WHEN YOU NEED IT.

Go ahead ... *take your pick.*

Choose the tools and materials you need. At Wind-lock[®], we've got everything in stock and ready when you are. Fast and easy – so you can keep your projects moving along.

Foam insulation ... tapes ... trowels ... fasteners and hot knives, for starters. An expanded selection of drywall tools and materials, too. More than four thousand products in all.

Whatever your job takes, we've got it.

Top-quality innovative products for all your specialty construction and drywall needs. Plus the knowledgeable customer service pros who can help you with suggestions and solutions when you need those, too.

Even better, we've got a nationwide network of warehouses so we can get your order to you the very next day. So everything is as quick and simple as buying your favorite product from a vending machine!

What do you need to get your next job done right?

It's all right here at Wind-lock[®].

So go ahead ... take your pick.

We have what you need.

When you need it.

Wind-lock[®] is excited to bring you the latest Smartphone technology with QR codes. For starters, simply download a QR application to scan the QR code below. It will take you directly to a video of Wind-lock's[®] President, Ron Chelli, introducing the 2012 catalog. In the near future, you'll be able to scan our QR codes to find information about new products and the latest industry trends, as well as time and money-saving tips.

Scan to view video
from the Wind-lock[®]
President.

WHAT YOU NEED. WHEN YOU NEED IT.

- Just-in-time ordering to help reduce your inventory and maximize cash flow
- Multiple shipping locations to help you get your order quickly
- Servicing multiple industries and markets allowing you to one-stop shop, use one PO and maximize freight programs
- Pricing based on your long-term purchasing history and our relationship with you, not on individual transactions
- Service provided by personable, knowledgeable professionals, on the phone and in the field, who truly care about the success of your business
- Meeting or exceeding your expectations, each and every time you deal with us
- Guaranteeing our service to you – if we make a mistake, we'll own it and make it right

What you need.
When you need it
video.

Everyone at Wind-lock® is dedicated to helping you and your business succeed. We focus on building long-lasting relationships with our customers, not on transactions. Your complete satisfaction is our ultimate goal, and we guarantee that doing business with us will always be a respectful, worry-free experience.

1055 Leisz's Bridge Road | Leesport, PA 19533

THANK YOU

to our trusted partners.

Thanks to our trusted partners, Wind-lock® is able to offer you the finest quality tools and materials available for the industry. We seek out manufacturers committed to superior products and outstanding customer satisfaction. Providing innovative tools and materials designed to help you meet the challenges you face on the job, these valuable partners allow us to bring you what you need, when you need it.

Additional thank you to: Pro-Patch® and Poly-Tak®

Our Stock-to-Dock Shipping Guarantee ensures that we will ship regularly stocked items immediately. We strive to ship orders placed by 4:00 p.m. on the same day so you have **What You Need, When You Need It.**

This symbol indicates that an item is classified as either Other Registered Materials (ORM-D) or Hazardous Materials (HAZMAT) and may incur additional shipping charges. **These products are also highlighted in orange throughout the catalog.** Please contact our Customer Sales Support Team for more information.

Customer Service The Wind-lock® Customer Sales Support Team is available Monday through Thursday, 8:00 a.m. to 6:00 p.m. and Friday, 8:00 a.m. to 5:00 p.m. eastern standard time. For more information, call 1-800-872-5625, fax 1-800-854-6614 or visit www.wind-lock.com

Pricing All pricing is suggested retail and applies only to the continental United States. We make every effort to assure that our products and pricing are published as accurately as possible. In the event an error is made, we reserve the right to correct it.

Warranty All Wind-lock® products are manufactured in accordance with a strict quality assurance program. They are warranted to be free from manufacturing defects and will perform as represented.

Return Policy No merchandise may be returned without a return authorization number from the Wind-lock® Credit and Return Department. If the return is authorized, transportation charges must be prepaid. If goods are found defective, we will replace them free of charge.

Tools found abused will be repaired and returned only at buyer's written request. We will not be responsible for any merchandise returned that has been out of the factory twelve months or longer. Merchandise that has been discontinued cannot be returned.

Any or all portions of this catalog may not be reproduced in any way without written consent from Wind-lock®. Technical data, photos and illustrations represent the product offered at time of printing. Due to continuous product improvement, items may change. Refer to www.wind-lock.com for the latest information.

EIFS/STUCCO SOLUTIONS

Creating energy-efficient solutions for your clients is easy with Wind-lock®. We have everything you need ready and waiting. Exterior Insulation and Finish Systems (EIFS) tools and accessories that combine value and quality to help you meet or exceed the demands of current regulatory requirements. From the technologically advanced Wind-Devil® 2 EIFS mechanical fastening system, to the widest selection of quality fastening tools for insulation – plus a great choice of products for successful applications of stucco and finish coatings.

WIND-DEVIL® 2

The industry-leading two-inch diameter Wind-Devil® 2 is by far the most popular and technologically advanced EIFS mechanical fastening system on the market. The patented "bull's-eye" closure arms allow easy, efficient backing out of any screw, saving time and money.

The Wind-Devil® 2 is designed and engineered for use with polymer-based (PB) Exterior Insulation and Finish Systems (EIFS). It allows the attachment of EPS insulation to a variety of substrates, including wood, lite metal, steel and masonry. Our witnessed negative wind-load testing (ASTM-E330) continues to set the industry standard for attaching EIFS.

The Wind-Devil® 2 fastening system is engineered to be applied in any weather condition.

WIND-DEVIL® 2 TECHNICAL DATA

Wind-Level Test Data

WIND-DEVIL® 2 All measurements shown are ultimate pounds per foot.

EPS THICKNESS	PATTERN A	PATTERN B	PATTERN C
1"	107	88	85
1-1/2"	130	114	103
2"	144	129	124

Witness test reports available.

General Corrosion Data

SALT SPRAY (ASTM-B117)

FINISH	HOURS TO INITIAL (%) SIGNS OF RED RUST	HOURS AND RED RUST (%) AT TEST CONCLUSION
Phosphate and oil	24 (5% or less)	240 (90 – 100%)
.0003" electro zinc	48 (5% or less)	240 (75 – 100%)
.001" hot dip galvanized	98 (5% or less)	320 (75 – 100%)
Wind-lock® CCS Coating	192 (5% or less)	720 (50 – 100%)

Fastener Pullouts

WLMT SERIES	Dimensional lumber/wood sheathings.				
Penetration dimensional lumber	1/2"	3/4"	1"	1-1/4"	1-1/2"
Pullout strength	183	304	441	652	731

WLMT SERIES	Lite gauge metal siding.			
Nominal gauge	26	25	22	20
Lite Metal pullout strength	*	178	244	277

*Consult Wind-lock® for pullout (through penetration 1/4" min.).

ST SERIES	Steel/steel studs.						
Nominal gauge	24	22	20	18	16	14	12
Steel pullout strength *	211	296	471	679	847	1225	

*Consult Wind-lock® for pullout (through penetration 1/4" min.).

MT SERIES	Masonry.			
Penetration	1"	1-1/4"	1-1/2"	1-3/4"
Concrete pullout strength	380	580	830	1090
Hollow block pullout strength	229	416†	452†	521†

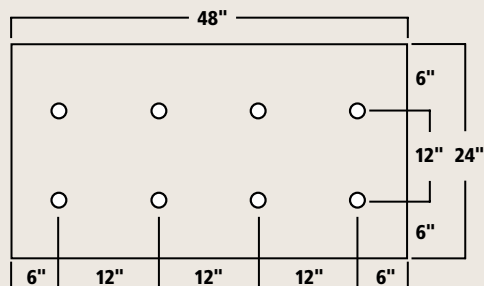

†Denotes solid material.

MET SERIES	Masonry expandable.	
Concrete pullout strength		378
Hollow block pullout strength		333

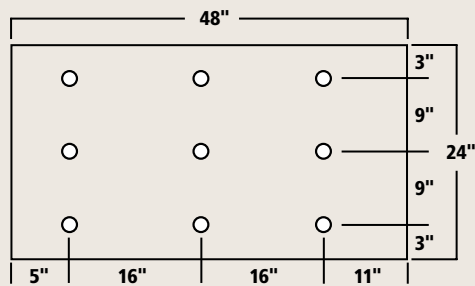

Pullout strengths shown are ultimate values. An appropriate factor of safety must be applied by the user to obtain allowable limits for design.

Masonry must be pre-drilled 1/2" deeper than fastener penetration.
 Hardness of masonry varies and may require a non-standard drill bit.
 Please consult Wind-lock® for assistance in proper drill bit size.
 Consult system manufacturer for specific requirements.

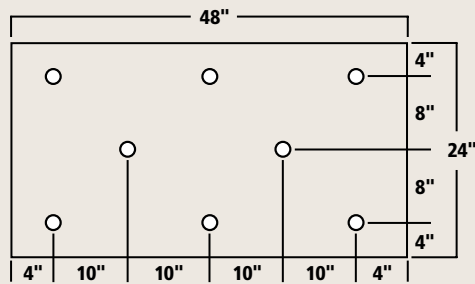

Typical Wind-Devil® 2 Fastening Patterns

Pattern A
Wood sheathing, masonry and some metal sidings.

Pattern B
16" O.C. stud fastening pattern.
 Note: For pattern "B" stud fastening over non-screwable sheathing, fastener spacing does not exceed 16". O.C. variable not to exceed 11".

Pattern C
Wood sheathing, masonry and some metal sidings.

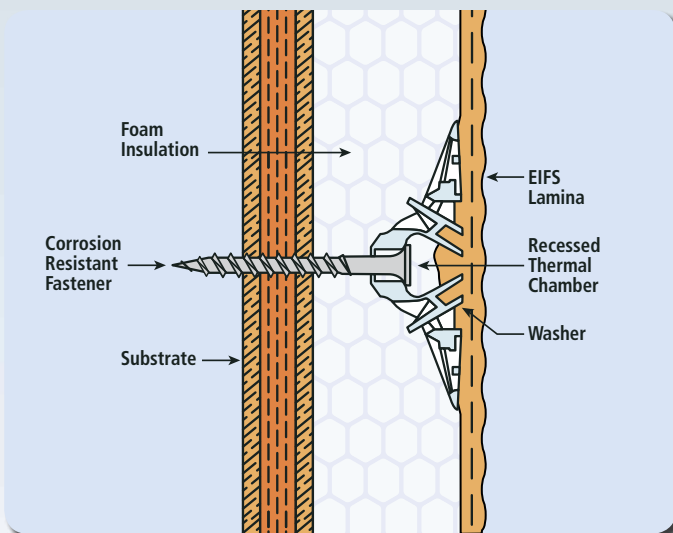

WIND-DEVIL® 2 SELECTION GUIDE

Insulation Thickness	Wood/Lite Metal Series**	Steel Series*	Masonry Series
1"	WLMT-1**	ST-1*	MT-1
1-1/2"	WLMT-2**	ST-2*	MT-2
2"	WLMT-3**	ST-3*	MT-3
2-1/2"	WLMT-4**	ST-4*	MT-4
3"	WLMT-5**	ST-5*	MT-5
3-1/2"	WLMT-7**	ST-6*	
4"	WLMT-7**	ST-7*	
4-1/2"	WLMT-7**	ST-7*	
5"	WLMT-8**	ST-8*	
5-1/2"	WLMT-8**	ST-8*	

For virtually any size fastener, contact Wind-lock® or refer to the Long-lock section, page 12.

*Sizes are for direct application into steel and do not take into account the sheathing. For 1/2" and 5/8" sheathing, move fastener selection to next higher size.

**See page 8 for additional wood (GWT) and lite metal (GWLMT) fasteners.

Why the Wind-Devil® 2 is best!

- Comprehensive witness testing
- Over 20 years of proven performance
- EIFS industry approved
- Significant negative wind-load resistance
- Recessed thermal chamber helps prevent thermal bridging
- Patented closure arms allow for easy “backing” out
- Installation of the Wind-Devil® 2 compresses the foam under the washer, forming a “gasket” around the fastener. This gasketing action diverts moisture from the fastener.

OTHER FASTENERS

1. ULP-302 SERIES SELECTION

The ULP-302 and ULP-402 are engineered to attach PermaLath® 17 and 20 gauge stucco netting, as well as 2.5 and 3.4 metal lath (hard coat stucco systems). NOT for use with PB EIFS. For standard PB applications with the thermal recessed chamber, refer to Wind-Devil® 2 and Long-lock fasteners.

Engineered Features

- 1-3/4" diameter
 - Made of high-grade polypropylene plastic
 - Unique design allows plate to flatten out in application
 - Large ribs stiffen plate, limit deflection
 - 16 keyholes allow for mechanical locking of base coat
 - Can be screw-fastened, nailed or shot
 - Engineered "flash" allows for pre-assembly of screw fasteners
- Consult system manufacturer for specific requirements.*

PART CODE	QTY/BOX	DESCRIPTION	APPROX WT/BOX
ULP-302	1000	Plates	6 lb

3. ULP-402 SERIES SELECTION

Engineered Features

- 1-3/4" diameter
- Made of high-grade polypropylene plastic
- Pre-spotting central stem/tab allows for quick and easy pre-spotting into insulation board
- Large ribs stiffen plate, limit deflection
- 16 keyholes allow for mechanical locking of base coat
- The ULP-402 is unassembled and can be utilized with Wind-lock® highly coated exterior fasteners

Consult system manufacturer for specific requirements.

PART CODE	QTY/BOX	APPROX WT/BOX
ULP-402	1000	6 lb

4. LONG-LOCK FASTENERS

Use these for all of your thick foam fastening needs, such as cornice details, arches, columns, custom parapet shapes and quoins. All fasteners come fully assembled.

Engineered Features

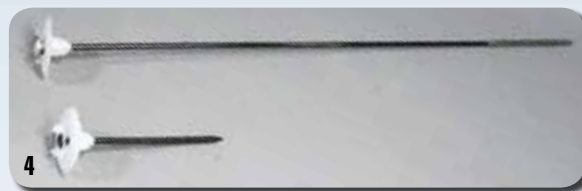

- 1-3/4" diameter
- Finger closure and recessed fastener chamber
- Utilized for thicker insulation

Consult system manufacturer for specific requirements.

WLM—Wood/Lite Metal/Masonry Screws

Hardness of masonry varies and may require a non-standard drill bit. Please consult Wind-lock® for assistance in proper drill bit size. Includes one drill bit per 200 pieces.

PART CODE	QTY/BOX	INSULATION THICKNESS	SCREW SIZE	APPROX WT/BOX
WLM-7	100	4"	#14 x 5"	5 lb
WLM-8	100	5"	#14 x 6"	5 lb

WLM-15	100	12"–13"	#14 x 14"	12 lb

For even longer fasteners, please contact Wind-lock®.

5. LATH-LOCK

Designed to be used with polymer-modified (PM) Hard Coat EIFS, insulated stucco systems and stucco systems utilizing expanded metal lath or stucco wire over rigid insulations.

Engineered Features

- 1-1/4" diameter G-90 galvanized steel
- Flat profile
- Positive attachment
- Tabs reduce spin in insulation board
- Reversed arm creates non-stacking plate
- Recessed center chamber allows for flush seating of fastener
- Turned tabs allow for pre-spotting
- Smooth edges
- Can be screw-fastened, nailed or shot

Consult system manufacturer for specific requirements.

PART CODE	QTY/BOX	APPROX WT/BOX
LATH-LOCK	1000	9 lb

6. LATH-PLATE (LEGLESS)

Legless Lath-Plate is perfect for stone veneer and thin-coat stucco utilizing PermaLath®.

Engineered Features

- 1-1/4" diameter G-90 galvanized steel
- Flat profile
- Positive attachment
- Recessed center chamber allows for flush seating of fastener
- Smooth edges
- Can be screw-fastened, nailed or shot

Consult system manufacturer for specific requirements.

PART CODE	QTY/BOX	APPROX WT/BOX
LATH-PLATE (Legless)	1000	9 lb

7. CONGRIP MASONRY FASTENERS

Made of polypropylene with keyholes for locking in the base coat. Simply drill a pilot hole and hammer into the concrete. Requires 5/16" drill bit.

PART CODE	QTY/BOX	INSULATION THICKNESS	DESCRIPTION	APPROX WT/BOX

AESTHETIC GROOVE KITS

To add aesthetic grooves to your EIFS project, you will need a 2-QC Hot Knife with the Q-SLED6 groove sled adapter and an aesthetic groove kit. The aesthetic groove kit includes the groove tool handle, three blades and the sleds necessary to complete grooves to the finished dimensions. The dimensions below represent the finished grooves when using a PB EIFS system.

Other kits, additional sizes and custom sizes are available. Call for details.

5. INSUL-KNIFE™

Insul-Knife™ is one of those time-saving tools you will wonder how you ever lived without. It is perfect for easily cutting all type of insulations, including EPS foam, fiberglass, sponge foam and cotton fiber. It is an excellent tool for trimming unwanted excess foam insulation after it expands and cures.

FOAM2FOAM® GUN FOAMS

A multipurpose, professional, low-expansion construction adhesive and gap and crack filler. Great for ICF, SIP, EIFS and stone veneer applications. One component polyurethane foam. Cures by absorbing water vapor from the air.

- Used for filling, slivering, sealing and insulating joints and cracks
- Professional quality
- Accurately controlled application
- Moisture-curing
- Acoustical sealant
- Drywall adhesive: reduces fasteners by 60%
- Excellent adhesion to most surfaces
- Temperature, water and chemical resistant
- No CFC/HCFC
- Stone veneer adhesive
- Compatible with EPS foam boards
- Paintable and can be plastered over

Consult your system manufacturer for specific recommendations.

Professional Series

8. W-EG15

This professional gun features a narrow tapered tip for dispensing the foam between EIFS board lines. The two-stage tapered barrel blends the foam to a superior consistency.

PART CODE	QTY/BOX	CONTR PRICE/PC	APPROX WT/BOX
W-EG15	Pageris Foam Dispenser	\$82.35	2 lb

PROPER ATTACHMENT & CLEANING OF FOAM GUNS

1 Attach the gun to the can of F2F®.

2 The can should point up and away from your face.

3 Shake can for 1 minute and purge air from gun.

4 After emptying the can, remove can from gun, pointing can upright and away from your face.

5 Clean the gun adapter with the F2F® Cleaner.

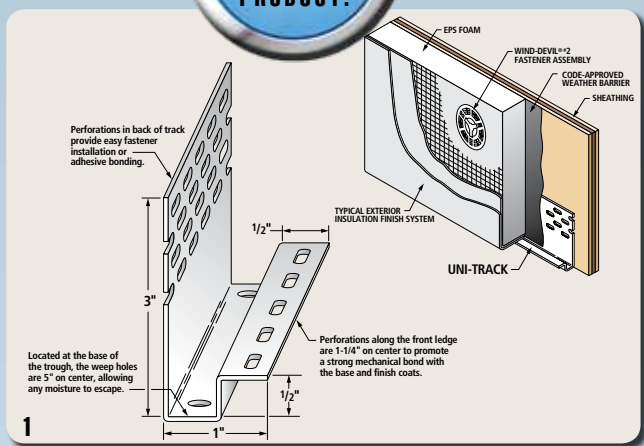

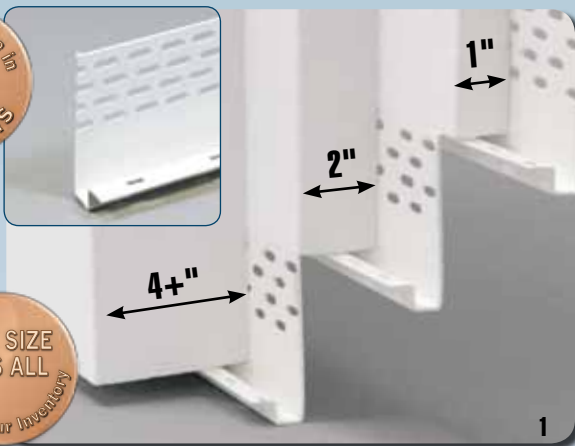

6 Attach and spray the cleaner through the gun.

HOME SLICKER® HAS A UNIQUE DESIGN TO ENSURE DRAINAGE AND DRYING.

**BENJAMIN
OBDYKE**

roof & wall products

7. BENJAMIN OBDYKE HOME SLICKER®

Home Slicker® Stone & Stucco is the only vertically channeled rainscreen that has been specifically designed for use with manufactured stone, natural stone, stucco and masonry applications. Each roll contains the patented Home Slicker® three-dimensional matrix bonded to a fabric that prevents mortar from entering the wall cavity during cladding installation. This product installs with the fabric facing outward.

Home Slicker® Plus Typar® is a cost-effective, labor- and material-saving, moisture-eliminating rainscreen combined with a water-resistive barrier. Each roll contains the patented Home Slicker® three-dimensional matrix bonded to Typar®, the premium residential and commercial grade housewrap.

The unique, vertically channeled, three-dimensional matrix of the original **Home Slicker®** provides a continuous space for drainage and drying, a thermal break and pressure equalization—eliminating the threat of trapped moisture. Home Slicker® 10 is designed to meet the 10mm code requirements in Canada.

6. DOW® WEATHERMATE™ HOUSEWRAP—PLUS

Weathermate™ Housewrap—Plus is a non-woven, non-perforated, polyolefin-based housewrap that offers exceptional tear resistance and durability. It is an effective option for builders who prefer to use non-insulating sheathing along with housewrap. When installed over sheathing, Weathermate™ Housewrap—Plus reduces costly air and moisture infiltration. It is translucent to allow a clear view of the studs and the sheathing surface during installation.

8. BENJAMIN OBDYKE BLOCKADE™

Designed specifically for use in brick wall cavities, the entangled matrix design of the Blockade™ Mortar Deflection System blocks mortar from clogging the weep holes and allows excess moisture to flow freely out of the wall cavity. The result is a brick wall that is built to stand the test of time and remains free from the deteriorating effects of mold and mildew.

MUCH EASIER TO USE
THAN METAL LATH.

STUCCO ACCESSORIES

PermaLath® is an open-weave, corrosion-free, three-dimensional, self-furring glass-fiber reinforcing lath.

PERMALATH® GLASS-FIBER LATH

PermaLath® is a nominal 1/8"-thick glass-fiber reinforcing lath designed for use with cementitious exterior wall coatings manufactured in accordance with ICC-ES AC-11 at a maximum thickness of 3/8" to 1/2". PermaLath® provides keying and continuous reinforcement for stucco used on vertical wall applications with solid backing.

PART CODE	QTY	SIZE	DESCRIPTION	CONTR PRICE	APPROX WT
I-PL	1 Roll	39" x 150'	1/8" Fiberglass Lath 487.5 sq ft	CALL	16 lb

Note: 20 rolls per skid 39" x 150', 1/8" Fiberglass Lath 9,750 sq ft, 374 lb per skid.

PERMALATH® 1000 GLASS-FIBER LATH

PermaLath® 1000 is a nominal 1/4"-thick glass-fiber reinforcing lath designed for use with cementitious exterior wall coatings (traditional stucco) at a maximum thickness of 1/2" to 7/8". PermaLath® 1000 can also be used as a mortar base for lightweight veneer facing, such as stone veneer.

PART CODE	QTY	SIZE	DESCRIPTION	CONTR PRICE	APPROX WT
I-PL1000	1 Roll	39" x 150'	1/4" Fiberglass Lath 487.5 sq ft	CALL	31 lb

Note: 8 rolls per skid 39" x 150', 1/4" Fiberglass Lath 3,900 sq ft, 303 lb per skid.

FOAM2FOAM® GUN FOAMS

A multipurpose, professional, low-expansion construction adhesive and gap and crack filler. Great for ICF, SIP, EIFS and stone veneer applications. One-component polyurethane foam. Cures by absorbing water vapor from the air.

- Used for filling, slivering, sealing and insulating joints and cracks
- Professional quality
- Accurately controlled application
- Moisture-curing
- Acoustical sealant
- Drywall adhesive: reduces fasteners by 60%
- Excellent adhesion to most surfaces
- Temperature, water and chemical resistant
- No CFC/HCFC
- Stone veneer adhesive
- Compatible with EPS foam boards
- Paintable and can be plastered over

Consult your system manufacturer for specific recommendations.

ICF FASTENERS

1. BUCK PLATES

The BUK-302 series is used in conjunction with Foam2Foam® to secure traditional wood bucks to ICF form openings. Available preassembled with wood/lite metal screws to save field application time.

Engineered Features

- 1-3/4" diameter
- Made of high-grade polypropylene plastic
- Unique design allows plate to flatten out in application
- Large ribs stiffen plate, limit deflection
- 16 keyholes allow for mechanical locking of base coat
- Available assembled or non-assembled

Not recommended for use within standard PB EIFS.

3. TIEKEY®

The tieKey® anchor is an easy-to-install, cast-in-place, adjustable masonry tie anchor that is embedded into the concrete wall which is formed by the insulating concrete form. This product is designed to provide the strength and security required when installing brick or stone veneer finishes. The tieKey® anchor is part one of a two-part system: the masonry anchor and any standard wire tie (not included). The stainless steel masonry anchor is inserted through the ICF as the wall is formed, and reinforced as concrete is placed. The wire tie is installed as the masonry facing is applied. This system can accommodate construction tolerances and allow for differential movement for a variety of brick finishes, and is also available in a stainless steel.

W-PWDT12	4	12" x 100' x 30 mil	Flashing Tape	\$113.75	98 lb

2. PLATE LINER

The 1/4" economy plate liner is a peel-and-stick, closed-cell foam liner that stops air and moisture infiltration. Use it at the floor, top of the wall, and window bucks. Place on the buck system before the concrete is poured to prevent the concrete from coming in contact with the wood. This creates a joint that prevents air and moisture from leaking in at that critical construction joint.

PART CODE	QTY/BOX	SIZE	DESCRIPTION	CONTR PRICE/PC	APPROX WT/BOX
W-PL35	7	3-1/2' x 25'	Plate Liner	\$29.15	15 lb

AFTER
The Pour

11. PVC ELECTRICAL BOXES

Commercial-grade boxes let you pull wires through your future ICF walls. These code-approved electrical boxes are designed for receiving PVC conduit placed into ICF walls prior to the concrete pour. The boxes are strong, secure and can hold up to the rigors of concrete placement.

PART CODE	DESCRIPTION	CONTR PRICE	APPROX WT
NS I-ICESGL	Single Gang Electrical Box	\$3.00	1 lb
I-ICEDBL	Double Gang Electrical Box	\$4.00	1 lb
NS I-ICETPL	Triple Gang Electrical Box	\$5.00	1 lb

For foam systems that are 2" – 2-1/4" width, there is a spacer clip to fill the gap, available at no additional cost.

NS=Not shown.

12. ANCHOR TUNNEL

The 6"-diameter Anchor Tunnel securely holds your 1/2" bolt in place, allowing the concrete to flow to the exterior face of block, producing a solid attachment point between the rim joist and the concrete wall.

PART CODE	DESCRIPTION	CONTR PRICE	APPROX WT
I-AT	6" Diameter Polyethylene Anchor Tunnel	\$2.50	1 lb
I-AT50	6" Diameter Polyethylene Anchor Tunnel 50 pack	\$125.00	18 lb

13. INEXO ICF BOX

Position electrical boxes anywhere in the ICF wall using the patented "teeth" design to bite into and firmly secure in place. The four teeth are easily pushed in and lock in place. Boxes positioned adjacent to a plastic tie can be secured using screws through the wide side mount flanges — simply remove the teeth on the fastened flange side and engage the teeth opposite.

PROPER ATTACHMENT OF FOAM GUNS

1 Attach the gun to the can of Dow® Great Stuff™ Pro.

2 Always point the can away from your face.

3 Shake can for 1 minute and immediately purge the air from gun.

4 After removing the can from gun, clean the gun adapter with the Dow® Cleaner.

5 Attach can to gun. Always point the can away from your face.

6 Spray the cleaner through the gun.

See pages 180 – 182 for our Masks and Respirators.

BE SURE TO PROPERLY CLEAN YOUR GUN TO ENSURE LONG GUN LIFE.

WEATHERIZATION

DOW® SEALANTS, INSULATIONS AND ADHESIVES

1. DOW® FROTH-PAK™ TWO-COMPONENT SEALANT & INSULATION

FROTH-PAK™ Foam Insulation is a two-component, quick-cure polyurethane foam that fills cavities, cracks and expansion joints for insulation and air sealing. The Class-A rating (flame spread of 25 or less) of FROTH-PAK™ Foam Insulation allows its use in a wide range of industrial, commercial, institutional and residential applications in the United States. Available in portable, self-contained kits or larger, refillable cylinders, FROTH-PAK™ Foam Insulation can be left exposed in non-fire-resistant-rated roof/wall junctures per National Fire Protection Association testing.

FROTH-PAK™ 12

DOW® WEATHERMATE™ WEATHERIZATION

1. DOW® WEATHERMATE™ SILL PAN

Weathermate™ Sill Pan is a translucent molded polymer that is manufactured to ensure a consistent thickness. It will not rust or rot and is compatible with standard adhesives and sealants. It provides seamless protection at sill corners and assists positive drainage of water to the exterior. The two-piece design adjusts to fit most windowsill widths.

PART CODE	SIZE	DESCRIPTION	CONTR PRICE	APPROX WT
W-DSP5	5" x 32"/pan	Sold by The Box (25 sets)	CALL	7 lb

2. DOW® WEATHERMATE™ CONSTRUCTION TAPE

Weathermate™ Construction Tape is recommended to seal the joints and seams of Styrofoam Weathermate™ housewraps and Styrofoam insulated sheathings. In these applications, Weathermate™ Construction Tape enhances resistance to moisture and air infiltration. The tape can also be used to repair damaged foam insulation or housewrap, reducing material costs and job-site waste.

PART CODE	ROLLS/BOX	DESCRIPTION	CONTR PRICE	APPROX WT
W-DCT178	16	1-7/8" x 165'/Roll	CALL	1 lb
W-DCT278	16	2-7/8" x 165'/Roll	CALL	1 lb

3. DOW® WEATHERMATE™ STRAIGHT FLASHING

Weathermate™ Straight Flashing combines a blue high-density polyethylene (HDPE) film facer with a butyl rubber adhesive that forms a strong mechanical and chemical bond to most building materials. A polymeric-coated paper release liner provides a more consistent peel than plain paper liners. It provides seamless protection at jambs and straight heads.

5. DOW® WEATHERMATE™-PLUS HOUSEWRAP

Dow® Weathermate™-Plus housewrap is a non-woven, non-perforated polyolefin-based housewrap that offers exceptional tear resistance and durability. It is an effective option for builders who prefer to use non-insulating sheathing along with housewrap. When installed over sheathing, Dow® Weathermate™-Plus housewrap reduces costly air and moisture infiltration. It is translucent to allow a clear view of the studs and the sheathing surface during installation.

STEALTH ACCESS PANELS BY WIND-LOCK®

Looking for versatility and style? Choose Wind-lock®. Our Stealth Access Panels provide an aesthetically pleasing solution for a more attractive interior – even where access is frequently required. Available in various standard, commercial and residential sizes for both new and retrofit construction across unlimited applications.

STEALTH ACCESS PANELS BY WIND-LOCK®

Stealth Access Panel advantages include:

- Tapered edge for tape joint
- Easily textured
- Lightweight
- Smooth, rounded edge
- Blends into surrounding drywall
- No shrinking or cracking
- Perfect for retrofit applications
- Single trade installation
- Reduced labor costs

1. CEILING ACCESS PANELS

Showcase your space, not your access panel. Stealth Access Panels are designed to be an attractive alternative to typical access panels in commercial and residential buildings. Their glass-fiber-reinforced-gypsum (GFRG) based design can't rust and blends seamlessly with new or retrofitted drywall ceilings. The design of the panel ensures that your aesthetic style is noticed, and not your access panels.

9. FINISHING TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MTMXS64	Finishing Trowel, 14" x 4", High Carbon Steel, Curved Wooden Handle
W-MTMXS64D	Finishing Trowel, 14" x 4", High Carbon Steel, DuraSoft Handle
W-MXS145	Finishing Trowel, 14" x 5", High Carbon Steel, Curved Wooden Handle
T-P14	Finishing Trowel, 14" x 5", Golden Stainless Steel, Camel Back Handle
W-MTMXS145GD	Finishing Trowel, 14" x 5", Golden Stainless Steel, DuraSoft Handle
W-MTPB13GSD	Permashape Trowel, 13" x 5", Golden Stainless Steel, DuraSoft Handle
W-MTPB165GSD	Permashape Trowel, 16" x 5", Golden Stainless Steel, DuraSoft Handle
W-MTMXS13GSD	Finishing Trowel, 13" x 5", Golden Stainless Steel, DuraSoft Handle

10. DURAFLEX GOLDEN STAINLESS STEEL TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MT4663DFDL	DuraFlex Golden Stainless Steel Trowel, 12" x 5", DuraSoft Handle
W-MT4681DFDL	DuraFlex Golden Stainless Steel Trowel, 13" x 5", DuraSoft Handle
W-MT4683DFDL	DuraFlex Golden Stainless Steel Trowel, 14" x 5", DuraSoft Handle

11. DURASOFT® DRYWALL TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MT12CCSD	Drywall Trowel, 16"x4 1/2", SS, DuraSoft Handle

12. DURASOFT® DRYWALL TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MT12ASD	14" X 4-1/2" Drywall Trowel, DuraSoft Handle

13. NOTCHED TROWELS— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MT701	Notched Trowel - Straight Wood Handle, 3/16" "V" Blade
W-MT701S	Notched Trowel - Curved Handle, 3/16" "V" Blade

14. NOTCHED TROWELS— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MT5776S	11" x 4-1/2" Notch Trowel, 1/2" x 1/2" x 2", "U" Notch w/ Curved Wooden Handle
W-MT780S	11" x 4-1/2" Notch Trowel, 1/4" x 4/16" "V", Notch w/ Curved Handle
W-MTNT980	11" x 4-1/2" BS Notched Trowel, 3/16" x 1/4" x 5/16" Flat "V", Notch w/ Curved Wooden Handle

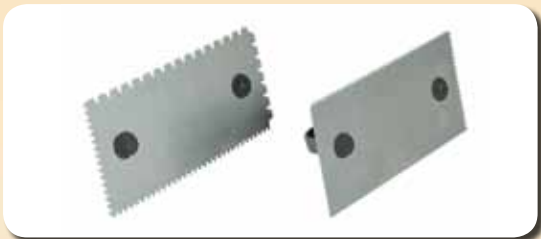

15. POINTING TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MT95	Pointing Trowel, 5-1/2" x 2-3/4"

SQUEEGEE TROWELS ARE PERFECT FOR KNOCKDOWN TEXTURING AND RECOATING DRYWALL.

Finishing Trowels cont'd

16. PLASTIC-HANDLED NOTCHED TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MT238	Notched Trowel, 9" x 4", "U" Notch, Black Plastic Handle
W-MT206	Notched Trowel, 9" x 4", "V" Notch, Black Plastic Handle

17. STAINLESS STEEL FINISHING TROWEL— CURRY TOOL

PART CODE	DESCRIPTION
W-CDW52C	Finishing Trowel, Drywall Joints, 4-1/2" x 12", SS, Wood
W-CDW53C	Finishing Trowel, Drywall Joints, 4-1/2" x 14", SS, Wood
W-CDW54C	Finishing Trowel, Drywall Joints, 4-1/2" x 16", SS, Wood

18. MAGIC TROWEL— TEXMASTER

PART CODE	DESCRIPTION
W-TT8826	12" Magic Trowel, Texmaster
W-TT8827	18" Magic Trowel, Texmaster
W-TT8828	22" Magic Trowel, Texmaster

19. ADJUSTABLE SQUEEGEE TROWEL REPLACEMENT BLADE— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MTAKD18RB	Adjustable Squeegee Trowel Replacement Blade, 18"

20. ADJUSTABLE SQUEEGEE TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MTAKD18	18" Adjustable Squeegee Trowel
W-MTAKD22	22" Adjustable Squeegee Trowel

21. WOOD FINISHING TROWEL— CURRY TOOL

PART CODE	DESCRIPTION
W-CD412	Finishing Trowel, 4" x 12", SS, Wood
W-CD45105	Finishing Trowel, 4-1/2" x 10-1/2", SS, Wood

22. CURVED BLADE TROWEL— CURRY TOOL

PART CODE	DESCRIPTION
NS W-CDW516C	Trowel - SS, 5" x 16", Wood, Curved Blade
NS W-CDW5414	Trowel - SS, 5" x 14", Wood, Curved Blade
NS W-CDW55C	Trowel - SS, 4-1/2" x 18", Wood, Curved Blade

NS=Not shown.

FINISHING TROWELS

23. DISPOSABLE TROWEL— CLARK TILE

PART CODE	DESCRIPTION
W-CTPT187	"V", Notch Trowel 3/16" Orange, Disposable
W-CTPT250	"V", Notch Trowel 1/4", Disposable

24. EXTENSION ROLLER— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MTER007	Extension Roller

25. LEXAN TROWEL— DIAMOND WALL

PART CODE	DESCRIPTION
W-DIAB103R	Lexan Trowel, 10" x 3", Rectangle
W-DIAB113120	Lexan Trowel, 11" x 3-1/2", Oval
W-DIAB1240	Lexan Trowel, 12" x 4", Oval
W-DIAB124R	Lexan Trowel, 12" x 4", Rectangle

26. FINISHING TROWEL— GOLDBLATT

PART CODE	DESCRIPTION
W-G003463	Finishing Trowel, 12" x 5", SS

27. PERMASHAPE TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MT165GSFP	Permashape Trowel, 16" x 5", Wood Handle

28. HIGH CARBON STEEL FINISHING TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
W-MTMXS145	Finishing Trowel, 14" x 5", High Carbon Steel, Curved Wood Handle

29. DURASOFT® FINISHING TROWEL— MARSHALLTOWN

PART CODE	DESCRIPTION
NS W-MTMXS165GD	Finishing Trowel, 16" x 5", Golden Steel, Curved DuraSoft Handle

NS=Not shown.

Finishing Trowels cont'd

30. DURASOFT® FINISHING TROWEL—MARSHALLTOWN

W-STA20556	Fatmax "Sharp Tooth" Jab Saw

13. ROCKEATER SAW—SHARK CORP.

PART CODE	DESCRIPTION
W-SHC102206	RockEater Drywall Saw, 6", 7 teeth per inch

LEVELS

1. LEVELS—EMPIRE LEVEL

PART CODE	DESCRIPTION
W-EL58172	72" Heavy-Duty Magnetic Level
W-EL8178	78" Professional Level
W-EL58148	48" Heavy-Duty Magnetic Level
W-EL8148	48" Professional Level
W-EL58124	24" Heavy-Duty Magnetic Level
W-EL8124	24" Professional Level
NS W-EL68048	48" L Carrying Case
NS W-EL8168	48" Level with Case

NS=Not shown.

2. MAGNETIC TORPEDO LEVEL—EMPIRE LEVEL

PART CODE	DESCRIPTION
W-EL5819	Magnetic Torpedo Level, 9", Medium Grade
W-EL819	9" Magnetic Torpedo

PLUMB BOBS

1. BRASS PLUMB BOB—JOHNSON LEVEL

PART CODE	DESCRIPTION
W-JL112	12 oz Brass Plumb Bob

2. QUICK-STABILIZING PLUMB BOB—TAJIMA

PART CODE	DESCRIPTION
W-TJPZB400G	Plumb-Rite 400G Plus Setter w/ 14 oz Quick-Stabilizing Plumb Bob, Hammer Plate

POWER TOOLS & ACCESSORIES

1. HEAVY-DUTY CUTOUT TOOL—DEWALT

PART CODE	DESCRIPTION
W-DW660	Heavy-Duty Cutout Tool

2. VSR DRYWALL SCREWDRIVERS—DEWALT

PART CODE	DESCRIPTION
W-DW272W	VSR Drywall Screwdriver w/ 50 ft Two-Prong Cord, 6.3 Amp
W-DW272	0-4000 RPM VSR Drywall Screwdriver, 6.3 Amp

3. HIGH-SPEED DRYWALL SCREWDRIVER—DEWALT

PART CODE	DESCRIPTION
W-DW255	High-Speed Drywall Screwdriver, 0-5300 RPM

4. SCREW ADAPTER—DIAMOND WALL

PART CODE	DESCRIPTION
W-DIA07125	Screw Adapter

5. SPADE-HANDLE DRILL—DEWALT

PART CODE	DESCRIPTION
W-DW130V	Heavy-Duty 1/2" Spade-Handle Drill

6. STUD CUTTER CHOP SAW WHEEL—DEWALT

PART CODE	DESCRIPTION
W-DW8003	Stud Cutter Chop Saw Wheel (Light Metal) 14" x 7/64" x 1"

7. CHOP SAW—DEWALT

PART CODE	DESCRIPTION
W-DW28700	15-Amp 14" Chop Saw

8. CHOP SAW—DEWALT

PART CODE	DESCRIPTION
W-DW28715	14" Chop Saw with Quick-Change

9. RECIPROCATING SAW KIT—DEWALT

PART CODE	DESCRIPTION
W-DW304PK	Reciprocating Saw Kit, 10.0 Amp, w/ 4 Position Keyless Blade Clamp

10. SAW WHEEL—DEWALT

PART CODE	DESCRIPTION
W-DW8500	14" Diamond Chop Saw Wheel

11. MAGNETIC NUTSETTER—MAGNUM TOOLS

PART CODE	DESCRIPTION
W-MAGSEN14L	1/4" x 2-9/16" Magnetic Nutsetter (10/pk)
W-MAGSEN38L	3/8" x 2-9/16" Magnetic Nutsetter (10/pk)
W-MAGSEN516L	5/16" x 2-9/16" Magnetic Nutsetter (10/pk)

12. CHUCK—BOSCH

PART CODE	DESCRIPTION
W-RBCH01	Chuck, Includes Allen Wrench and 2 Outlet Zipbits

13. SHANK BIT—BOSCH

PART CODE	DESCRIPTION
NS W-RBHC2040B	Shank Bit (CT) 1/4" x 2" x 4" (25 pk)

NS=Not shown.

Power Tools & Accessories cont'd

14. COLLET—ROTOZIP

PART CODE	DESCRIPTION
W-RBCT125	1/8" Collet for Rotomite
W-RBCT250	1/4" Collet for Rotomite
W-RBCT156	5/32" Collet w/ Collet Nut (for use with XBITS)

15. ZIPBIT—ROTOZIP

PART CODE	DESCRIPTION
W-RBDC1	Duracut Carbide Zipbit for cement board

16. DRYWALL ROUTER—ROTOZIP

PART CODE	DESCRIPTION
W-RBDR01	6 Amp Drywall Router

17. ZIPBIT—ROTOZIP

PART CODE	DESCRIPTION
W-RBGP16	1/8" GuidePoint Zipbit (16 /pk)

18. ZIPBIT—ROTOZIP

PART CODE	DESCRIPTION
W-RBGP8	GuidePoint Drywall Zipbit (8/ pk)

19. ROTOZIP SAW—ROTOZIP

PART CODE	DESCRIPTION
W-RBRZ01	5 Amp RotoZip Saw

20. SPIRAL SAW—ROTOZIP

PART CODE	DESCRIPTION
W-RBRZ15	12V Spiral Saw (was RZ10)

21. SABRE-CUT ZIP BIT—ROTOZIP

PART CODE	DESCRIPTION
W-RBSC4	Sabre-Cut Zipbit for up to 1"-thick wood (4/pk)

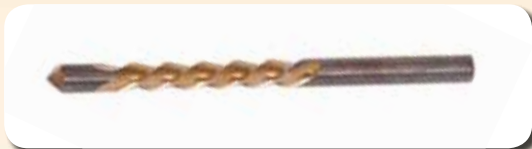

22. TILE-CUT ZIP BIT—ROTOZIP

PART CODE	DESCRIPTION
W-RBTC1	Tile-Cut Zipbit

23. WINDOW BIT—ROTOZIP

PART CODE	DESCRIPTION
W-RBWD1	1/4" Window Bit

24. DRYWALL XBIT—ROTOZIP

PART CODE	DESCRIPTION
W-RBXBDW10	Drywall XBIT, 10/pack, price based upon pack

25. OUTLET BOX BIT—ROTOZIP

PART CODE	DESCRIPTION
W-RBZB16	1/8" Outlet Box Bits (16/pk)
W-RBZB8	1/8" Outlet Box Bits (8/pk)

26. CUTOUT BITS—DEWALT

PART CODE	DESCRIPTION
NS W-DW43224	1/4" Shank Chuck Assembly for 1/8" Shank Cutout Bits
W-DW422310	1/8" Spiral Down Piloted Cutout Bit, HSS, 1/8" Shank (10 Pieces)
W-DW4322110	1/8" Spiral Down Non-Piloted Cutout Bit, HSS, 1/8" Shank (10 Pieces)
W-DW432265	1/8" Spiral Down Piloted, Double-Ended Cutout Bit, HSS, 1/8" Shank (5 Pieces)
W-DW43218	3/16" Spiral Down Piloted Cutout Bit, HSS, 1/4" Shank

NS=Not shown.

RASPS

1. DRYWALL RASP—WAL-BOARD

PART CODE	DESCRIPTION
W-WB07005	Drywall Rasp, Plastic

2. DRYWALL POCKET RASP—GOLDBLATT

PART CODE	DESCRIPTION
W-G005181	Drywall Pocket Rasp

Rasps cont'd

3. DRYWALL POCKET RASP—DIAMOND WALL
