# CONCEALED FASTENER WALL PANELS

Versa-Lok, Page 6

CastleTop, Page 10

**All concealed fastener wall panels share the following specifications, unless otherwise noted:**

## Maximum Panel Length:

Transportation limitations and/or product and project design considerations

## Perforations Available:

Yes\*

## Finish:

70% PVDF

## Colors:

Choice of over 30 stock colors

Custom colors and finishes available\*\*

## Anodized:

Clear Satin, Dark Bronze

## Accessories:

A complete line of trims available in matching colors, gauge, and finish or as specified

\*CastleTop® and Versa-Lok™ are not available in perforated.

\*\*Subject to minimum quantities and extended lead time. Inquire for material and panel coverage availability.

## Overview

With **uninterrupted shadow lines**, and a **sleek, continuous appearance**, concealed fastener wall panels offer design solutions for any number of project objectives

- Vertical or horizontal applications
- Ribbed and corrugated panel styles
- Metal shingles
- Standing seam; batten, plank or barn board styles
- With or without perforations
- Curved applications
- Rainscreen type of applications
- ... and more.

In addition to the vast selection of styles and material choices, a number of the ATAS profiles can be mixed and matched seamlessly, with single or multi-color design palettes (see pg. 19).

## Longevity Features:

- Fire resistant - will not burn or support combustion
- May be an insurance advantage
- Will not warp, crack, or rot
- Industry leading long-term warranty
- Resistant to high wind, torrential rain, heavy snow, and ice loads
- High quality and time-proven painting and pretreatment technologies

## ON THE COVER

Rheingold Bushwick | Brooklyn, NY  
Rigid Wall II in Custom Color

Office Building  
El Segundo, CA  
Metafor in Bone White

Integral lock and seam design guards against wind-driven rain and wind uplift

#### SKU:

MFP120

#### Material:

.032, .040, .050 aluminum;  
16, 20 oz. copper\*;  
.0197 classic & terne coated stainless steel\*

#### Panel Coverage:

12"

#### Minimum Panel Length:

1'-6"

#### Panel Depth:

5/8"

#### Texture:

Smooth or Embossed

\* Subject to minimum quantities and extended lead time.  
Inquire for availability.

#### Application:

- Installed horizontally or vertically
- Ease of installation - can be applied directly to solid decking or open framing
- Typical applications include walls, ceilings, fascias, mansards, equipment screens, and soffits
- Metafor™ is also suitable for walkways, balconies, entrances, and vestibules
- Curved panels (Arc-Metafor™) available in convex or concave

#### Performance Standards:

- Tested in accordance with ASTM E 84 Flame Spread
- Easily integrated into drainage plane wall construction for energy performance
- IBC code compliance

Rigid Wall II in Silversmith

**SKU:**

MFN

**Material:**

.032, .040, .050 aluminum;  
24, 22, 20\*, 18\* ga. metallic coated steel;  
24, 22\*, 20\*, 18\* ga. 55% Al-Zn alloy  
coated steel with acrylic coating;  
1.0 mm zinc\*

**Panel Coverage:**

8", 12", 16"

**Minimum Panel Length:**

2'-8"

**Panel Depth:**

15/16"

**Texture:**

Smooth or Embossed

\* Subject to minimum quantities and extended lead time.  
Inquire for availability.

**Application:**

- Suitable for mansards, equipment screens, and walls
- Installed horizontally or vertically
- Can be installed over solid decking or open framing

**Performance Standards:**

- Tested in accordance with:  
ASTM E 84 Flame Spread
- Pre-notching available for  
panel overlap

**For more information:** Visit [www.atas.com/rigidwall2](http://www.atas.com/rigidwall2)

## Application (All Versa Series Panels):

- Ideal for commercial and residential wall applications
- Installed horizontally or vertically
- Ease of installation - can be applied directly to solid decking, secondary framing members, or drainage plane wall assemblies

## Performance Standards (Versa-Lok & Versa-Seam):

- Tested in accordance with ASTM E 84 Flame Spread
- Easily integrated into drainage plane wall construction for energy performance

**VERSA-LOK™**

Installed right-to-left starting at the bottom with the option of also installing left-to-right, the Versa-Lok panels utilize concealed clips and fasteners to provide a metal shingle wall application.

## SKU:

**Horizontal:** VSL123, VSL126, VSL163, VSL166

**SKU:**

MFC160

**Material:**

.032, .040, .050 aluminum;  
24, 22 ga. metallic coated steel;  
24, 22\* ga. 55% Al-Zn alloy coated steel  
with acrylic coating;  
16 oz. copper\*;  
.0197 classic & terne coated stainless steel\*

**Panel Coverage:**

16 5/8"

**Minimum Panel Length:**

6'-0"

**Panel Depth:**

7/8"

**Texture:**

Smooth or Embossed

\* Subject to minimum quantities and extended lead time.  
Inquire for availability.

**Application:**

- Wind-Lok® interlock increases strength of panel design
- Applications include commercial, walls, mansards, equipment screens, and roofs (with a recommended minimum slope of 4:12)
- Ease of installation
- Mix and match capabilities
- Custom extruded trim designs
- Horizontal or vertical installations

**Performance Standards:**

- Tested in accordance with ASTM E 84 Flame Spread
- Easily integrated into drainage plane wall construction for energy performance

## SKU:

HCT160

## Material:

.032 aluminum;  
.7 mm zinc\*;  
16 oz. copper\*

## Shingle Size:

15 3/4" x 15 3/4"

## Shingle Coverage:

13 1/2" x 13 1/2"

## Texture:

Embossed (aluminum only),  
Smooth (copper & zinc only)

\* Subject to minimum quantities and extended lead time.  
Inquire for availability.

## Application:

- May be used for wall applications, mansard, and commercial or residential roof.
- There are 78 shingles per square (100 sq. ft.)
- Different colors may be mixed to create interesting patterns
- Durable, yet lightweight

## Performance Standards:

- Tested in accordance with UL 790/ASTM E 108, UL 1897, PA 100-95 (R&D only), UL 2218, ASTM E 84 Flame Spread, ICBO AC 166 Penetration
- FBC Approval

Multi-Purpose Panel in Redwood

Vinton Library  
Vinton, VA  
Corrugated Panel in Titanium  
Hole Pattern: A25

Available in a wide selection of gauges, materials, panel profiles, and colors, Gaten Series perforated panels are ideal for numerous applications including architectural design, passive solar shading, ventilation, acoustical solutions, and equipment screens. ATAS offers **six standard hole size patterns**, as well as custom options to fit any project's design needs. Additionally, ATAS can color-match each side of the panels for applications where both sides are visible. An aluminum substrate is ideal for outdoor perforated applications due to its inherent corrosion-resistant properties.

ATAS provides a single source package for your project's needs, including engineering expertise, structural hat channels and framing, corners, end caps, trims, and flashings.

### ATAS profiles can be mixed and matched several different ways:

- Corra-Lok, Metafor, Rigid Wall II series, and Multi-Purpose Panels all share the Wind-Lok® interlocking system which allows for the profiles to be mixed and matched.
- Design Wall series, Opaline series, and Versa-Seam panels can be mixed within their own series only.
- All ATAS profiles can be mixed and matched if separated with trim.
- You can also achieve the mix and match look by using ATAS profiles in varied widths and colors.
