**Moisture tolerant, calcium aluminate,
cementitious self-leveling underlayment**

AQUAFIN® LEVEL-Ultra

Description/Benefits:

- Calcium aluminate based - moisture tolerant
- Use both interior and exterior
- Great for fast track construction - can be installed before the building is enclosed
- High strengths
- Installs from 1/8" to 1-1/4"
- Compatible with radiant heat flooring
- 0 VOC's - qualifies for LEED points
- Available in 50 lb. bags
- Compare to: Ardex K 15, Mapei M20 Plus, Mapei Ultraplan 1 Plus

Typical Applications:

Leveling interior and exterior concrete substrates prior to installing exterior traffic coatings and interior floor coverings

Think Globally. Act Locally.
