Sustainable Building Envelope Technology

The appearance of shingles;
the benefits of metal roofing.

TIMELESS.

ADVANTA SHINGLE®

A *classic* look that will last a lifetime.

Advanta Shingle is a simulated dimensional shingle formed from galvanized stucco embossed steel. The 1-foot by 3-foot panel covers more than twice the area of an asphalt shingle and is easy to install. The Advanta panel is available in 8 standard colors and 9 Americana Classic Series colors which utilize special technology to create unique prints that visually enhance the depth of the panel.

Features

APPLICATION

- Typical applications are commercial and residential roofing
- Advanta is also suitable for walls and mansards
- Installed horizontally in a left to right manner and staggered from eave to ridge
- Ideal for installations throughout North America
- Clipless system
- May be installed over an existing roof without the need for tear-off and disposal if conditions and local codes allow
- Fastened to a solid substrate through fastening holes

LONGEVITY

- Fire resistant - will not burn or support combustion
- Will not warp, crack, rot or peel
- Resistant to high wind, torrential rain, heavy snow and ice loads
- 30 Year Limited Warranty
- High quality and time proven painting and pretreatment technologies

PERFORMANCE STANDARDS

- Environmentally friendly - ENERGY STAR® qualified colors available. Contact ATAS for current color listings
- Tested in accordance with UL 790/ASTM E 108, UL 580, UL 1897, UL 2218, ASTM E 84 Flame Spread, CCRR Report, ICBO AC 166 Penetration
- FBC Approval
- MCA Roofing Certification
- High reflectivity of panels which increases energy efficiency

Specifications

Advanta® SKU: HAS300

Gauge

29 ga. metallic coated steel; 16* oz. copper

Panel Size

12" by 36" exposed

Texture

Embossed

Finish

Kynar 500® PVDF or Hylar 5000® PVDF
