Easy to specify and install cloud system with pre-cut components and wide range of panel options.

KEY SELECTION ATTRIBUTES

- Ideal for acoustically challenged or exposed structure spaces:
 - Reduce acoustical reverberation time in the space
 - Reduce noise levels in the space
 - Increase speech intelligibility
- Layouts and sizing for full-size panel installation
- Standard components for custom look

Formations™ Suspension System and Axiom® Trim Kits

- Axiom trims are made from extruded aluminum, offers better registration, handleability, and finished appearance vs. standard cold-rolled steel
- Axiom® Vector – maintains a clean 1/4" Vector reveal at the perimeter when used within factory-finished panels
- CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim (Cleaning and CDC approved disinfecting options available on armstrongceilings.com/cleaning)

- Kits combine the Formations™ Clouds StrongBack™ mounting system with a sleek, strong aircraft cable system to recess the cable two feet away from the vertical face of the cloud, for a clean visual requiring fewer suspension hangers
- Tested for seismic installations
- Suspension Kits include:
 - Axiom trim cut to length with factory-mitered corners

- Unique Axiom trim for Formations Support Hanger carrying channel
- Prelude® XL® suspension system components, cut to length
- Appropriate amount of Axiom splices and T-Bar connectors
- Aircraft cable and hardware for attachment to structure

1 START BY CHOOSING THE FORMATIONS™ ACCENT AND ACOUSTICAL CLOUD KITS THAT FIT YOUR PROJECT NEEDS

Formations Curves Clouds

Soften and quiet any space by adding a few curves.

- 16 suspension system/trim colors
- 3 standard trim heights
- 16 shapes and sizes

Formations Square/Rectangle Clouds

A bold, captivating design option with outstanding sound absorption.

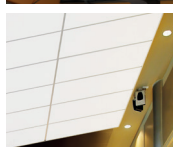

- 16 suspension system/trim colors
- 3 standard trim heights
- 15 shapes and sizes

Formations Clouds with Staggered Panels

Create visually interesting clouds the easy way.

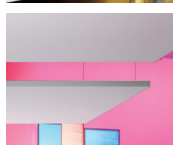

- 16 suspension system/trim colors
- 3 standard trim heights
- 78 shapes and sizes

Formations Clouds with Planks

Reduce the amount of visible suspension and create a sleek, clean look.

- 16 suspension system/trim colors
- 3 standard trim heights
- 30 shapes and sizes

Formations Drywall Cloud Kits

Improved floating visual compared to field-constructed track and channeled clouds.

- 3 standard trim heights
- 21 shapes and sizes

Formations Clouds with Integrated Lighting

Premier lighting systems pre-engineered with the ceiling that fits your design.

- 2 standard trim heights
- 3 suspension systems
- 4 shapes and sizes

Kits for DesignFlex® for FORMATIONS Clouds

Improve acoustics with all-in-one installation kits that create unique cloud visuals without the guesswork.

- 3 standard trim heights
- 21 shapes and sizes

Acoustical and Accent Cloud Kits

2 WHAT TYPE OF CEILING PANELS DO YOU WANT TO USE? Panels specified, ordered and shipped separately from Formations™ Kits

ACOUSTICAL, SUSTAIN®, & CLEANASSURE™ PANELS – CURVES

Due to printing limitations, shade may vary from actual product.

Ultima® Tegular and Vector® Panels

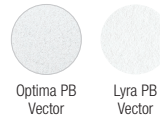

NOTE: Ultima® Vector® panels are the only available as factory-cut curved panels. Other 24" x 24" mineral fiber/fiberglass panels may be used but may require field cutting.

ACOUSTICAL, SUSTAIN®, & CLEANASSURE™ PANELS – STAGGERED & PLANKS

Due to printing limitations, shade may vary from actual product.

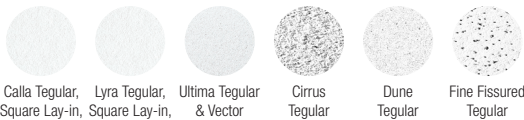

Optima® PB/Lyra® PB Vector® Panels

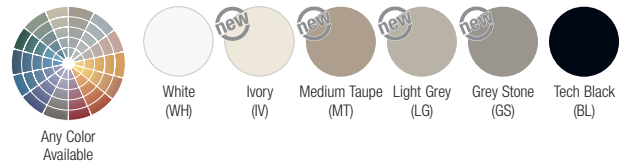

ACOUSTICAL, SUSTAIN®, & CLEANASSURE™ PANELS – SQUARES

Due to printing limitations, shade may vary from actual product.

Lyra®/Calla®/Ultima®/Cirrus®/Dune™/Fine Fissured™ Tegular, Vector®, and Square Lay-in Panels

Calla®/Lyra® only Cirrus® only

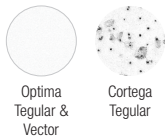

Note: Lyra, Calla, Ultima, Cirrus and Fine Fissured panels are part of the CleanAssure family of disinfectable products.

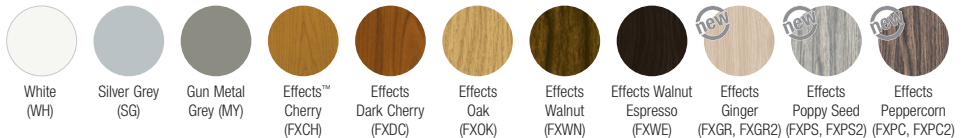

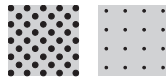

ACOUSTICAL & CLEANASSURE™ PANELS – SQUARES

Due to printing limitations, shade may vary from actual product.

Optima®/Cortega®

MetalWorks™ Square Tegular and Vector Panels

Note: Optima® and MetalWorks™ panels are part of the CleanAssure family of disinfectable products.

ACCENT & CLEANASSURE™ PANELS – SQUARES

Due to printing limitations, shade may vary from actual product.

MetalWorks™ Mesh Lay-in Panels

Lay-in Color Choices (partial list)

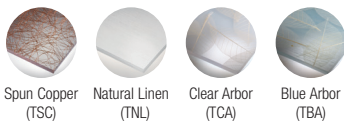

WoodWorks® Grille Tegular Panels

Open Cell Vector Panels (partial list)

Infusions® Lay-in Panels

Lay-in Color Choices (partial list)

MetalWorks Tin Tegular & Vector Panels

Lay-in Color Choices

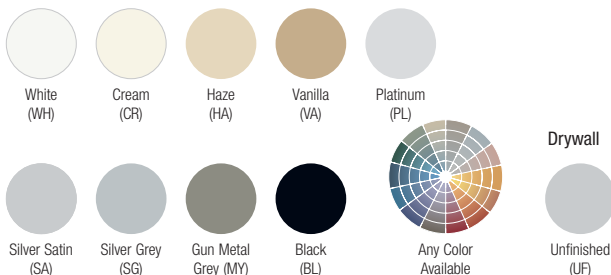

NOTE: For a complete list of panels, visit armstrongceilings.com/metalworks; armstrongceilings.com/woodworks; armstrongceilings.com/infusions

NOTE: WoodWorks Grille Tegular panels are part of the CleanAssure family of disinfectable products.

3 SELECT YOUR SUSPENSION SYSTEM AND TRIM COLORS

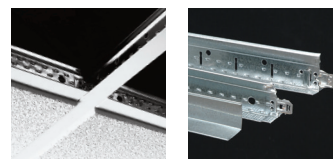

Due to printing limitations, shade may vary from actual product.

Suspension System / Axiom® Trim Colors

NOTE: Suspension Systems and Axiom trim are part of the Cleanassure family of products.

SUSPENSION SYSTEMS

Prelude® 15/16" suspension system included in all kits (except Drywall)

Drywall Grid 1-1/2" suspension system

Suspension Systems used in Formations™ clouds are part of the Sustain® profile

NOTE: Prelude 15/16" suspension system is part of the CleanAssure family of disinfectable products.

5 SPECIFY KITS, COLORS, AND PANEL SELECTIONS

HOW TO SPECIFY

Based on the cloud size and shape you choose, you need to specify and order the suspension and trim kit item number, the special factory-cut curved Vector® panel kit number, and any extra cartons of the infill panels you may need. Standard circle and rounded square clouds feature 15/16" Prelude® suspension system and your choice of 2", 4", or 6" high Axiom® Vector trim.

EXAMPLE:

C4VES 0606C __ __

4" High 6' x 6' Color
Axiom® Cloud Suffix
Vector
Trim

Custom options available that include a wide range of Axiom trim and suspension system options.

- ◆ If specifying a color other than White, remember to add the color suffix at the end of the Suspension Kit item number.

LOCATION DEPENDENT

▲ Formations™ Drywall Clouds – 10' x 14' with 6" Axiom® one-piece Drywall Trim

This pre-engineered drywall cloud kit looks great every time.

KEY SELECTION ATTRIBUTES

- Pre-cut suspension system components, perimeter trim, and easy-to-adjust aircraft hanging cables make assembly and installation fast and easy
- Perimeter trim integrates with 5/8"-thick drywall (not included in kit)
- Improved floating visual compared to black iron and hat channel-built drywall clouds
- CleanAssure™ family of products – includes disinfectable suspension systems, and trim (Cleaning and CDC approved disinfecting options available on armstrongceilings.com/cleaning)

TYPICAL APPLICATIONS

- Auditoriums
- Performance venues
- Open plenum spaces
- Where a lively vibe is desired

COLOR

5 (continued) SPECIFY KITS, COLORS, AND PANEL SELECTIONS

HOW TO SPECIFY

Based on the cloud size and shape you choose, you need to specify and order the suspension and trim kit item number. Formations™ drywall cloud kits are only compatible with 5/8" thick drywall.

Standard drywall cloud kits feature your choice of 2", 4", or 6" high unfinished Axiom® drywall trim for easy on-site painting.
