# Fire Barrier

### **Cast-In Device Tub Box**

#### 1. Product Description

**Product Data** 

3M<sup>™</sup> Fire Barrier Cast-In Device Tub Box (3M TB) is a plastic body assembly designed to be used with the 3M MCID. The 3M Tub Box has many unique features.

3M TB is used primarily in new installations and is designed to accommodate concrete thickness as small as 4-1/2 in. and pipe sizes from 1-1/2 in. to 2 in.

#### 3M Fire Barrier TB Features

- Easy installation, annular space allows for easier pipe installation
- Accommodates 1-1/2 in. and 2 in. pipe
- 3M TB easily adjusted height, from 4-1/2 in. to 8 in.
- Red color-easily identified as a fire rated device.
- Factory made, assures consistent quality.
- UL Classified, universally recognized.

#### 2. Applications

The 3M Fire Barrier Tub Box is used with the 3M CID to firestop ccPVC, PVC, ccABS and ABS pipes penetrating fire rated concrete floors up to 3 hrs. It may be applied to drain, waste and vent or closed pipe systems. See manufacturer's instruction sheet supplied with each device for exact type of pipes covered and hourly ratings.

#### 3. Physical Properties

See Attached Tables.

#### 4. Specifications

Installation shall be in strict accordance with manufacturer's written instructions, as shown on approved shop drawings.

The device shall also be classified by Underwriter's Laboratory Inc. as a through-penetration firestop device when tested in accordance to ASTM E 814 (UL 1479) for up to a 3 hr. rating.

All penetrations must be firestopped with a UL Classified System or device as listed in current UL Fire Resistance Directory or have approved shop drawings prior to installation.

Suitability for the intended application should be determined prior to installation.

#### 5. Performance

- UL test per ASTM E 814 (UL 1479)
- UL Classified for 2 and 3 hour fire (F) rating, 1 and 3 hour temperature (T) rating. See UL Fire Resistance Directory under Through-Penetration Firestop Device (XHCR) R9629(N)

#### 6. Installation

Refer to Installation Instructions for 3M Fire Barrier Cast-In Device Tub Box. The back page shows a typical installation.

### 7. Maintenance

3M Fire Barrier Cast-In Device Tub Box is stable under normal storage conditions. Normal stock and stock rotation practices are recommended.
