ARDEX SX Traffic Recommendations

We are writing to clarify suitable traffic conditions for areas where ARDEX SX™ 100% Silicone Sealant for Tile and Stone Applications is used.

ARDEX SX is suitable to receive pedestrian traffic in residential and light commercial applications. Please note that ARDEX SX is not recommended for floor installations in heavy commercial applications, such as airports and shopping malls. However, ARDEX SX is suitable for use in non-traffic areas and on walls in heavy commercial applications.

Should you have any questions on this information, or if we can be of further assistance, please contact the ARDEX Technical Service Department.

A handwritten signature in black ink, appearing to read "T. Schneider".
