Design Consideration

Physical product samples for standard and custom colors are
available upon request. Please refer to the physical product
sample prior to making a final selection. While we strive to ensure
exact color matches, various factors such as differences in
materials, texture, substrate porosity, painting processes, lighting,
and observer subjectivity can all affect how paint colors appear on
ceiling and wall panels, suspension systems, and trim products.

Due to these and other differences, ceiling and wall panels,
trim products, and suspension systems with the same color
name will coordinate but may not be an exact color match.
Product is dye-lotted. Order sufficient initial quantities
and attic stock to minimize possible color variation.
