Containment/Clean-up

**Precautions** 

Measures

**Firefighting Procedures** \* Fire fighters should wear complete protective clothing including self-contained breathing apparatus.

Keep unauthorized personnel away.

**Unusual Fire and**\* Product containers may rupture when exposed to extreme heat. Precaustions should be taken to prevent release of materials.

**Hazardous Combustion** \* Non-combustible, substance itself does not burn but may decompose upon heating to products produce toxic fumes.

\* Structural firefighters' protective clothing provides limited protection in fire situations
ONLY; it is not effective in spill situations where direct contact with the substance is possible.

\* > **247 F**(> 119.4444 C) CC (Closed Cup)

## Section 6 - Accidental Release Measures

**Personal Precautions** \* Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

\* Isolate the area and contain the spilled material. Persons not wearing the appropriate

PPE should be removed from the area until the spill is cleaned up.

\* Avoid run off to waterways and sewers.

\* Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.

Use appropriate Personal Protective Equipment (PPE)

\* Avoid contact with strong oxidizing agents and acids.

### Section 7 - Handling and Storage

Handling

\* KEEP OUT OF THE REACH OF CHILDREN! Keep containers tightly closed when not in use.

Storage

\* Avoid extreme temperatures and freezing. Keep container/package tightly closed and in a well-ventilated place.

Special Packaging Materials
Incompatible Materials or

\* Not Applicable.

Incompatible Materials or Ignition Sources

\* Avoid contact with strong oxidizing agents and acids.

## **Section 8 - Exposure Controls/Personal Protection**

### **Personal Protective Equipment**

**Pictograms** 

Respiratory

\* When used with adequate ventilation, a respirator is not normally required. If required, use a NIOSH-approved air purifying respirator with organic vapor cartridge or supplied air respirator. This product is an encapsulated mixture which reduces the likelihood of exposure to hazardous particulates. Airborne exposures to hazardous dusts or mists may be generated by spraying, sanding or grinding.

Eye/Face

\* Wear ANSI approved safety glasses with side shields or safety goggles.

Hands

\* Wear chemical resistant gloves with repeated or prolonged exposure.

**Engineering Measures/Controls** 

\* Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values. Use precaution to protect building intake from fumes and vapors created outdoors.
