SDS No. I.SF.1

Date prepared: MAY 2015

Date revised: MARCH 2019

Date revised: MARCH 2019 SDS No. I.SF.1

Section 1 - Product Identification

IDENTITY: Product Name: InjectPro-SuperFast

Component-A

Product Use Description: Polyurethane Injection Grout

AQUAFIN, INC. 24 hr Emergency Phone: Chem-Tel (800) 255-3924

505 BLUE BALL RD. #160 Information Phone No. **(410) 392-2300**

ELKTON, MD 21921 www.aquafin.net info@aquafin.net

Recommended use of the chemical and restriction on use: Refer to the product technical data sheet.

For industrial and professional users.

Section 2 - Hazards Identification

GHS Classification:

Skin irritation, Category 2 = H315.
Skin sensitization, Category 1 = H317.
Eye irritation, Category 2A = H319.
Acute toxicity, inhalation, Category 4 = H332.
Sensitization, respiratory, Category 1 = H334.
Respiratory tract irritation, Category 3 = H335.
Specific target organ toxicity, repeated exposure, Category 2 = H373.

GHS Label element:

Hazard Pictograms

GHS07

GHS08

Signal Word: Danger

Hazard Statements:

H315: Causes skin irritation.

H317: May cause an allergic skin reaction. H319: Causes serious eye irritation.

H332: Harmful if inhaled.

H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.

H335: May cause respiratory irritation.

H360: May damage fertility or the unborn child.

H373: May cause damage to respiratory system through prolonged or repeated exposure.

Precautionary Statements:

Prevention:

P102: Keep out of reach of children.

P260: Do not breathe mist, vapours or spray. P264: Wash skin thoroughly after handling.

P270: Do not eat, drink or smoke when using this product. P271: Use only outdoors or in a well-ventilated area.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P285: In case of inadequate ventilation wear respiratory protection.

SDS No. I.SF.1

Response:

P302 + P352: IF ON SKIN: Wash with plenty of soap and water.

P333 + P313: IF SKIN irritation or rash occurs: Get medical attention. P362: Take off contaminated clothing and wash before reuse.

P304 + P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable

for breathing.

P342 + P311: If experiencing respiratory symptoms: call a POISON CENTER or

physician.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing.

P337 + P313 IF eye irritation persists, get medical advice/attention.

P308 + P313: IF exposed or concerned, get medical advice.

Storage:

P403 + P410: Store in a well-ventilated place. Protect from sunlight.

P405: Store locked up.

Disposal:

P501: Dispose of contents/container to an approved waste disposal site.

Section 3 – Composition / Information on Hazardous Ingredients

Component:	CAS No.	% (Weight)
Diphenylmethane 4,4'-diisocyanate	101-68-8	30 - 60
Polymeric diphenylmethane diisocyanate	9016-87-9	30 - 60

Note: There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Section 4 - First Aid Measures

Inhalation: Supply fresh air and consult a physician if breathing becomes difficult. Symptoms may be

delayed for several hours.

Ingestion: If person is conscious, wash out mouth with water. Do not induce vomiting unless

instructed to do so by a poison center or physician.

Skin Contact: Immediately flush skin with plenty of water. Do not use solvents or thinners. Remove

contaminated clothing and shoes. Seek medical advice if irritation or rash occurs. Wash

clothing before reuse.

Eye Contact: Immediately flush eyes with plenty of water for at least 15 minutes, lifting upper and lower

eyelids occasionally. Remove contact lenses, if present. Seek medical attention if irritation

persists.

Section 5 – Fire Fighting Measures

Extinguishing Media: Water fog, foam, dry chemical or carbon dioxide.

Fire Fighting Procedures: Standard. As in any fire, wear self-contained breathing apparatus

pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Containers can build up pressure if exposed to heat (fire). Cool with water spray. Do not scatter material with high pressure

water streams.

SDS No. I.SF.1

Hazardous Combustion Products: Carbon oxides, nitrogen oxides, isocyanates and trace amounts of

hydrogen cyanide.

Unusual Fire and Explosion Hazards: Water contamination produces carbon dioxide gas. This may cause

pressurization or explosion of containers.

Section 6 – Accidental Release Measures

Person-related Safety Precautions: Provide plenty of fresh air. Avoid eye and skin contact. Avoid inhalation

of vapors. Wear personal protective equipment. Remove or eliminate all

ignition sources.

Methods for cleaning-up: Prevent from entering into soil, ditches, sewers, waterways and/or

groundwater. <u>Small spills:</u> Absorb with dry chemical absorbent, earth, sand or any other inert material. Allow to stand uncovered for 48 hrs. before closing container. <u>Large spills:</u> Create a dike or trench to contain

product. Follow same procedure as for a small spill.

Clean spill area with a decontamination solution. Suggested formulation: Sodium carbonate (5-10%), liquid detergent (1-2%), water (88-94%). Alternate formulation: Concentrated ammonia (3-8%), liquid detergent (1-2%), water (90-96%). Ensure adequate ventilation to prevent

overexposure of ammonia.

Waste Disposal Method: Dispose in accordance with local, state and federal regulations.

Ecological Information: Do not allow product to reach ground water, bodies of water, or storm

water or sewage systems.

Section 7 – Handling and Storage

Handling: Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

Follow all SDS/label precautions even after the container is emptied because it may retain product residues. Use only with adequate ventilation. Keep container closed when not in use. Do not reseal if contaminated. Keep away from heat and

flame.

Storage: Keep container tightly closed when not in use. Do not store in direct sunlight.

Storage Temperature: $4^{\circ}\text{C} - 32^{\circ}\text{C} \ (\sim 40^{\circ}\text{F} - \sim 90^{\circ}\text{F}).$

Section 8 – Exposure Controls / Personal Protection

Exposure Limits:

COMPONENT CAS NUMBER OSHA/PEL ACGIH/TLV

Diphenylmethane 4,4'-diisocyanate 101-68-8 0.02 ppm (Ceiling) 0.005 ppm 0.20 mg/m³ (Ceiling) 0.051 mg/m³

Engineering Controls: Use adequate ventilation.

Respiratory Protection: Use local exhaust ventilation. For airborne exposure above exposure limit(s),

wear a NIOSH approved air-purifying respirator equipped with organic vapor cartridges. For situations where the atmospheric levels may exceed the level for which an air-purifying respirator is effective, use a positive-pressure air-supplying

respirator.

SDS No. I.SF.1

Skin Protection: Wear chemical resistant protective clothing and footwear impervious to the

product if there is a potential for skin contact.

Hand Protection: Glove(s): neoprene.

Eye Protection: Use safety goggles or face shield.

Other Protective Equipment: A safety shower and eye wash fountain should be readily available.

Work/Hygienic Practices: Wash hands before breaks and after work, and before eating, drinking or

smoking.

Section 9 – Physical and Chemical Properties

Physical state: Liquid
Color: Brown
Odor: Slightly musty

Solubility in water: Insoluble, reacts with water

Boiling point: No data

Flash point: >93°C (>200°F) (closed cup) **Vapor Pressure:** <0.0001 mmHg at 25°C (77°F)

Flammability: No data

Specific Gravity (water = 1) at 25°C: 1.22 – 1.24 g/cm³ Viscosity, (kinematic) at 25°C: 200 - 300 cps
Auto ignition Temperature: No data available No data available

Upper explosion Limit: No data available

Section 10 – Stability and Reactivity

Stability: Stable.

Hazardous Decomposition Products: Carbon oxides, nitrogen oxides, isocyanides and trace amounts of

hydrogen cyanide.

Hazardous Polymerization: Can be caused by elevated temperatures.

Incompatibilities: This product will react with any materials containing active hydrogens

such as water, alcohol, amines, bases and acids. The reaction with water is very slow under 50°C (122°F), but is accelerated at higher

temperatures.

Section 11 – Toxicological Information

Acute toxicity:

Diphenylmethane 4,4'-diisocyanate Dermal: LD50 >9400 mg/kg (rabbit).

Oral: LD50 >10000 mg/kg (rat).

Inhalation: LC50 0.49 mg/L/4 h (rat) (respirable aerosol).

Carcinogenity:

IARC: Not regulated as a carcinogen.

NTP: Not regulated as a carcinogen.

OSHA: Not regulated as a carcinogen.

Section 12 – Ecological Information

SDS No. I.SF.1

Ecotoxicological Information:

MDI: LC50 >500 mg/L/96h (zebra fish). EC50 >500 mg/L/24 h (daphnia magna).

Section 13 - Disposal Considerations

Product waste: Must be disposed of in a manner consistent with federal, state and local regulations.

Empty Container: when cartridge is empty dispose with trash.

RCRA/EPA Waste Information: If discarded in its purchased form, this material is not a RCRA hazardous waste.

Section 14 – Transport Information

USDOT (Domestic Surface): Not regulated

IMO (Ocean): Not regulated

IATA/ICAO (Air): Not regulated

Section 15 - Regulatory Information

TSCA (Toxic Substances Control Act): All components are on TSCA inventory.

RCRA Status: If discarded in its purchased form, this material is not a RCRA hazardous waste.

US Federal Regulatory Information:

SARA Title III (Superfund Amendments and Reauthorization Act:

311/312 Hazard Categories: Acute, Chronic, Reactive.

313 Reportable Components:

Component CAS NUMBER

Diphenylmethane 4,4'-diisocyanate (Category Diisocyanate Compounds) 101-68-8
Polymeric diphenylmethane diisocyanate (Category Diisocyanate Compounds) 9016-87-9

CERCLA (Comprehensive Environmental Response and Liability Act)

Component RQ (lbs)
Diphenylmethane 4,4'-diisocyanate 5000

National Response Center: Any spill or release to the environment above RQ must be reported to the

National Response Center (800-424-8802).

Section 16 – Other Information

Abbreviations and acronyms:

USDOT: United States Department of Transportation.

IMDG: International Maritime Code for Dangerous Goods.

IATA: International Air Transport Association.

CAS: Chemical Abstracts Service (Division of the American Chemical Society).

LC50: Lethal concentration, 50 percent.

SDS No. I.SF.1

LD50: Lethal dose, 50 percent. EC50: Median effective concentration.

RQ: Reportable quantity.

SDS prepared by: Aquafin product safety department.

We believe the statements, technical information and recommendations contained herein are reliable, but they are given without warranty or guarantee of any kind, expressed or implied, and we assume no responsibility for any loss, damage, or expense, direct or consequential, arising out of their use. Aquafin shall not be responsible for the use of this product in a manner to infringe on any patent or any other intellectual property rights held by others. User is responsible for determining appropriate safety measures and for applying the legislation covering his own activities. We recommend that user makes tests to determine the suitability of a product for its particular purpose prior to use.
