HIGHLY REFLECTIVE

REDUCES ROOF TEMPERATURE

LOWER ENERGY COSTS

HELPS LOWER UTILITY BILLS

IDEAL FOR EXTREME HEAT AND COLD ENVIRONMENTS

GREAT TENSILE & ELONGATION

EXTENDS ROOF LIFE

LOWER ROOF MAINTENANCE COSTS

248 ENERGY-ARMOR®

ARIZONA WHITE ELASTOMERIC COATING

APOC 248 Energy-Armor Arizona White High Performance Elastomeric Roof Coating is specially formulated for extreme heat and cold. Highly flexible, APOC 248 expands and contracts with roof movement to resist damage and cracking. It resists peeling and mildew, while offering tremendous durability and long-term life. Elastomeric coatings should be used on roofs with proper drainage. This premium coating provides an excellent, highly protective barrier which reflects the sun's heat and destructive UV rays. In turn, this helps to cool surfaces, leads to a reduction of interior temperatures and greatly extends the life of the roof.

USES:

- Protects, reflects and cools roofs
- Bright white color delivers long lasting reflectivity, helping to lower utility costs
- Greatly extends existing roof life

FEATURES:

- Highly flexible, expands and contracts in extreme heat and cold temperatures
- Dirt pick-up resistant, maintaining a bright white finish for maximum reflectivity
- Easy soap and water clean up
- Available in white, tan or gray
- Compliance and certifications:

SUBSTRATES:

METAL

MOD-BIT

SINGLE-PLY

RELATED PRODUCTS:

PREP

APOC 801 Heavy Duty Roof Cleaner is a high-performance concentrated cleaner that is the ideal way to prep and clean roof membranes prior to coating with silicone or acrylic coatings.

PRIME

APOC offers primer options for elastomeric coatings based on substrate or application. APOC 291 Rust Inhibiting Primer is designed to stop corrosion damage of ferrous metals. APOC 296 Single Ply Adhesive Primer is designed to provide exceptional adhesion and bonding strength for coatings applied to single ply membranes.

PATCH

APOC 264 Elastomeric Roof Patch is a premium hybrid formula combining the waterproofing abilities of polyurethane with the flexibility and ease of use of acrylic polymers designed for both interior and exterior applications.
