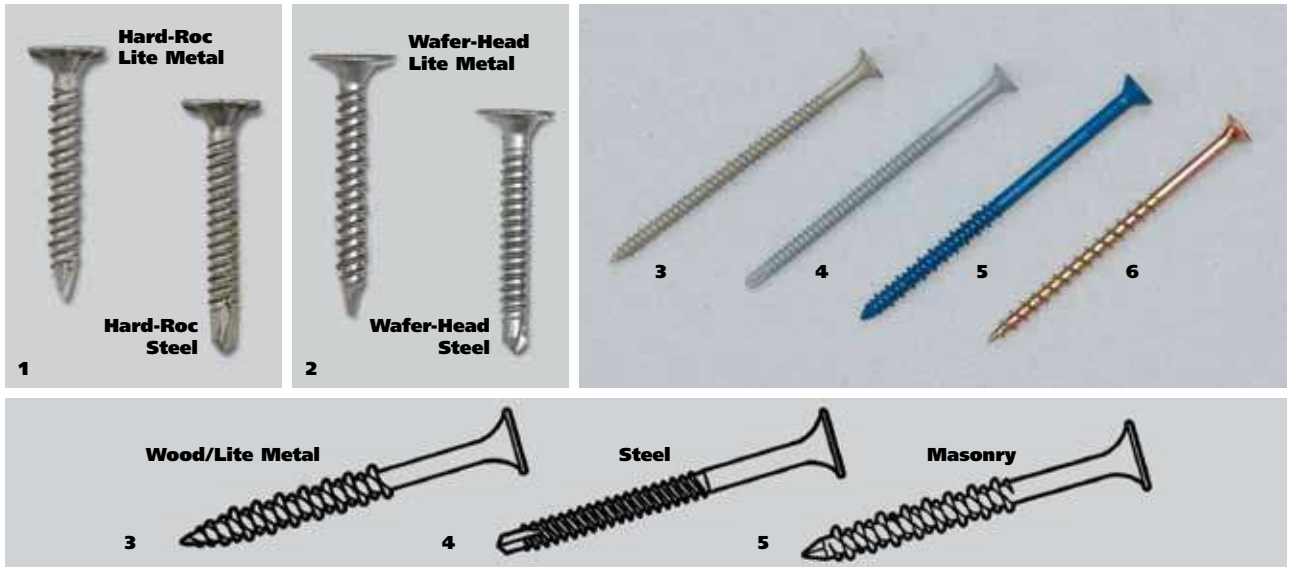

Part Code	Qty/Box	Insulation Thickness	Description	Approx Wt/Box
W-MCG0	250	3/4"-1"	2" Masonry Walgrip	4 lb
W-MCG1	250	1-1/2"	2-3/4" Masonry Walgrip	4 lb
W-MCG2	250	2"	3-1/2" Masonry Walgrip	5 lb

Longer sizes available, call for details.

8. Foam Tacs

Temporary fastening system used in conjunction with adhesive attachment of stucco trims and accessories.

Part Code	Qty/Bag	Description	Approx Wt/Bag
A ARROW-TAC	250	1-3/4" Arrow Foam Tac	1 lb
B INSUL-TAC	250	1-1/2" Insul Foam Tac	1 lb
C TRIM-TAC	250	3/4" Trim Foam Tac	1 lb
D M-TT1	1000	1" Trim Tab	2 lb
D M-TT158	1000	1-5/8" Trim Tab	3 lb

SCREWS

All wood/lite metal and steel fasteners are self-tapping. All screws except for the economy wood fasteners (UZW) are highly coated, meeting the Wind-lock® Corrosion Coating Standard.

1. Hard-Roc Sheathing Fasteners (F-HR)

Part Code	Qty/Box	Screw Size	Approx Wt/Box
F-HR114	1000	#9 x 1-1/4"	6 lb
F-HR158	1000	#9 x 1-5/8"	7 lb
F-HR114S	1000	#8 x 1-1/4"	6 lb
F-HR158S	1000	#8 x 1-5/8"	7 lb

2. Wafer-Head Sheathing Fasteners (F-WH)

Part Code	Qty/Box	Screw Size	Approx Wt/Box
F-WH114	1000	#8 x 1-1/4"	6 lb
F-WH158	1000	#8 x 1-5/8"	7 lb
F-WH114S	1000	#10 x 1-1/4"	6 lb
F-WH158S	1000	#8 x 1-5/8"	7 lb

3. Wood/Lite Metal Fasteners (UWLM)

Part Code	Qty/Box	Screw Size	Approx Wt/Box
UWLM-1	1000	#7 x 1-5/8"	6 lb
UWLM-2	1000	#8 x 2"	8 lb
UWLM-3	1000	#8 x 2-1/2"	9 lb
UWLM-4	1000	#8 x 3"	11 lb
UWLM-5	1000	#8 x 4"	13 lb
UWLM-7	1000	#10 x 5"	22 lb
UWLM-8	1000	#10 x 6"	27 lb

US-6	1000	#10 x 4-3/8"	23 lb
US-7	1000	#10 x 5"	26 lb
US-8	1000	#10 x 6"	32 lb

Longer sizes available, call for details.

5. Tapcon® Masonry Fasteners (UM)

Includes 5 drill bits per 1000 pieces.

Part Code	Qty/Box	Screw Size	Approx Wt/Box
UM-1	1000	3/16" x 1-3/4"	10 lb
UM-2	1000	3/16" x 2-1/4"	12 lb
UM-3	1000	3/16" x 2-3/4"	15 lb
UM-4	1000	3/16" x 3-1/4"	17 lb
UM-5	1000	3/16" x 4"	21 lb

Longer sizes available, call for details.

6. Economy Wood Fasteners (UZW)

Zinc coated for use with dimensional lumber and plywood type sheathings.

Part Code	Qty/Box	Screw Size	Approx Wt/Box
UZW-1	1000	#6 x 1-5/8"	6 lb
UZW-2	1000	#7 x 2"	8 lb
UZW-3	1000	#8 x 2-1/2"	9 lb
UZW-4	1000	#8 x 3"	11 lb
UZW-5	1000	#10 x 4"	23 lb

7. Economy Wood and Lite Metal Fasteners (UZWLM)

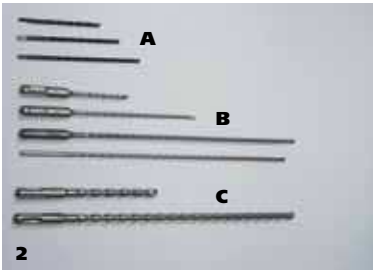

Zinc coated for use with dimensional lumber, plywood type sheathings and metal sidings, 20 to 26 gauge.

Part Code	Qty/Box	Screw Size	Approx Wt/Box
NS UZWLM-1	1000	#6 x 1-5/8"	6 lb
NS UZWLM-2	1000	#6 x 2"	8 lb

5. Insul-Knife™

Insul-Knife™ is one of those time-saving tools that you will wonder how you ever lived without. It is perfect for easily cutting all type of insulations including: EPS foam, fiberglass, sponge foam and cotton fiber. It is an excellent tool for trimming unwanted excess foam insulation after it expands and cures.

Part Code	Description	Contr Price
W-INSULKIT	Multipurpose Insulation Kit (Knife and Sharpener)	\$42.95
W-INSULS	Insulation Knife Sharpener	\$10.99

Kit Includes Groove Tool Handle

AESTHETIC GROOVE KITS

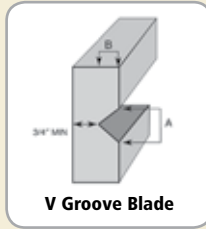

To add aesthetic grooves to your EIFS project you will need a 2-QC Hot Knife with the Q-SLED6 groove sled adapter and an aesthetic groove kit. The aesthetic groove kit includes the groove tool handle, three blades and the sleds necessary to complete grooves to the finished dimensions. The dimensions below represent the finished grooves when using a PB EIFS system. Other kits, additional sizes and custom sizes are available, call for details.

Stock to Dock Shipping Guarantee

FOAM2FOAM® GUN FOAMS

EIFS Contractors' Preferred Gap Filler.

Cleans up hands and tools. See page 32.

Buy the Kit and Save!

A multi-purpose, professional, low-expansion construction adhesive and gap and crack filler. Great for ICF, SIP, EIFS and stone veneer applications. One component polyurethane foam. Cures by absorbing water vapor from the air.

- Used for filling, slivering, sealing and insulating joints and cracks
- Professional quality
- Accurately controlled application
- Moisture-curing
- Acoustical sealant
- Drywall adhesive: reduces fasteners by 60%
- Excellent adhesion to most surfaces
- Temperature, water and chemical resistant
- No CFC/HCFC
- Stone veneer adhesive
- Compatible with EPS foam boards
- Paintable and can be plastered over

Consult your system manufacturer for specific recommendations.

FOAM GUNS

All of our guns are engineered to deliver foam day after day with minimal cleaning. The all-metal needle valve construction delivers the polyurethane foam with controlled accuracy. We offer a wide variety, ranging from “do it yourself” models to professional.

ECONOMY SERIES

1. W-EG13T Taper Tip Foam Dispenser

Light-medium duty gun, featuring all-metal needle valve construction and brass tapered tip with universal can adapter and tip. This is our best gun for filling in EPS board gaps.

Part Code	Description	Contr Price	Approx Wt
W-EG13T	Taper Tip Foam Dispenser	\$35.95	2 lb

2. W-EG13

Light-medium duty gun, featuring all-metal needle valve construction and brass universal can adapter and tip.

Part Code	Description	Contr Price	Approx Wt
W-EG13	Economy Foam Dispenser	\$39.95	2 lb

INTERMEDIATE SERIES

3. W-EG14

Medium duty gun featuring a Teflon® coated needle valve and universal can adapter. The knurled brass dispensing tip is the knurled brass that holds the extension tubes in place. Also available with a 31" long extended barrel for long reach or sub floor applications.

Part Code	Description	Contr Price	Approx Wt
W-EG14	Foam Dispenser with Teflon Tip	\$56.50	2 lb
NS W-EG14L	31" Long-Barrel	\$139.75	4 lb
NS W-EG14BT	Brass tips for W-EG14	\$3.75	1 lb

NS=Not shown.

PROFESSIONAL SERIES

4. W-EG15

This professional gun features a narrow tapered tip for dispensing the foam between EIFS board lines. The two stage tapered barrel blends the foam to a superior consistency.

Part Code	Description	Contr Price	Approx Wt
W-EG15	Pageris Foam Dispenser	\$82.35	2 lb

PROPER ATTACHMENT OF FOAM GUNS

1. Attach the gun to the can of F2F®.

4. Removing the can from gun, point can upright and away from your face.

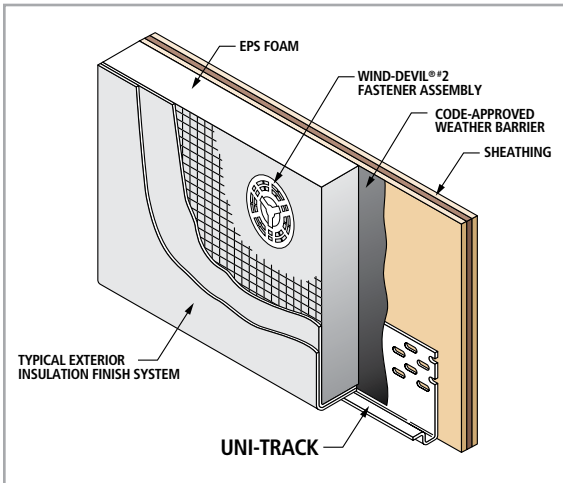

2. The can should point up and away from your face.

5. Clean the gun adapter with the F2F® Cleaner.

3. Shake can for 1 minute and purge air from gun.

6. Attach and spray the cleaner through the gun.

WATER MANAGEMENT

W-TSW5	9	5' x 200'	StuccoWrap	CALL	144 lb

5. Dow® Weathermate™ Housewrap—Plus

Weathermate™ Housewrap—Plus is a non-woven, non-perforated, polyolefin-based housewrap that offers exceptional tear resistance and durability. It is an effective option for builders who prefer to use non-insulating sheathing along with housewrap. When installed over sheathing, Weathermate™ Housewrap—Plus reduces costly air and moisture infiltration. It is translucent to allow a clear view of the studs and the sheathing surface during installation.

Part Code	Qty/Skid	Size	Description	Contr Price	Approx Wt
W-DWM3165	22	3' x 165'	Housewrap Plus	CALL	14 lbs
W-DWM5100	38	5' x 100'	Housewrap Plus	CALL	14 lbs

W-DWM9150	33	9' x 150'	Housewrap Plus	CALL	34 lbs

All other DOW® Weathermate™—Plus sizes are available. Please call.
 Note: Also see Weatherization Section, page 78.

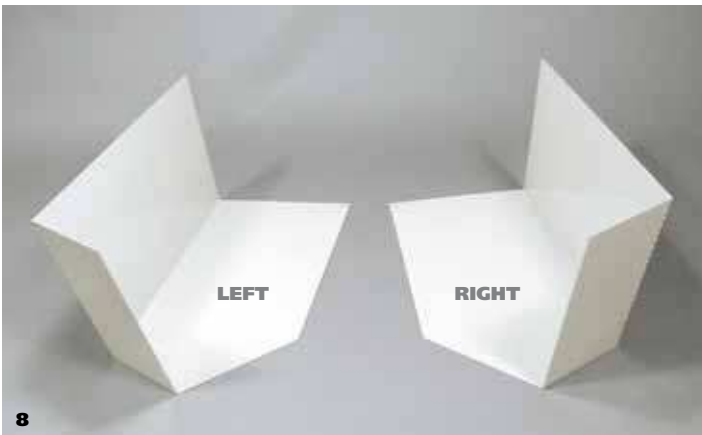

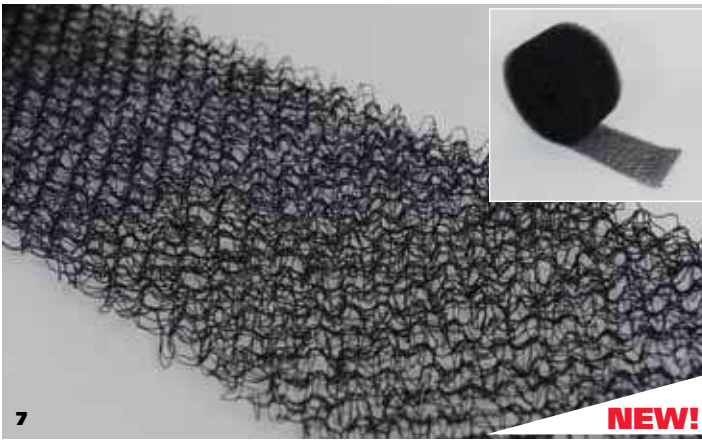

6. Benjamin Obdyke Home Slicker® NEW!

Home Slicker® Stone & Stucco is the only vertically channeled rainscreen that has been specifically designed for use with manufactured stone, natural stone, stucco and masonry applications. Each roll contains the patented Home Slicker® three-dimensional matrix bonded to a fabric which prevents mortar from entering the wall cavity during cladding installation. This product installs with the fabric facing outward.

Home Slicker® Plus Typar® is a cost-effective, labor and material saving, moisture eliminating rainscreen combined with a water resistive barrier. Each roll contains the patented Home Slicker® three-dimensional matrix bonded to Typar®, the premium residential and commercial grade housewrap. The unique, vertically-channeled, three-dimensional matrix of the original Home Slicker® provides a continuous space for drainage and drying, a thermal break and pressure equalization—eliminating the threat of trapped moisture. Home Slicker® 10 is designed to meet the 10mm code requirements in Canada.

7. Benjamin Obdyke Blockade™ NEW!

Designed specifically for use in brick wall cavities, the entangled matrix design of the Blockade™ Mortar Deflection System blocks mortar from clogging the weep holes and allows excess moisture to flow freely out of the wall cavity. The result is a brick wall that is built to stand the test of time and remains free from the deteriorating effects of mold and mildew.

FOAM CUTTING EQUIPMENT

1. JobCut

- Cuts 12" at 90°
- Capacity: 2' x 4' x 1'
- Harp moves, not the table
- 110 volts—also available in 220 volts
- Does not include sawhorses or wood
- Folds quickly to only 5" for easy storage
- Cutting Width: 48"
- Cuts from 1° to 90°
- Includes 25' wire

Part Code	Description	Contr Price	Approx Wt
W-JBC	JobCut Hot Wire Machine Only	CALL	70 lb
W-MJBC	JobCut Hot Wire with Magnum	CALL	48 lb

2. Block Buddy

Cornice/ICF Block Cutter.

- Miters from 0° to 45°
- Cuts 18" deep block
- 24" depth cut at 90°
- 16" depth cut at 45°
- Shaves, cuts and miters
- Plastic composite tabletop
- Legs fold for easy storage
- Includes 25' wire

Part Code	Description	Contr Price	Approx Wt
W-MBLKB	Block Buddy with Magnum	CALL	49 lb

Other tables available. Call for details.

3. SideWinder

Ornamental 4' Shape cutter.

- Cuts compound miters, straight cuts, columns and decorative mouldings
- 110 volts—also available in 220 volts
- Uses your hardboard template patterns to trace shapes
- (4) 360° pilot bearings
- Capacity: 2' x 2' x 4'
- Table is 48" x 96"
- Includes 50' wire

Part Code	Description	Contr Price	Approx Wt

CHEMICALS

1. General Purpose Cleaner

Spray applied to natural masonry, stucco, synthetic stucco and other wall surfaces. Removes dirt, soot and pollution.

Part Code	Size	Contr Price	Approx Wt
MP-2107G	Case of 4 gallons	\$72.99	28 lb

2. Titan Penetrating Sealer

Titan is not a "topical" sealer. Instead, it penetrates the surface voids and "locks-up" surface integrity without forming a vapor barrier. Titan is a reacted silicate sealer with essentially the same chemical makeup as glass (silica), resulting in a non-yellowing, breathable surface.

Part Code	Size	Contr Price	Approx Wt
W-TPS1	Gallon	\$43.00	9 lb
W-TPS5	5 gallons	\$184.00	45 lb

3. Rust Remover & Phosphatizer

This clear, liquid, chemical compound reverses the process that causes rusting and oxidation. It destroys the corrosive agents that support rust and leaves a clean, phosphatized, paintable surface.

Part Code	Size	Contr Price	Approx Wt
MP-G2108	Gallon	\$22.95	7 lb

4. Efflorescence Remover

Sprays into natural masonry, stucco, synthetic stucco and other wall surfaces. Removes efflorescence and other acid-soluble stains. 400 square feet of coverage.

Part Code	Size	Contr Price	Approx Wt
MP-G2112	Case of 4 gallons	\$72.99	28 lb

5. Miracle Mildew Remover

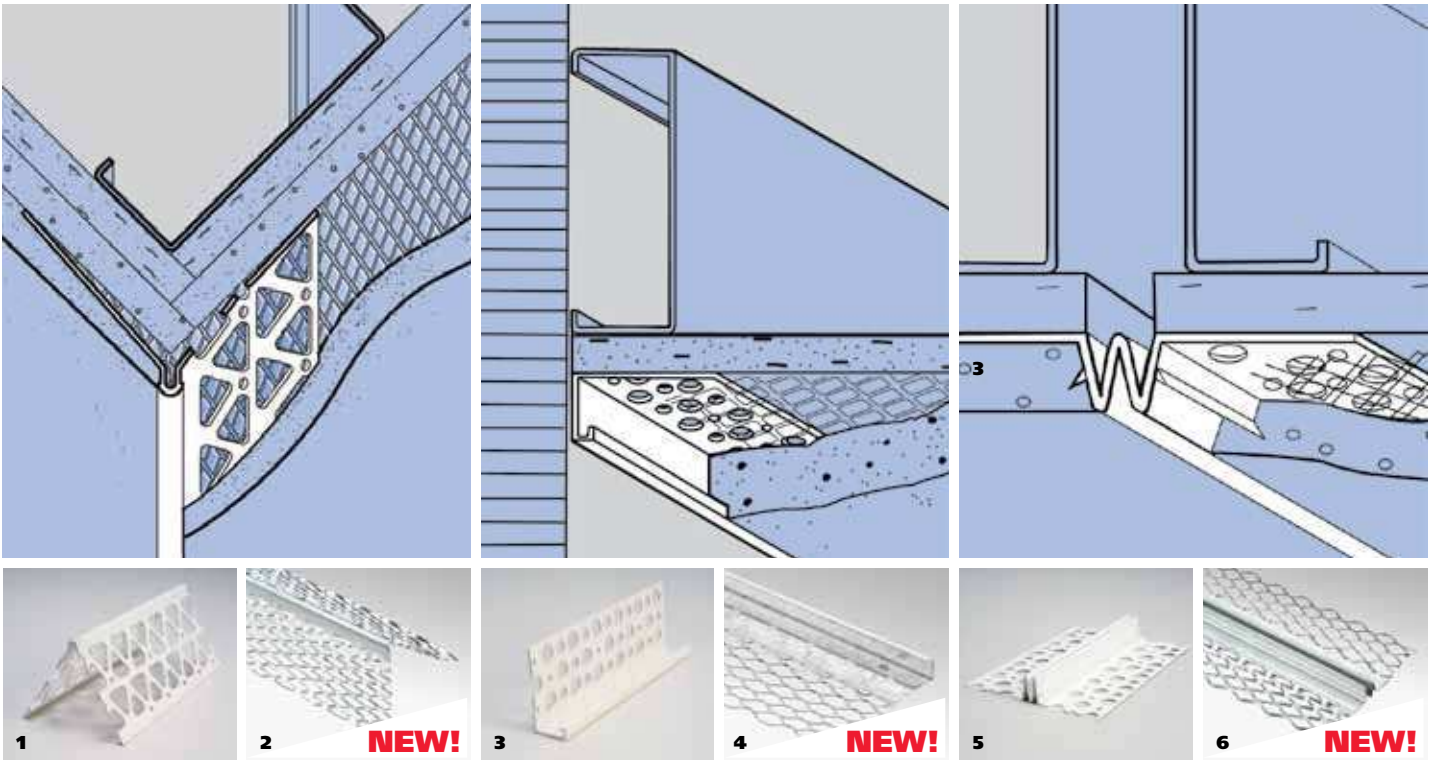

Removes mildew from stucco surfaces and building faces. 500 ft coverage.

Part Code	Size	Contr Price	Approx Wt
W-MMRC	1 bag	\$12.80	1 lb

6. Rubber Coated Gloves

Part Code	Size	Contr Price	Approx Wt
NS W-10CG	10 pack	\$13.50	1 lb

STUCCO AND PLASTER ACCESSORIES

1. Vinyl Corner Beads

Vinyl corners provide hard-to-damage, rust-proof straight corners. They are easily curved to create for smooth arches.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CB8	50	ANY	8' with 2-1/2" perforated flanges	CALL	45 lb

2. Metal Corner Beads **NEW!**

Phillips #1 Expanded Corner Bead provides strong corner reinforcement for conventional plaster applications. Solid nose provides straight, rigid ground and 2-5/8" flanges can be flexed over uneven surfaces. Plaster keys near solid nose help ensure straight corners. Phillips #33 Wide Expanded Flange Bead provides rigidity for masonry, beams, and column fireproofing.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CB01E	40	ANY	8' with #1 Expanded Flange	CALL	TBD
W-CB33W	40	ANY	8' with #33 Wide Flange	CALL	TBD
W-CBEV	60	ANY	8' Expanded Veneer	CALL	TBD

3. Vinyl Casing Beads/Plaster Stops

Vinyl corner beads are used to terminate stucco and plaster against doors, windows and dissimilar materials.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CBPS50	100	1/2"	1-3/4" perforated flange	CALL	80 lb
W-CBPS75	75	3/4"	1-3/4" perforated flange	CALL	60 lb

4. Metal Casing Beads/Plaster Stops **NEW!**

Phillips #66 Expanded Flange Square Casing is a universal plaster stop for wall terminations, openings and intersections, and protects edges from damage and helps cover shrinkage cracks.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CBPSEF1	30	1"	8' with #66 Expanded Flange	CALL	55 lb
W-CBPSEF3	30	3/8"	8' with #66 Expanded Flange	CALL	51 lb

W-CBPSSF7	30	3/4"	8' with #66 Expanded Flange	CALL	44 lb
W-CBPSSF8	30	7/8"	8' with #66 Expanded Flange	CALL	44 lb

5. Vinyl Control Joints

Vinyl joints are designed to relieve stress and assist in controlling cracking in large areas of walls and ceilings. Specially designed connector clips are provided for alignment and base for sealants.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CJ50	35	1/2"	4" perforated flange	CALL	49 lb
W-CJ75	26	3/4"	4" perforated flange	CALL	40 lb

6. Metal Control Joints **NEW!**

Phillips #15 Double V Expansion Joint relieves expansion and contraction stresses during stucco curing. Phillips #15 minimizes plaster cracking and helps ensure proper plaster or stucco thickness.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CJE3	24	3/8"	8' with #15 3/8" Expansion Joint	\$1.79	TBD
W-CJE5	24	1/2"	8' with #15 1/2" Expansion Joint	\$1.84	TBD

For additional stucco and plaster trims, see pages 22 and 23.

PERMALATH® GLASS FIBER LATH FOR STUCCO AND STONE

*Now Available to
Everyone, Nationally
Through Wind-lock®.*

PermaLath® is an open weave, corrosion-free, three-dimensional, self-furring, glass fiber reinforcing lath.

FEATURES AND BENEFITS

Non Metallic

Will not rust; ideal for coastal applications

Pliable, with No Sharp Edges

Safer and easier to cut and handle

Non-Directional

Can be applied vertically or horizontally

Wide Rolls

Fewer overlaps required to give better coverage

Three-Dimensional Profile

Self-furring, excellent mechanical key using traditional fastening procedures

Low Profile on Overlaps

Overlaps are easily feathered, eliminating shadowing

Alkali Resistant

Long-term durability and performance

Packaged in Lightweight Rolls

Application time/labor savings/storage

PermaLath® Glass Fiber Lath

PermaLath® is a nominal 1/8" thick glass fiber reinforcing lath designed for use with cementitious exterior wall coatings manufactured in accordance with ICC-ES AC-11 at a maximum thickness of 3/8" to 1/2". PermaLath® provides keying and continuous reinforcement for stucco used on vertical wall applications with solid backing.

Part Code	Qty	Size	Description	Contr Price	Approx Wt
I-PL	1 Roll	39" x 150'	1/8" Fiberglass Lath 487.5 sq ft	CALL	16 lb

*Note: 20 Rolls per Skid 39" x 150', 1/8" Fiberglass Lath
9,750 sq ft, 375 lb per skid.*

PermaLath® 1000 Glass Fiber Lath

PermaLath® 1000 is a nominal 1/4" thick glass fiber reinforcing lath designed for use with cementitious exterior wall coatings (traditional stucco) at a maximum thickness of 1/2" to 7/8". PermaLath® 1000 can also be used as a mortar base for lightweight veneer facing, such as stone veneer.

Part Code	Qty	Size	Description	Contr Price	Approx Wt
I-PL1000	1 Roll	39" x 150'	1/4" Fiberglass Lath 487.5 sq ft	CALL	31 lb

*Note: 8 Rolls per Skid 39" x 150', 1/4" Fiberglass Lath
3,900 sq ft, 303 lb per skid.*

4. Benjamin Obdyke Blockade™ **NEW!**

Designed specifically for use in brick wall cavities, the entangled matrix design of the Blockade™ Mortar Deflection System blocks mortar from clogging the weep holes and allows excess moisture to flow freely out of the wall cavity. The result is a brick wall that is built to stand the test of time and remains free from the deteriorating effects of mold and mildew.

Part Code	Qty/Skid	Size	Description	Contr Price	Approx Wt
W-BA80	16	50'x10"x.80"	80 Mortar Deflection .80" thick	\$37.50	5 lb
