WHEN YOU NEED IT

2010

We're proud to be an active member of the following organizations.

Join Us on These Social Networks

Wind-lock® is now on Twitter, Facebook and YouTube. That's three more ways for you to get a jump on great discounts, special offers and a wide range of labor-saving products and videos. Check us out online at www.wind-lock.com and access the network of your choice.

Customer Service The Wind-lock® Customer Sales Support Team is available Monday through Thursday, 8:00 am to 6:00 pm and Friday, 8:00 am to 5:00 pm Eastern Standard Time. For more information, call 1-800-872-5625, fax: 1-800-854-6614 or visit www.wind-lock.com

Pricing All pricing is suggested retail and applies only to the continental United States. We make every effort to assure that our products and pricing are published as accurately as possible. In the event an error is made, we reserve the right to correct it.

Warranty All Wind-lock products are manufactured in accordance with a strict quality assurance program. They are warranted to be free from manufacturing defects and will perform as represented.

Return Policy No merchandise may be returned without a return authorization number from the Wind-lock Credit and Return Department. If the return is authorized, transportation charges must be prepaid. If goods are found defective, we will replace them free of charge.

Tools found abused will be repaired and returned only at buyer's written request. We will not be responsible for any merchandise returned that has been out of the factory 12 months or longer. Merchandise that has been discontinued cannot be returned.

Any and all portions of this catalog may not be reproduced in any way without written consent from Wind-lock. Technical data, photos and illustrations represent the product offered at time of printing. Due to continuous product improvement, items may change. Refer to www.wind-lock.com for the latest information.

EIFS/STUCCO/ STONE VENEER SOLUTIONS

Exterior Insulation and Finish Systems (EIFS) currently comprise 30% of the commercial exterior wall market. With today's increased emphasis on energy efficiency, a building envelope incorporating an EIF System provides tremendous insulating value, while meeting or exceeding the demands of current regulatory requirements. Wind-lock® continues to support successful EIFS projects with superior products like Wind-Devil® fasteners and efficient tools for securing insulation board with adhesive and/or mechanical attachments, embedding fiberglass mesh and base coating. Wind-lock also offers a complete range of products for applying stucco, stone veneer and finish coatings.

Still The Most Trusted
Mechanical Fastening System!*

**Stock to Dock
Shipping Guarantee**

Products highlighted in yellow are guaranteed to ship within 24 hours or freight costs are **FREE!** Larger orders may require additional lead times. Call for details.

The industry-leading, two-inch diameter Wind-Devil® 2 is by far the most popular and technologically advanced EIFS mechanical fastening system on the market. The patented “bullseye” closure arms allow easy, efficient backing out of any screw, saving time and money.

The Wind-Devil® 2 is designed and engineered for use with polymer based (PB) EIFS (Exterior Insulation and Finish Systems). It allows the attachment of EPS insulation to a variety of substrates, including wood, lite metal, steel and masonry. Our witnessed, negative wind-load testing (ASTM-E330) continues to set the industry standard for attaching EIFS.

The Wind-Devil® 2 fastening system is engineered to be utilized in wood, lite metal, steel and masonry substrates and can be applied in any weather condition.

1. Wind-Devil® 2 Plates

Call your local distributor for pricing.

Part Code	Qty/Box	Description	Approx Wt/Box
WD-2PLATE	1000	Wind-Devil 2 Plates	10 lb
WD2-PK	500	Wind-Devil 2 Pack	5 lb

WIND-DEVIL® 2 FASTENERS SERIES SELECTION

Longer length fasteners are available. See Long-lock, page 8.

2. Wood and Lite Metal Series Assembled Fasteners (WLMT)

Assembled fastener and plate for use with dimensional lumber, plywood type sheathings and metal sidings, 20 to 26 gauge.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
WLMT-1	1000	1"	#7 x 1-5/8"	16 lb
WLMT-2	1000	1-1/2"	#8 x 2"	19 lb
WLMT-3	1000	2"	#8 x 2-1/2"	21 lb
WLMT-4	1000	2-1/2"	#8 x 3"	22 lb
WLMT-5	1000	3"	#8 x 4"	25 lb
WLMT-7	500	3-1/2"-4-1/2"	#10 x 5"	20 lb
WLMT-8	500	5"-5-1/2"	#10 x 6"	22 lb

Wood and Lite Metal Zinc Screw Series Assembled Fasteners (GWLMT)

Assembled fastener and plate for use with dimensional lumber, plywood type sheathings and metal sidings, 20 to 26 gauge, using our zinc plated UZWLM screws.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
GWLMT-1	1000	1"	#6 x 1-5/8"	16 lb
GWLMT-2	1000	1-1/2"	#6 x 2"	18 lb
GWLMT-3	1000	2"	#8 x 2-5/8"	21 lb
GWLMT-4	1000	2-1/2"	#8 x 3"	22 lb
GWLMT-5	1000	3"	#10 x 4"	25 lb

Wood Zinc Screw Series Assembled Fasteners (GWT)

Assembled fastener and plate for use with dimensional lumber and plywood type sheathings using our zinc plated UZW screws.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
GWT-1	1000	1"	#6 x 1-5/8"	16 lb
GWT-2	1000	1-1/2"	#7 x 2"	19 lb
GWT-3	1000	2"	#8 x 2-1/2"	21 lb
GWT-4	1000	2-1/2"	#8 x 3"	22 lb
GWT-5	1000	3"	#10 x 4"	25 lb

3. Steel Series Assembled Fasteners (ST)

Assembled fastener and plate for use with 12 to 20 gauge. Does not take into account sheathing thickness.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
ST-1	1000	1"	#6 x 1-5/8"	16 lb
ST-2	1000	1-1/2"	#6 x 2"	18 lb
ST-3	1000	2"	#8 x 2-5/8"	22 lb
ST-4	1000	2-1/2"	#8 x 3"	24 lb
ST-5	1000	3"	#10 x 4"	32 lb
ST-6	1000	3-1/2"-4"	#10 x 4-3/8"	34 lb
ST-7	500	4"-4-1/2"	#10 x 5"	20 lb
ST-8	500	5"-5-1/2"	#10 x 6"	23 lb
ST-9	500	6"-6-1/2"	#10 x 7"	26 lb
ST-10	500	7"-7-1/2"	#10 x 8"	27 lb

4. Masonry Series Assembled Fasteners (MT)

Assembled fastener and plate for use with concrete and other unit masonry. 5 drill bits per 1000 included.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
MT-1	1000	1" only	3/16" x 1-3/4"	21 lb
MT-2	1000	1-1/2"	3/16" x 2-1/4"	26 lb
MT-3	1000	2"	3/16" x 2-3/4"	26 lb
MT-4	1000	2-1/2"	3/16" x 3-1/4"	28 lb
MT-5	1000	3"	3/16" x 4"	31 lb

5. Masonry Expandable Series Assembled Fasteners (MET)

Assembled, expandable fastener and plate for use with concrete block, concrete and other unit masonry. Drill bit not included. For MET-1-MET-3 use bit M-S166; for MET-1-MET-7 use bit M-S1612. See page 11 for ordering information.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
MET-1	1000	1" only	3/16" x 2-1/4"	25 lb
MET-2	1000	1-1/2"	3/16" x 2-1/2"	26 lb
MET-3	1000	2"	3/16" x 3"	28 lb
MET-4	1000	3"	3/16" x 4"	30 lb
MET-5	1000	3-1/2"	3/16" x 4-1/2"	19 lb
MET-6	500	4"	#10 x 5"	21 lb
MET-7	500	5"	#10 x 6"	22 lb
MET-8	500	6"	#10 x 7"	25 lb
MET-9	500	7"	#10 x 8"	28 lb

WIND-DEVIL® 2 TECHNICAL DATA

WIND-LOAD TEST DATA

Wind-Devil® 2

All measurements shown are ultimate pounds per foot.

EPS Thickness	Pattern A	Pattern B	Pattern C
1"	107	88	85
1-1/2"	130	114	103
2"	144	129	124

Witness test reports available.

GENERAL CORROSION DATA

Salt Spray (ASTM-B117)

Finish	Hours to Initial (%) Signs of Red Rust	Hours and Red Rust (%) at Test Conclusion
Phosphate and oil	24 (5% or less)	240 (90-100%)
.0003" electro zinc	48 (5% or less)	240 (75-100%)
.001" hot dip galvanized	98 (5% or less)	320 (75-100%)
Wind-lock® CCS Coating	192 (5% or less)	720 (50-100%)

FASTENER PULLOUTS

WLMT Series

Dimensional lumber/wood sheathings.

Penetration dimensional lumber	1/2"	3/4"	1"	1-1/4"	1-1/2"
Pullout strength	183	304	441	652	731

WLMT Series

Lite gauge metal siding.

Nominal gauge	26	25	22	20
Lite Metal pullout strength	*	178	244	277

*Consult Wind-lock® for pullout (through penetration 1/4" min.).

ST Series

Steel/steel studs.

Nominal gauge	24	22	20	18	16	14	12
Steel pullout strength	*	211	296	471	679	847	1225

*Consult Wind-lock® for pullout (through penetration 1/4" min.).

MT Series

Masonry.

Penetration	1"	1-1/4"	1-1/2"	1-3/4"
Concrete pullout strength	380	580	830	1090
Hollow block pullout strength	229	416†	452†	521†

†Denotes solid material.

MET Series

Masonry expandable.

Concrete pullout strength	378
Hollow block pullout strength	333

Pullout strengths shown are ultimate values. An appropriate factor of safety must be applied by the user to obtain allowable limits for design. Masonry must be pre-drilled 1/2" deeper than fastener penetration. Hardness of masonry varies and may require a non-standard drill bit. Please consult Wind-lock® for assistance in proper drill bit size. Consult system manufacturer for specific requirements.

TYPICAL WIND-DEVIL® 2 FASTENING PATTERNS

Pattern A

Wood sheathing, masonry and some metal sidings.

Pattern B

16" O.C. stud fastening pattern.

NOTE: For pattern "B" stud fastening over non-screwable sheathing, fastener spacing does not exceed 16" O.C. variable not to exceed 11".

Pattern C

Wood sheathing, masonry and some metal sidings.

WIND-DEVIL® 2 SELECTION GUIDE

Insulation Thickness	Wood/Lite Metal Series**	Steel Series	Masonry Series
1"	WLMT-1	ST-1*	MT-1
1-1/2"	WLMT-2	ST-2*	MT-2
2"	WLMT-3	ST-3*	MT-3
2-1/2"	WLMT-4	ST-4*	MT-4
3"	WLMT-5	ST-5*	MT-5
3-1/2"	WLMT-7	ST-6*	
4"	WLMT-7	ST-7*	
4-1/2"	WLMT-7	ST-7*	
5"	WLMT-8	ST-8*	
5-1/2"	WLMT-8	ST-8*	

For virtually any size fastener, contact Wind-lock® or refer to the Long-lock section, Page 8.

* Sizes are for direct application into steel and do not take into account the sheathing. For 1/2" and 5/8" sheathing, move fastener selection to next higher size.

** See page 5 for additional wood (GWT) and lite metal (GWLMT) fasteners.

Why The Wind-Devil® 2 is Best!

- Comprehensive witness testing
- Over 20 years of proven performance
- EIFS industry approved
- Significant negative wind-load resistance
- Recessed thermal chamber helps prevent thermal bridging
- Patented closure arms allow for easy “backing” out
- Installation of the Wind-Devil® 2 compresses the foam under the washer forming a “gasket” around the fastener. This gasketing action diverts moisture from the fastener.

OTHER FASTENERS

1. ULP-302 Series Selection

The ULP-302 and ULP-402 are engineered to attach PermaLath® 17, 20 gauge stucco netting, as well as 2.5 and 3.4 metal lath (hard coat stucco systems). NOT for use with PB EIFS. For standard PB applications with the thermal recessed chamber, refer to Wind-Devil® 2 and Long-lock fasteners.

Engineered Features

- 1-3/4" diameter
- Made of high-grade polypropylene plastic
- Unique design allows plate to flatten out in application
- Large ribs stiffen plate, limit deflection
- 16 keyholes allow for mechanical locking of base coat
- Can be screw fastened, nailed or shot
- Engineered "flash" allows for pre-assembly of screw fasteners

Consult system manufacturer for specific requirements.

Wood/Lite Metal Series

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
ULP-3WLM1	1000	3/4"	#7 x 1-5/8"	13 lb
ULP-3WLM2	1000	1"	#8 x 2"	15 lb
ULP-3WLM3	1000	1-1/2"	#8 x 2-1/2"	17 lb
ULP-3WLM4	1000	2"	#8 x 3"	19 lb
ULP-3WLM5	1000	3"	#8 x 4"	21 lb

Steel Series

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
ULP-3S1	1000	3/4"	#6 x 1-5/8"	12 lb
ULP-3S2	1000	1"	#6 x 2"	14 lb
ULP-3S3	1000	1-1/2"	#8 x 2-5/8"	18 lb
ULP-3S4	1000	2"	#8 x 3"	19 lb
ULP-3S5	1000	3"	#10 x 4"	27 lb

2. ULP-302 Plate

Part Code	Qty/Box	Description	Approx Wt/Box
ULP-302	1000	Plates	6 lb

3. ULP-402 Series Selection

Engineered Features

- 1-3/4" diameter
- Made of high-grade polypropylene plastic
- Pre-spotting central stem/tab allows for quick and easy pre-spotting into insulation board
- Large ribs stiffen plate, limit deflection
- 16 keyholes allow for mechanical locking of base coat
- The ULP-402 is unassembled and can be utilized with Wind-lock® highly coated exterior fasteners

Consult system manufacturer for specific requirements.

Part Code	Qty/Box	Approx Wt/Box
ULP-402	1000	6 lb

4. Long-lock Fasteners

Use these for all of your thick foam fastening needs, such as: cornice details, arches, columns, custom parapet shapes and quoins. All fasteners come fully assembled.

Engineered Features

- 1-3/4" diameter
- Finger closure and recessed fastener chamber
- Utilized for thicker insulation

Consult system manufacturer for specific requirements.

WLM—Wood/Lite Metal/Masonry Screws

Hardness of masonry varies and may require a non-standard drill bit. Please consult Wind-lock® for assistance in proper drill bit size. Includes one drill bit per 200 pieces.

Part Code	Qty/Box	Insulation Thickness	Screw Size	Approx Wt/Box
WLM-7	100	4"	#14 x 5"	5 lb
WLM-8	100	5"	#14 x 6"	5 lb
WLM-9	100	6"	#14 x 7"	6 lb
WLM-10	100	7"	#14 x 8"	7 lb
WLM-11	100	8"	#14 x 9"	8 lb
WLM-12	100	9"	#14 x 10"	8 lb
WLM-13	100	10"	#14 x 11"	9 lb
WLM-14	100	11"	#14 x 12"	10 lb
WLM-15	100	12"–13"	#14 x 14"	12 lb

For even longer fasteners, please contact Wind-lock®

Stock to Dock Shipping Guarantee

Products highlighted in yellow are guaranteed to ship within 24 hours or freight costs are **FREE!** Larger orders may require additional lead times. Call for details.

**Lath Plate:
Best Fastener
for Attaching
PermaLath®**

5. Lath-Lock

Designed to be used with Polymer Modified (PM) Hard Coat EIFS, insulated stucco systems, stucco systems utilizing expanded metal lath or stucco wire over rigid insulations.

Engineered Features

- 1-1/4" diameter, G-90 galvanized steel
- Flat profile
- Positive attachment
- Tabs reduce spin in insulation board
- Reversed arm creates non-stacking plate
- Recessed center chamber allows for flush seating of fastener
- Turned tabs allow for pre-spotting
- Smooth edges
- Can be screw fastened, nailed or shot

Consult system manufacturer for specific requirements.

Part Code	Qty/Box	Approx Wt/Box
LATH-LOCK	1000	9 lb

6. Lath-Plate (Legless)

Legless Lath-Plate is perfect for stone veneer and thin coat stucco utilizing PermaLath®.

Engineered Features

- 1-1/4" diameter, G-90 galvanized steel
- Flat profile
- Positive attachment
- Recessed center chamber allows for flush seating of fastener
- Smooth edges
- Can be screw fastened, nailed or shot

Consult system manufacturer for specific requirements.

Part Code	Qty/Box	Approx Wt/Box
LATH-PLATE (Legless)	1000	9 lb

7. Congrip Masonry Fasteners

Made of polypropylene with keyholes for locking in the base coat. Simply drill a pilot hole and hammer into the concrete. Requires 5/16" drill bit.

Part Code	Qty/Box	Insulation Thickness	Description	Approx Wt/Box
W-MCG0	250	3/4"-1"	2" Masonry Walgrip	4 lb
W-MCG1	250	1-1/2"	2-3/4" Masonry Walgrip	4 lb
W-MCG2	250	2"	3-1/2" Masonry Walgrip	5 lb

Longer sizes available, call for details.

8. Foam Tacs

Temporary fastening system used in conjunction with adhesive attachment of stucco trims and accessories.

Part Code	Qty/Bag	Description	Approx Wt/Bag
A ARROW-TAC	250	1-3/4" Arrow Foam Tac	1 lb
B INSUL-TAC	250	1-1/2" Insul Foam Tac	1 lb
C TRIM-TAC	250	3/4" Trim Foam Tac	1 lb
D M-TT1	1000	1" Trim Tab	2 lb
D M-TT158	1000	1-5/8" Trim Tab	3 lb

SCREWS

All wood/lite metal and steel fasteners are self-tapping. All screws except for the economy wood fasteners (UZW) are highly coated, meeting the Wind-lock® Corrosion Coating Standard.

1. Hard-Roc Sheathing Fasteners (F-HR)

Part Code	Qty/Box	Screw Size	Approx Wt/Box
F-HR114	1000	#9 x 1-1/4"	6 lb
F-HR158	1000	#9 x 1-5/8"	7 lb
F-HR114S	1000	#8 x 1-1/4"	6 lb
F-HR158S	1000	#8 x 1-5/8"	7 lb

2. Wafer-Head Sheathing Fasteners (F-WH)

Part Code	Qty/Box	Screw Size	Approx Wt/Box
F-WH114	1000	#8 x 1-1/4"	6 lb
F-WH158	1000	#8 x 1-5/8"	7 lb
F-WH114S	1000	#10 x 1-1/4"	6 lb
F-WH158S	1000	#8 x 1-5/8"	7 lb

3. Wood/Lite Metal Fasteners (UWLM)

Part Code	Qty/Box	Screw Size	Approx Wt/Box

5. Insul-Knife™

Insul-Knife™ is one of those time-saving tools that you will wonder how you ever lived without. It is perfect for easily cutting all type of insulations including: EPS foam, fiberglass, sponge foam and cotton fiber. It is an excellent tool for trimming unwanted excess foam insulation after it expands and cures.

Part Code	Description	Contr Price
W-INSULKIT	Multipurpose Insulation Kit (Knife and Sharpener)	\$42.95
W-INSULS	Insulation Knife Sharpener	\$10.99

Kit Includes Groove Tool Handle

AESTHETIC GROOVE KITS

To add aesthetic grooves to your EIFS project you will need a 2-QC Hot Knife with the Q-SLED6 groove sled adapter and an aesthetic groove kit. The aesthetic groove kit includes the groove tool handle, three blades and the sleds necessary to complete grooves to the finished dimensions. The dimensions below represent the finished grooves when using a PB EIFS system. Other kits, additional sizes and custom sizes are available, call for details.

FOAM2FOAM® GUN FOAMS

EIFS Contractors' Preferred Gap Filler.

Cleans up hands and tools. See page 32.

Buy the Kit and Save!

A multi-purpose, professional, low-expansion construction adhesive and gap and crack filler. Great for ICF, SIP, EIFS and stone veneer applications. One component polyurethane foam. Cures by absorbing water vapor from the air.

- Used for filling, slivering, sealing and insulating joints and cracks
- Professional quality
- Accurately controlled application
- Moisture-curing
- Acoustical sealant
- Drywall adhesive: reduces fasteners by 60%
- Excellent adhesion to most surfaces
- Temperature, water and chemical resistant
- No CFC/HCFC
- Stone veneer adhesive
- Compatible with EPS foam boards
- Paintable and can be plastered over

Consult your system manufacturer for specific recommendations.

FOAM GUNS

All of our guns are engineered to deliver foam day after day with minimal cleaning. The all-metal needle valve construction delivers the polyurethane foam with controlled accuracy. We offer a wide variety, ranging from “do it yourself” models to professional.

ECONOMY SERIES

1. W-EG13T Taper Tip Foam Dispenser

Light-medium duty gun, featuring all-metal needle valve construction and brass tapered tip with universal can adapter and tip. This is our best gun for filling in EPS board gaps.

Part Code	Description	Contr Price	Approx Wt
W-EG13T	Taper Tip Foam Dispenser	\$35.95	2 lb

2. W-EG13

Light-medium duty gun, featuring all-metal needle valve construction and brass universal can adapter and tip.

Part Code	Description	Contr Price	Approx Wt
W-EG13	Economy Foam Dispenser	\$39.95	2 lb

INTERMEDIATE SERIES

3. W-EG14

Medium duty gun featuring a Teflon® coated needle valve and universal can adapter. The knurled brass dispensing tip is the knurled brass that holds the extension tubes in place. Also available with a 31" long extended barrel for long reach or sub floor applications.

Part Code	Description	Contr Price	Approx Wt
W-EG14	Foam Dispenser with Teflon Tip	\$56.50	2 lb
NS W-EG14L	31" Long-Barrel	\$139.75	4 lb
NS W-EG14BT	Brass tips for W-EG14	\$3.75	1 lb

NS=Not shown.

PROFESSIONAL SERIES

4. W-EG15

This professional gun features a narrow tapered tip for dispensing the foam between EIFS board lines. The two stage tapered barrel blends the foam to a superior consistency.

Part Code	Description	Contr Price	Approx Wt
W-EG15	Pageris Foam Dispenser	\$82.35	2 lb

PROPER ATTACHMENT OF FOAM GUNS

1. Attach the gun to the can of F2F®.

4. Removing the can from gun, point can upright and away from your face.

2. The can should point up and away from your face.

5. Clean the gun adapter with the F2F® Cleaner.

3. Shake can for 1 minute and purge air from gun.

6. Attach and spray the cleaner through the gun.

WATER MANAGEMENT

5. Dow® Weathermate™ Housewrap—Plus

Weathermate™ Housewrap—Plus is a non-woven, non-perforated, polyolefin-based housewrap that offers exceptional tear resistance and durability. It is an effective option for builders who prefer to use non-insulating sheathing along with housewrap. When installed over sheathing, Weathermate™ Housewrap—Plus reduces costly air and moisture infiltration. It is translucent to allow a clear view of the studs and the sheathing surface during installation.

 Note: Also see Weatherization Section, page 78.

6. Benjamin Obdyke Home Slicker® NEW!

Home Slicker® Stone & Stucco is the only vertically channeled rainscreen that has been specifically designed for use with manufactured stone, natural stone, stucco and masonry applications. Each roll contains the patented Home Slicker® three-dimensional matrix bonded to a fabric which prevents mortar from entering the wall cavity during cladding installation. This product installs with the fabric facing outward.

Home Slicker® Plus Typar® is a cost-effective, labor and material saving, moisture eliminating rainscreen combined with a water resistive barrier. Each roll contains the patented Home Slicker® three-dimensional matrix bonded to Typar®, the premium residential and commercial grade housewrap. The unique, vertically-channeled, three-dimensional matrix of the original Home Slicker® provides a continuous space for drainage and drying, a thermal break and pressure equalization—eliminating the threat of trapped moisture. Home Slicker® 10 is designed to meet the 10mm code requirements in Canada.

7. Benjamin Obdyke Blockade™ NEW!

Designed specifically for use in brick wall cavities, the entangled matrix design of the Blockade™ Mortar Deflection System blocks mortar from clogging the weep holes and allows excess moisture to flow freely out of the wall cavity. The result is a brick wall that is built to stand the test of time and remains free from the deteriorating effects of mold and mildew.

8. BIG O Tool Cleaner

A citrus cleaner designed for removal of synthetic stucco from tools, equipment and building surfaces. Great for removing adhesives, silicone caulking, decals, ink, asphalt, grease and tar from porous surfaces.

Part Code	Size	Description	Contr Price	Approx Wt/Case
W-AOC	14 oz can	Can of Tool Cleaner	\$11.65	14 lb
W-AOJ	Gallon	Gallon of Tool Cleaner	\$66.35	32 lb

9. Tool Cleaner

Removes synthetic stucco from tools and equipment. Great for cleaning trowel and other often-used hand tools. Helps prolong your tool life.

Part Code	Size	Description	Contr Price	Approx Wt/Case
W-TM	18 oz can	Can of Tool Cleaner	\$10.95	14 lb

CHEMICALS

1. General Purpose Cleaner

Spray applied to natural masonry, stucco, synthetic stucco and other wall surfaces. Removes dirt, soot and pollution.

Part Code	Size	Contr Price	Approx Wt
MP-2107G	Case of 4 gallons	\$72.99	28 lb

2. Titan Penetrating Sealer

Titan is not a “topical” sealer. Instead, it penetrates the surface voids and “locks-up” surface integrity without forming a vapor barrier. Titan is a reacted silicate sealer with essentially the same chemical makeup as glass (silica), resulting in a non-yellowing, breathable surface.

Part Code	Size	Contr Price	Approx Wt
W-TPS1	Gallon	\$43.00	9 lb
W-TPS5	5 gallons	\$184.00	45 lb

3. Rust Remover & Phosphatizer

This clear, liquid, chemical compound reverses the process that causes rusting and oxidation. It destroys the corrosive agents that support rust and leaves a clean, phosphatized, paintable surface.

Part Code	Size	Contr Price	Approx Wt
MP-G2108	Gallon	\$22.95	7 lb

4. Efflorescence Remover

Sprays into natural masonry, stucco, synthetic stucco and other wall surfaces. Removes efflorescence and other acid-soluble stains. 400 square feet of coverage.

Part Code	Size	Contr Price	Approx Wt
MP-G2112	Case of 4 gallons	\$72.99	28 lb

5. Miracle Mildew Remover

Removes mildew from stucco surfaces and building faces. 500 ft coverage.

Part Code	Size	Contr Price	Approx Wt
W-MMRC	1 bag	\$12.80	1 lb

6. Rubber Coated Gloves

Part Code	Size	Contr Price	Approx Wt
NS W-10CG	10 pack	\$13.50	1 lb

NS=Not shown.

STUCCO AND PLASTER ACCESSORIES

1. Vinyl Corner Beads

Vinyl corners provide hard-to-damage, rust-proof straight corners. They are easily curved to create for smooth arches.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CB8	50	ANY	8' with 2-1/2" perforated flanges	CALL	45 lb

2. Metal Corner Beads **NEW!**

Phillips #1 Expanded Corner Bead provides strong corner reinforcement for conventional plaster applications. Solid nose provides straight, rigid ground and 2-5/8" flanges can be flexed over uneven surfaces. Plaster keys near solid nose help ensure straight corners. Phillips #33 Wide Expanded Flange Bead provides rigidity for masonry, beams, and column fireproofing.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CB01E	40	ANY	8' with #1 Expanded Flange	CALL	TBD
W-CB33W	40	ANY	8' with #33 Wide Flange	CALL	TBD
W-CBEV	60	ANY	8' Expanded Veneer	CALL	TBD

3. Vinyl Casing Beads/Plaster Stops

Vinyl corner beads are used to terminate stucco and plaster against doors, windows and dissimilar materials.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CBPS50	100	1/2"	1-3/4" perforated flange	CALL	80 lb
W-CBPS75	75	3/4"	1-3/4" perforated flange	CALL	60 lb

4. Metal Casing Beads/Plaster Stops **NEW!**

Phillips #66 Expanded Flange Square Casing is a universal plaster stop for wall terminations, openings and intersections, and protects edges from damage and helps cover shrinkage cracks.

Part Code	Qty/Box	Ground	Description	Contr Price/Pc	Approx Wt/Bx
W-CBPSEF1	30	1"	8' with #66 Expanded Flange	CALL	55 lb
W-CBPSEF3	30	3/8"	8' with #66 Expanded Flange	CALL	51 lb

PERMALATH® GLASS FIBER LATH FOR STUCCO AND STONE

*Now Available to
Everyone, Nationally
Through Wind-lock®.*

PermaLath® is an open weave, corrosion-free, three-dimensional, self-furring, glass fiber reinforcing lath.

FEATURES AND BENEFITS

Non Metallic

Will not rust; ideal for coastal applications

Pliable, with No Sharp Edges

Safer and easier to cut and handle

Non-Directional

Can be applied vertically or horizontally

Wide Rolls

Fewer overlaps required to give better coverage

Three-Dimensional Profile

Self-furring, excellent mechanical key using traditional fastening procedures

Low Profile on Overlaps

Overlaps are easily feathered, eliminating shadowing

Alkali Resistant

Long-term durability and performance

Packaged in Lightweight Rolls

Application time/labor savings/storage

PermaLath® Glass Fiber Lath

PermaLath® is a nominal 1/8" thick glass fiber reinforcing lath designed for use with cementitious exterior wall coatings manufactured in accordance with ICC-ES AC-11 at a maximum thickness of 3/8" to 1/2". PermaLath® provides keying and continuous reinforcement for stucco used on vertical wall applications with solid backing.

Part Code	Qty	Size	Description	Contr Price	Approx Wt
I-PL	1 Roll	39" x 150'	1/8" Fiberglass Lath 487.5 sq ft	CALL	16 lb

*Note: 20 Rolls per Skid 39" x 150', 1/8" Fiberglass Lath
9,750 sq ft, 375 lb per skid.*

PermaLath® 1000 Glass Fiber Lath

PermaLath® 1000 is a nominal 1/4" thick glass fiber reinforcing lath designed for use with cementitious exterior wall coatings (traditional stucco) at a maximum thickness of 1/2" to 7/8". PermaLath® 1000 can also be used as a mortar base for lightweight veneer facing, such as stone veneer.

Part Code	Qty	Size	Description	Contr Price	Approx Wt
I-PL1000	1 Roll	39" x 150'	1/4" Fiberglass Lath 487.5 sq ft	CALL	31 lb

*Note: 8 Rolls per Skid 39" x 150', 1/4" Fiberglass Lath
3,900 sq ft, 303 lb per skid.*

3. Home Slicker® **NEW!**

The unique, vertically-channeled, three-dimensional matrix of the original Home Slicker® provides a continuous space for drainage and drying, a thermal break and pressure equalization—eliminating the threat of trapped moisture. Home Slicker® 10 is designed to meet the 10mm code requirements in Canada.

Part Code	Qty/Skid	Size	Description	Contr Price	Approx Wt

NS=Not shown.

4. Benjamin Obdyke Blockade™ **NEW!**

Designed specifically for use in brick wall cavities, the entangled matrix design of the Blockade™ Mortar Deflection System blocks mortar from clogging the weep holes and allows excess moisture to flow freely out of the wall cavity. The result is a brick wall that is built to stand the test of time and remains free from the deteriorating effects of mold and mildew.

Part Code	Qty/Skid	Size	Description	Contr Price	Approx Wt

W-BA150	16	50'x10"x1.5"	80 Mortar Deflection 1.5" thick	\$56.35	4 lb

ICF & SIP

BUILDING SOLUTIONS

Insulating Concrete Forms (ICFs) and Structural Insulated Panels (SIPs) represent innovative and dependable choices for responding to a wide variety of building challenges. Wind-lock® ICF and SIP help ensure that these technologies will be an efficient and cost-effective solution as well, with high-quality specialized tools for cutting, fabricating, gluing and finishing.

GIVING YOU THE BEST PRODUCTS AND SERVICE

Our commitment is more than delivering the finest tools, accessories and specialized products. We've made the same commitment to giving you the best customer service available. That means technical expertise and consulting to help projects go more smoothly and quickly. Our project know-how includes productivity tips, work procedure advice, application technique refinement and other contributions toward fast installation and quality results. Just ask us.

FOAM2FOAM® GUN FOAMS

EXCLUSIVE PRODUCT

ICF Contractors' Preferred Foam Adhesive.

A multi-purpose, professional, low-expansion construction adhesive and gap and crack filler. Great for ICF, SIP and EIFS and stone veneer applications. One component polyurethane foam. Cures by absorbing water vapor from the air.

- Used for filling, sealing, and insulating joints and cracks
- Professional quality
- Accurately controlled application
- Moisture-curing
- Acoustical sealant
- Drywall adhesive: reduces fasteners by 60%
- Excellent adhesion to most surfaces
- Temperature, water and chemical resistant
- No CFC/HCFC
- Stone veneer adhesive
- Compatible with EPS foam boards
- Paintable and can be plastered over

Consult your system manufacturer for specific recommendations.

FOAM GUNS

All of our guns are engineered to deliver foam day after day with minimal cleaning. The all-metal needle valve construction delivers the polyurethane foam with controlled accuracy. We offer a wide variety, ranging from “do it yourself” models to professional.

ECONOMY SERIES

1. W-EG13T Taper Tip Foam Dispenser

Light-medium duty gun, featuring all-metal needle valve construction and brass tapered tip with universal can adapter and tip. This is our best gun for filling in EPS board gaps.

Part Code	Description	Contr Price	Approx Wt
W-EG13T	Taper Tip Foam Dispenser	\$35.95	2 lb

2. W-EG13

Light-medium duty gun, featuring all-metal needle valve construction and brass universal can adapter and tip.

Part Code	Description	Contr Price	Approx Wt
W-EG13	Economy Foam Dispenser	\$39.95	2 lb

INTERMEDIATE SERIES

3. W-EG14

Medium duty gun featuring a Teflon® coated needle valve and universal can adapter. The knurled brass dispensing tip is the knurled brass that holds the extension tubes in place. Also available with a 31" long extended barrel for long reach or sub floor applications.

Part Code	Description	Contr Price	Approx Wt
W-EG14	Foam Dispenser with Teflon Tip	\$56.50	2 lb
NS W-EG14L	31" Long Barrel	\$139.75	4 lb
NS W-EG14BT	Brass tips for W-EG14	\$3.75	1 lb

NS=Not shown.

PROFESSIONAL SERIES

4. W-EG15

This professional gun features a narrow tapered tip for dispensing the foam between EIFS board lines. The two-stage tapered barrel blends the foam to a superior consistency.

Part Code	Description	Contr Price	Approx Wt
W-EG15	Pageris Foam Dispenser	\$82.35	2 lb

PROPER ATTACHMENT OF FOAM GUNS

1. Attach the gun to the can of F2F®.

4. Removing the can from a gun, point can upright and away from your face.

2. The can should point up and away from your face.

5. Clean the gun adapter with the F2F® Cleaner.

3. Shake can for 1 minute and purge air from gun.

6. Attach and spray the cleaner through the gun.

Industry Exclusive:
Now with a 3 year warranty.

W-ICFVLCW	15	Composite Wood	\$128.80	18 lb
W-ICFVLW	15	Wood Ledger	\$128.80	17 lb

2. Heavy-Duty Tek Screws

Part Code	Qty/Box	Size	Description	Contr Price/Box	Approx Wt/Box
UT-MD1147	1000	1/4"-14 x 3/4"	HWH Med-Duty #3 Drill	CALL	13 lb
UTMD1147-PK	100	1/4"-14 x 3/4"	HWH Med-Duty #3 Drill	CALL	2 lb
W-ICFD3	120	1/4"-28 x 3"	HWH Hvy-Duty #5 Drill	CALL	5 lb

The ICFVL Ledger Connector System is engineered to solve the challenges of mounting wood or steel ledgers to insulated concrete form (ICF) walls. Simpson's new ICF component of the system, the ICFVL, is designed to provide both vertical and lateral, in-plane performance. The system is still quick, versatile and easy to use but now provides so much more! There are many benefits over traditional anchor bolting, including better on center spacing in most cases, faster installation and no protrusions.

Simpson's ICFVL is made from galvanized, 14 gauge steel. The embedded legs are embossed for additional stiffness and the hole allows for concrete to flow through and around the connector. The exposed flange on the face of the ICF provides a structural surface for mounting either a wood or steel ledger.

MATERIAL: ICFVL—14 gauge; ICFVL-CW and ICFVL-W—16 gauge

FINISH: Galvanized

INSTALLATION: ICFVL in ICF

- Snap a chalk line for the bottom of the ledger.
- Mark required on center spacing.
- Use ICFVL to mark kerfs locations.
- Cut kerfs as marked.
- Insert ICFVL flush to the face of the ICF.
- Place concrete.

Wood Ledger Attachment – ICFVL-W or -CW

- Slip appropriate ledger connector underneath the ledger.
- Install the eight ICF-D3 screws partially into the ledger.
- Position the ledger level to the chalk line and drive the screws through the wood and into the ICFVL.

Steel Ledger Attachment

- Position the ledger level to the chalk line and against the ICFVL.
- Attach with four 1/4-14x3/4", #3 drill point screws (not provided).
- All screws should be located at least 1/2" from the edge of the ICFVL.
- Space screws evenly.

CODES: See page 12 for Code Listing Key Chart.

WARNING:
Industry studies show that hardened fasteners can experience performance problems in wet environments. Accordingly, use this product in dry environments only.

ICFVL-W and ICFVL-W

Ledger Type	Fasteners	Allowable Load (lbs)	
		Download (100/115/125)	Lateral F ₁ (133/160)
Wood	8-ICF D3	1940	1905
Steel	4 - 1/4x3/4"	1660	1525

1. Fasteners for wood ledger (D3) are provided with the part and fasteners for steel ledger are not provided.
2. Loads apply to ICF foam thicknesses of 2 1/2" or less. Contact Simpson for allowable loads on thicker walls.
3. Alternately, #14 x 3/4" fastener may be used.
4. Tabulated loads may not be increased.

5. Concrete F_c = 2500 psi minimum.
6. When combining download and lateral loads, Designer shall evaluate as follows:
Design Download/Allowable Download + Design Lateral Load/Allowable Lateral Load.

These tables address vertical load applications only.

Ledger Type	Connector Type	ICFVL SPACING TO REPLACE ANCHOR BOLTS (in.) ^{1,2,3}																Code Ref.
		1/2" Dia. Anchors at				3/8" Dia. Anchors at				(2)-3/8" Dia. Anchors at				1/4" Dia. Anchors at				
		12" O.C.	24" O.C.	36" O.C.	48" O.C.	12" O.C.	24" O.C.	36" O.C.	48" O.C.	12" O.C.	24" O.C.	36" O.C.	48" O.C.	12" O.C.	24" O.C.	36" O.C.	48" O.C.	
WOOD LEDGERS

LVL	ICFVL w/ ICFVL-CW	48	48	48	48	43	48	48	48	21	42	48	48	39	48	48	48	
STEEL LEDGERS																		
68 mils (0.068")	ICFVL	11	22	33	44	9	18	27	36	—	—	—	—	—	—	—	—	160
54 mils (0.054")	ICFVL	15	30	45	48	12	24	36	48	—	—	—	—	—	—	—	—	

1. The Designer may specify different spacing based on the load requirements.
2. Spacings are based on perpendicular to grain capacity of bolt in wood ledger compared to tested value of ICFVL.
3. See F-ICFVL Rier for additional connection details.
4. For steel ledgers, the 68 mil ledger spacing is closer than the 54 mil ledger because the calculated load of a bolt is higher in a thicker piece of steel.
5. Steel ledger values are based on steel. F_u = 60 ksi.

ICFVL

Typical Wood Ledger Installation with ICFVL and ICFVL-W

MISINSTALLATION!

Requires 4 screws at each location. Table provides on center spacing.

3. Simpson Titen HD

The Simpson Strong-Tie® Titen HD Screw Anchor can be used as a direct replacement for code prescribed cast-in-place sill anchor bolts. The Titen HD is a patented, high-strength screw anchor for concrete. The self-undercutting, non-expansion characteristics of the Titen HD makes it the ideal anchor for structural applications for ICF construction. The proprietary cutting teeth enable the Titen HD to be installed in one eighth of the time and after the ICF wall has been poured. The anchor can be installed with a standard ANSI tolerance drill bit. Recommended for permanent dry, interior non-corrosive environments.

ICF FASTENERS

1. Buck Plates

The BUK-302 series is used in conjunction with Foam2Foam® to secure traditional wood bucks to ICF form openings. Available preassembled with wood/lite metal screws to save field application time.

Engineered Features

- 1-3/4" diameter
- Made of high-grade polypropylene plastic
- Unique design allows plate to flatten out in application
- Large ribs stiffen plate, limit deflection
- 16 keyholes allow for mechanical locking of base coat
- Available assembled or non-assembled

Not recommended for use within standard PB EIFS.

3. tieKey® NEW!

The tieKey® anchor is an easy to install, cast-in-place, adjustable masonry tie anchor that is embedded into the concrete wall which is formed by the insulating concrete form. This product is designed to provide the strength and security required when installing brick or stone veneer finishes. The tieKey® anchor is part one of a two-part system; the masonry anchor and any standard wire tie (not included). The masonry anchor is inserted through the ICF as the wall is formed, and reinforced as concrete is placed. The wire tie is installed as the masonry facing is applied. This system can accommodate construction tolerances and allow for differential movement for a variety of brick finishes and is available in a hot-dipped galvanized finish.

ICF MOISTURE CONTROL

1. Window/Door Membrane Flashing

A secondary weather barrier for use around windows, doors or any structural opening. Adheres to polystyrene when used with W-STP primer.

Part Code	Qty/Box	Size	Description	Contr Price/Pc	Approx Wt/Box
W-PWDT4	12	4" x 100' x 30 mil	Flashing Tape	\$32.50	99 lb
W-PWDT6	8	6" x 100' x 30 mil	Flashing Tape	\$50.65	96 lb
W-PWDT9	4	9" x 100' x 30 mil	Flashing Tape	\$77.95	80 lb
W-PWDT12	4	12" x 100' x 30 mil	Flashing Tape	\$100.95	98 lb

2. Plate Liner

The 1/4" economy plate liner is a peel-and-stick, closed-cell-foam liner that stops air and moisture infiltration. Use it at the floor, top of the wall and window bucks. Place on the buck system before the concrete is poured to prevent the concrete from coming in contact with the wood. This creates a joint that prevents air and moisture from leaking in at that critical construction joint.

Part Code	Qty/Box	Size	Description	Contr Price/Pc	Approx Wt/Box
W-PL35	7	3-1/2" x 25'	Plate Liner	\$23.25	15 lb
W-PL55	4	5-1/2" x 25'	Plate Liner 1/4" Foam	\$55.25	25 lb

3. Sill Sealer

The 3/8" thick premium grade, peel-and-stick, closed-cell-foam seals off voids and irregularities between the top of foundations and sill plates. Use it at the floor, top of the wall, and window bucks. Place on the buck system before the concrete is poured to prevent the concrete from coming in contact with the wood. This creates a joint that prevents air and moisture from leaking in at that critical construction joint.

Part Code	Qty/Box	Size	Description	Contr Price/Pc	Approx Wt/Box
W-PSS35	7	3-1/2" x 25' x 3/8"	Sill Sealer	\$31.95	12 lb
W-PSS55	4	5-1/2" x 25' x 3/8"	Sill Sealer	\$44.95	19 lb

4. Transition Wrap

The transition wrap is great for difficult to finish areas, such as parapets, or at the transition between grade and the first course of cladding. The protective membrane is a sticky back that adheres to polystyrene when used with the W-STP primer. The front has the appearance of a smooth, trowel-applied sand stucco finish and can be painted to match the existing siding.

Part Code	Qty/Box	Size	Description	Contr Price/Pc	Approx Wt/Box
W-PIW12	4	12" x 50'	Transition Wrap	\$239.35	64 lb

5. Water Based Primer

Recommended to be used with flashings, wraps and liners. To obtain manufacturer's recommended coverage per gallon, call 1-800-872-5625.

W-INSULS	Multipurpose Insulation Knife Sharpener	\$10.99

ICF BRACING SOLUTIONS BY TAPCO

Mono-Brace comes in one piece, making it easy to move.

Locking toggle pins make for quick, easy adjustment and installation.

MONO-BRACE™ ALL-IN-ONE BRACING SYSTEM

The Mono-Brace™ and Tall Wall are interchangeable products designed for ICF wall construction.

FEATURES AND BENEFITS

One Piece, Self-Contained Package

No lost parts or delays in installation. Saves space and is easy to move.

Quick Installation

Locking toggle pins make for quick, easy adjustment and installation.

Built to Last

Galvanized and heavy-duty powder-coated steel for long life.

Fully Adjustable

Micro and macro adjustment make installation accurate and efficient. Adjustable platform.

Integrates with Buck Scaffolding

Works on high wall with readily available cost-effective buck scaffolding.

1. Mono-Brace™

Mono-Brace™ is easy to store, transport and use. The bracing system is self-contained and all the parts are attached to the frame. No assembly is required. Replacement parts available.

Part Code	Description	Dimensions	Contr Price	Approx Wt
W-BR8	8' Telescopic Foldaway ICF Bracing System w/safety rail bracket	8' x 5" x 2.75"	CALL	58 lb

Jamb Jack™ includes a heavy-duty steel adjustment screw that allows for minute adjustments.

Professional Jamb Jack™ accessories include corner plate and panel adaptor.

Locking safety pins and adjustment tool make for quick and easy installation and adjustment for both the professional and residential Jamb Jack™ products.

JAMB JACK™ REUSABLE WINDOW AND DOOR BRACING

Available for both professional and residential use, the Jamb Jack™ Window & Door Bracing Kit is durable, easy to use and easily adjustable.

FEATURES AND BENEFITS

Quick Installation

Up to 90% less setup time required.

Longlasting

Made of reusable, heavy-duty powder-coated steel.

Fully Adjustable

Micro and macro adjustments.

Easy to Use

Fits most window, door and standard openings.

Versatile

Easily adapted to other form systems.

DOW® SEALANTS, INSULATIONS AND ADHESIVES

SIGNATURE
PRODUCT

1. Dow® Froth-Pak® Two Component Foam

Froth-Pak® is a foam machine in a carton. Chemical curing allows two-part polyurethane foam to be dispensed, expand and become tack-free in seconds. Froth-Pak® will skin over in 30–40 seconds and be completely cured in under one minute. Froth-Pak® is typically used as a foam-insulating sealant to fill cavities, wall and floor penetrations, cracks and expansion joints.

Froth-Pak® 12

Great for small jobs—12 Board Feet, 1 Cubic Foot

KIT INCLUDES: Iso (A) can, Polyol (B) can, 9-ft gun hose assembly (GHA), shoulder strap assembly, two cone white spray nozzles (187918).

DOW® WEATHERMATE™ WEATHERIZATION

SIGNATURE
PRODUCT

1. Dow® Weathermate™ Sill Pan

Weathermate™ Sill Pan is a translucent, molded polymer that is manufactured to ensure a consistent thickness. It will not rust or rot and is compatible with standard adhesives and sealants. It provides seamless protection at sill corners and assists positive drainage of water to the exterior. The two-piece design adjusts to fit most window sill widths.

Part Code	Size	Description	Contr Price	Approx Wt
W-DSP5	5" x 32"/pan	Sold by The Box (25 sets)	CALL	7 lb

2. Dow® Weathermate™ Construction Tape

Weathermate™ Construction Tape is recommended to seal the joints and seams of Styrofoam™ Weathermate™ housewraps and Styrofoam insulated sheathings. In these applications, Weathermate™ Construction Tape enhances resistance to moisture and air infiltration. The tape can also be used to repair damaged foam insulation or housewrap, reducing material costs and job-site waste.

Part Code	Rolls/Box	Description	Contr Price	Approx Wt
W-DCT178	16	1-7/8" x 165'/Roll	CALL	1 lb
W-DCT278	16	2-7/8" x 165'/Roll	CALL	1 lb

3. Dow® Weathermate™ Straight Flashing

Weathermate™ Straight Flashing combines a blue high-density polyethylene (HDPE) film facer with a butyl rubber adhesive that forms a strong mechanical and chemical bond to most building materials. A polymeric-coated paper release liner provides a more consistent peel than plain paper liners. It provides seamless protection at jambs and straight heads.

Part Code	Rolls/Box	Description	Contr Price	Approx Wt
W-DSF4	6	4" x 100'/Roll	CALL	5 lb
W-DSF6	6	6" x 100'/Roll	CALL	8 lb
W-DSF9	3	9" x 100'/Roll	CALL	12 lb

4. Dow® Weathermate™ Flexible Flashing

Weathermate™ Flexible Flashing combines a blue creped high-density polyethylene (HDPE) film facer with a butyl rubber adhesive that forms a strong mechanical and chemical bond to most building materials. A polymeric-coated kraft paper release liner provides a more consistent peel than plain paper liners. It provides seamless protection around curved openings and custom shapes.

Part Code	Rolls/Box	Description	Contr Price	Approx Wt
W-DFF6	1	6" x 75'/Roll	CALL	11 lb
W-DFF9	1	9" x 75'/Roll	CALL	17 lb

5. Dow® Weathermate™ Plus Housewrap

Dow® Weathermate™ Plus housewrap is a non-woven, non-perforated, polyolefin-based housewrap that offers exceptional tear resistance and durability. It is an effective option for builders who prefer to use non-insulating sheathing along with housewrap. When installed over sheathing, Dow® Weathermate™ Plus housewrap reduces costly air and moisture infiltration. It is translucent to allow a clear view of the studs and the sheathing surface during installation.

Part Code	Description	Contr Price	Approx Wt
W-DWM3165	3' x 165'/Roll	CALL	14 lb/Roll
W-DWM5100	5' x 100'/Roll	CALL	14 lb/Roll
W-DWM9100	9' x 100'/Roll	CALL	24 lb/Roll
W-DWM9150	9' x 150'/Roll	CALL	34 lb/Roll

All other Dow® Weathermate™ Plus housewrap sizes are available. Please call.

STEALTH ACCESS PANELS

Stealth Access Panels by Wind-lock® are a standout product made of glass fiber reinforced gypsum (GFRG) to blend seamlessly into a drywall ceiling or wall. They're an attractive, rust-free alternative to metal panels or fabricated access that must be hidden in closets.

STEALTH ACCESS PANELS BY WIND-LOCK®

EXCLUSIVE
PRODUCT

Stealth Access Panels provide an aesthetically pleasing, easy-to-install solution for a more attractive interior, even where access is frequently required. For a demonstration of how easy installation can be, visit www.wind-lock.com and view a Stealth Installation Video.

Versatile Stealth Access Panels are available in various standard, commercial and residential sizes for both new and retrofit construction across unlimited applications. Their smart design helps contractors work smarter, faster and better.

Stealth Access Panel advantages include:

- Tapered edge for tape joint
- Easily textured
- Lightweight
- Smooth rounded edge
- Blends into surrounding drywall
- No shrinking or cracking
- Perfect for retrofit applications
- Single trade installation
- Reduced labor costs

1. Ceiling Access Panels

Showcase your space, not your access panel. Stealth Access Panels are designed to be an attractive alternative to typical access panels in commercial and residential buildings.

Their GFRG-based design can't rust and blends in seamlessly with either new or retrofitted drywall ceilings.

That helps you preserve aesthetic style, because design should be noticed, but access panels should not.

Commercial Panels

Part Code	Access Opening	Rough Opening	Contr Price	Approx Wt per panel
TR-AP009	9" x 9"	15" x 15"	CALL	6 lb
TR-AP012	12" x 12"	18" x 18"	CALL	9 lb

TR-APGR2230 (with gasket)	22" x 30"	24" x 36"	CALL	16 lb
TR-APGR3030 (with gasket)	30" x 30"	36" x 36"	CALL	20 lb

Sold 2 per box. Custom sizes available.

HOW TO SELECT AN ACCESS PANEL

Stealth™ Access Panels are selected by their access opening size.

2. Hinged Access Panels

Designed for both wall and ceiling applications, hinged Stealth Access Panels by Wind-lock® are made of GFRG and can be used where a locked door is needed and interior style must be maintained.

Part Code	Access Opening	Rough Opening	Contr Price	Approx Wt per panel
TR-HAP009	9" x 9"	15" x 15"	CALL	8 lb
TR-HAP012	12" x 12"	18" x 18"	CALL	10 lb
TR-HAP016	16" x 16"	22" x 22"	CALL	12 lb
TR-HAP018	18" x 18"	24" x 24"	CALL	13 lb
TR-HAP024	24" x 24"	30" x 30"	CALL	17 lb

3. Specialty Round Panels

The innovative round Stealth Access Panel by Wind-lock® is made from GFRG and is designed to blend seamlessly into a drywall ceiling featuring circular light fixtures, speakers or smoke detectors. That allows you to provide access while maintaining the aesthetic theme of the interior design.

Part Code	Access Opening	Rough Opening	Contr Price	Approx Wt per panel
TR-RAP012	12" diameter	18" x 18"	CALL	9 lb
TR-RAP016	16" diameter	22" x 22"	CALL	10 lb
TR-RAP018	18" diameter	24" x 24"	CALL	11 lb
TR-RAP024	24" diameter	30" x 30"	CALL	16 lb

Sold 2 per box. Custom sizes available. Call for more details.

Stock to Dock Shipping Guarantee

Products highlighted in yellow are guaranteed to ship within 24 hours or freight costs are **FREE!** Larger orders may require additional lead times. Call for details.

HOW TO INSTALL ACCESS PANELS

1. Frame the opening.

2. Mount Stealth surround with drywall screws.

3. Install drywall and place access panel in opening.

4. Tape and apply drywall compound.

BLACK LAB APPAREL™ & PROMOTIONS

Proudly display your company names and brands with outerwear, headgear, shirts, sweaters, golf gear and more, all emblazoned with names and/or logos. Black Lab Apparel™ helps you market your company and establish your brand in a fun and appealing way.

See our
website for
additional
casual wear.

BRANDED WEARABLES AND ACCESSORIES

We deliver what you need to wear, when you need to wear it—helping you achieve the look you want any time of the year and for any occasion. We can also help you plan and budget annually for your event and marketing calendar.

Black Lab Apparel offers customizable:

- Hats, Tees, Sweats
- Oxfords, Gabardines, Twills, Polos
- Shirts, Jackets, Vests
- Beanies, Bags, Travel Kits

Your logoed apparel makes a statement. Consider it for:

- Employee branding programs
- Golf tournaments
- Vendor days
- Trade shows
- Customer appreciation days
- Employee appreciation days

Black Lab Apparel Services:

- Embroidery
- Screen printing
- Online stores
- Logo digitizing
- Fulfillment
- Sewn samples
- Bagging of garments
- Promotional items

Wind-lock®: Thinking Globally

Wind-lock® helps conserve valuable resources and minimizes environmental impact. Here are the resources we saved:

26,000 POUNDS OF WOOD:

Saving a total of 93 trees that supply enough oxygen for 46 people annually.

26,416 POUNDS OF CO₂ EMISSIONS:

Reducing the carbon sequestered by 307 tree seedlings in 10 years of growth.

85,247 GALLONS OF WATER:

Conserving enough water for 4,956 eight-minute showers.

9,853 POUNDS OF SOLID WASTE:

Equal to the amount thrown away by 2,142 people in one day.

90 MILLION BTUS OF ENERGY:

Saving enough energy to power the average American household for 1 year.

Environmental impact estimates were made using the Environmental Defense Fund Paper Calculator. Savings compared to 2009 Wind-lock® Catalog.

This paper is printed on FSC paper.

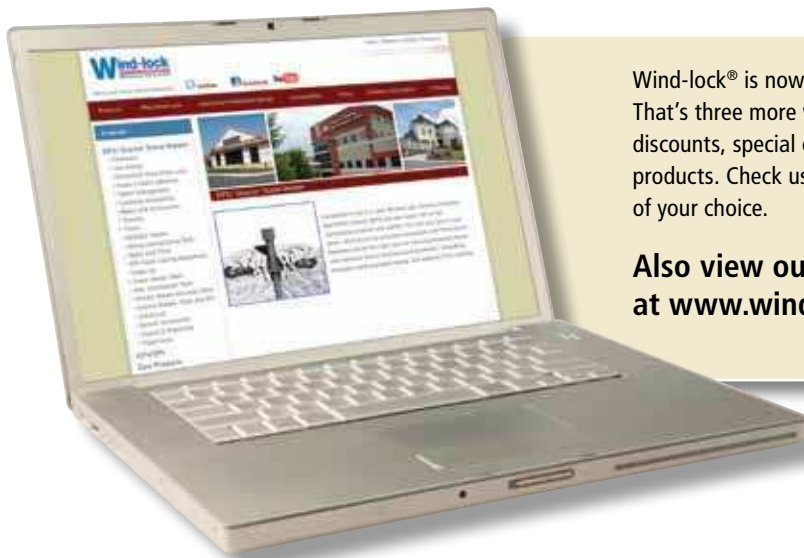

MIXED SOURCES

Product group from well-managed forests, controlled sources and recycled wood or fiber.
www.fsc.org Cert no. SCS-COC-001804
©2010 Forest Stewardship Council

We ship from 6 locations. Ask about our *stock to dock* guarantee.

Wind-lock® is now on Twitter, Facebook and YouTube. That's three more ways for you to get a jump on great discounts, special offers and a wide range of labor-saving products. Check us out online and access the network of your choice.
