With a wide variety of options – including configurations, panels, sizes, trim color, and applications – the possibilities are endless.

Great Acoustics
Formations cloud kits with acoustical panels provide greater sound absorption than a continuous ceiling of the same area.

Fewer Wires
Kits come complete with our proven StrongBack™ carrying channel, which eliminates 40% of the cables – minimizing visible wires.

Faster Installation
Aircraft cable allows for easy floor level installation – kits assemble and install up to 50% faster than stick built clouds.
