#### 1 Identification

- · Product identifier
- · Trade name: HydroSeal® Deck Membrane
- · Article number: DKRESN
- · Application of the substance / the mixture Sealing
- $\cdot$  Details of the supplier of the safety data sheet

 Supplier: American Hydrotech, Inc.
 541 N. Fairbanks, Suite 2700 Chicago, Illinois 60611 USA Tel.: (312) 337-4998 Fax: (312) 661-0731 Internet: www.hydrotechusa.com

· Emergency telephone number:

For Chemical Emergency

Spill Leak Fire Exposure or Accident

PERS #11540 - (800) 633-8253

# \* 2 Hazard(s) identification

· Classification of the substance or mixtu	Ire
GHS02 Flame	
Flam. Liq. 3 H226 Flammable liquid and	vapor.
GHS07	
Skin Irrit. 2 H315 Causes skin irritation.	
Skin Sens. 1 H317 May cause an allergic	skin reaction.
STOT SE 3 H335 May cause respiratory	/ irritation.
· Label elements	
GHS label elements     The product is classified and labeled access	rding to the Globally Harmonized System (GHS).
Hazard pictograms	ung to the Globally Harmonized System (GHS).

**Safety Data Sheet** acc. to OSHA HCS

· NFPA ratings (scale 0 - 4)

Fire = 3Reactivity = 2

· HMIS-ratings (scale 0 - 4)

· Other hazards

- · Results of PBT and vPvB assessment
- · PBT: Does not meet the PBT-criteria of Annex XIII of REACH (self assessment).
- · vPvB: Does not meet the vPvB-criteria of Annex XIII of REACH (self assessment).

#### **3 Composition/information on ingredients**

· Chemical characterization: Mixtures

· Description: Mixture of the substances listed below with nonhazardous additions.

· Dangerous components:		
CAS: 80-62-6 Index number: 607-035-00-6	methyl methacrylate	10-<25%
CAS: 103-11-7 Index number: 607-107-00-7	2-ethylhexyl acrylate	10-<25%
CAS: 13463-67-7	titanium dioxide	0.1-≤2.5%

## 4 First-aid measures

#### · Description of first aid measures

#### · General information:

Immediately remove any clothing soiled by the product. Take affected persons out of danger area and lay down. Involve doctor immediately.

(Contd. of page 2)

# Safety Data Sheet acc. to OSHA HCS

Reviewed on 11/11/2015

#### Trade name: HydroSeal® Deck Membrane

· After inhalation:

Printing date 11/23/2015

In case of unconsciousness place patient stably in side position for transportation. Take affected persons into fresh air and keep quiet. Seek medical treatment.

# After skin contact:

Immediately wash with water and soap and rinse thoroughly. If skin irritation continues, consult a doctor.

- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- · After swallowing: Do not induce vomiting; immediately call for medical help.
- · Information for doctor:
- Most important symptoms and effects, both acute and delayed Headache Dizziness Skin sensitization.

Irritant to skin, eyes and respiratory system.

· Indication of any immediate medical attention and special treatment needed

After inhalation, even in the absence of signs of disease, inhaled corticosteroid (eg Ventolair) give.

# 5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents: CO<sub>2</sub>, sand, extinguishing powder, foam.
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- Special hazards arising from the substance or mixture Can form explosive gas-air mixtures.
   Formation of toxic gases is possible during heating or in case of fire. In case of fire, the following can be released: Carbon monoxide (CO) Nitrogen oxides (NOx) Vapours are heavier than air. Crawling vapors can result in greater distance from the ignition!
- Advice for firefighters
- Protective equipment:
- Wear fully protective suit.

Wear self-contained respiratory protective device.

Additional information
 Cool endangered receptacles with water spray.
 Collect contaminated fire fighting water separately. It must not enter the sewage system.

# **6 Accidental release measures**

• Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation

Keep away from ignition sources

Use respiratory protective device against the effects of fumes/dust/aerosol. Wear protective equipment. Keep unprotected persons away.

- Environmental precautions:
- Do not allow to enter sewers/ surface or ground water.

Inform respective authorities in case of seepage into water course or sewage system.

• **Methods and material for containment and cleaning up:** Do not flush with water or aqueous cleansing agents

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

## Safety Data Sheet acc. to OSHA HCS

Printing date 11/23/2015

Reviewed on 11/11/2015

#### Trade name: HydroSeal® Deck Membrane

Reference to other sections

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

#### 7 Handling and storage

#### · Handling:

· Precautions for safe handling

Cool down container when heated. Cool containers exposed to heat with water. Emergency cooling must be provided in the event of an ambient fire. Keep container tightly closed to prevent heat build up (pressure increase). Avoid heat. Do not refill residue into storage receptacles.

Do not refill residue into storage recep at least 7-fold air changes

Prevent formation of aerosols.

 Information about protection against explosions and fires: Highly volatile, flammable constituents are released during processing. Keep ignition sources away - Do not smoke. Fumes can combine with air to form an explosive mixture. Only explosion-proof equipment. Protect against electrostatic charges. Protect from heat.

- Conditions for safe storage, including any incompatibilities
   Storage:
- Requirements to be met by storerooms and receptacles: Store only in the original receptacle. Store in a cool location.
   Information about storage in one common storage facility: Store away from oxidizing agents.

Store away from foodstuffs.

· Further information about storage conditions:

Store in cool, dry conditions in well sealed receptacles.

Storage in a collecting room is required.

Store under lock and key and with access restricted to technical experts or their assistants only.

max. Storage temperature 30 °C

Keep receptacle tightly sealed.

Protect from heat and direct sunlight.

• **Specific end use(s)** Building coating or sealing.

# 8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

· Components with limit values that require monitoring at the workplace:

#### 80-62-6 methyl methacrylate (10-<20%)

- PEL Long-term value: 410 mg/m<sup>3</sup>, 100 ppm
- REL Long-term value: 410 mg/m<sup>3</sup>, 100 ppm
- TLV Short-term value: 410 mg/m<sup>3</sup>, 100 ppm Long-term value: 205 mg/m<sup>3</sup>, 50 ppm DSEN

• Additional information: The lists that were valid during the creation were used as basis.

Reviewed on 11/11/2015

#### Trade name: HydroSeal® Deck Membrane

(Contd. of page 4)

- · Exposure controls
- · Personal protective equipment:
- General protective and hygienic measures:

Avoid contact with the eyes and skin. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Keep away from foodstuffs, beverages and feed. Do not inhale gases / fumes / aerosols.

# · Breathing equipment:

Ensure good ventilation.

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

The use of respiratory protective hood is recommended because not wearing time limitations apply.

· Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Preventive skin protection by use of skin-protecting agents is recommended.

After use of gloves apply skin-cleaning agents and skin cosmetics.

Check protective gloves prior to each use for their proper condition.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

#### Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

#### Protective gloves according to EN 374

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

#### Penetration time of glove material

Our Recommendation is mainly on a one-time use as a short-term protection Liquid splashes. For other applications, you should contact a glove manufacturer.

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

• For the permanent contact in work areas without heightened risk of injury (e.g. Laboratory) gloves made of the following material are suitable:

Butyl rubber, BR

- · For the permanent contact gloves made of the following materials are suitable: Butyl rubber, BR
- Not suitable are gloves made of the following materials: Leather gloves
- · Eye protection:

Tightly sealed goggles

#### 10 Stability and reactivity

- Reactivity see Section 10.2
- · Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- Possibility of hazardous reactions
   Exothermic reaction.

Reacts with peroxides and other radical forming substances.

A hazardous polymerization may occur after the exhaustion of the inhibitor.

- · Conditions to avoid Avoid heat. Avoid direct sunlight.
- · Incompatible materials: Heftige Reaktionen mit Peroxiden und anderen Reduktionsmittel
- · Hazardous decomposition products:

No dangerous decomposition prodocts used accordind to specifications.

· Additional information:

Emergency procedures will vary depending on individual circumstances. The customer should have a contingency plan to the workplace may be present.

#### 11 Toxicological information

· Information on toxicological effects There were no toxicological findings to the mixture.

· Acute toxicity:

· LD/LC50	· LD/LC50 values that are relevant for classification:			
Oral	LD50	8223 mg/kg (rat)		
Inhalative	LC50/4h	122 mg/l (rat)		
80-62-6 m	80-62-6 methyl methacrylate			
Oral	LD50	> 5000 mg/kg (rat) (OECD 401)		
	NOAEL	2000 ppm (rat) drinking water, 6-2000 ppm Findings: No toxic effects		
Dermal	LC50	> 5000 mg/kg (rabbit)		
Inhalative	NOAEL	25 ppm (rat) 25 - 400 ppm Findings: Damage to mucous membranes in the nose at 400 ppm

EC50/72h (static)	1.71 mg/l (scenedesmus subspicatus) (OECD 201) Die Angaben der toxischen Wirkung bezieht sich auf die analytisch ermittelte Konzentration.	
Persistence and degradability Easily biodegradable     Other information: The product is easily biodegradable.		

- · Behavior in environmental systems:
- · Bioaccumulative potential May be accumulated in organism
- · Mobility in soil

MMA: A binding to the solid phase of soil, sediment and sewage sludge is not expected. From the water surface the substance is slowly evaporated into the atmosphere. Where the substance into the environment he verleibt preferably in the compartment into which it has emerged.

2-EHA: The product floats on water and does not dissolve. Adsorption on soil is not likely.

- · Additional ecological information:
- · CSB-value: 2-EHA: Theoretical oxygen demand (TOD) = 5.6 g/g
- **BSB5-value:** 0.14 g/g (MMA)
- · General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow product to reach ground water, water course or sewage system.

- · Results of PBT and vPvB assessment
- · PBT: Does not meet the PBT-criteria of Annex XIII of REACH (self assessment).
- · vPvB: Does not meet the vPvB-criteria of Annex XIII of REACH (self assessment).
- Other adverse effects No further relevant information available.

# 13 Disposal considerations

#### · Waste treatment methods

Hazardous waste according to Waste Catalogue (EWC). If recycling is not possible, waste must be in compliance with local regulations to be removed.

#### · Recommendation:

Uncured product residues are special waste.

Cured product residues are not hazardous waste.

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

#### · Uncleaned packagings:

· Recommendation:

This material and its container must be disposed of as hazardous waste. Disposal must be made according to official regulations.
