## Did You Know?

The Belvedere BWR360 7.2 Rib panel is a structural wall panel that offers design freedom for all types of buildings.

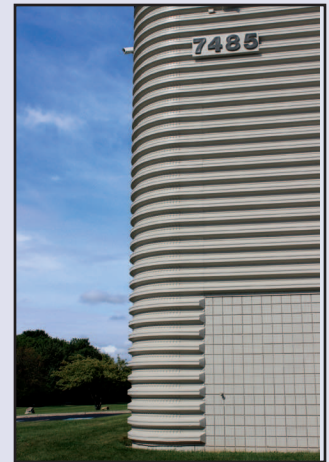

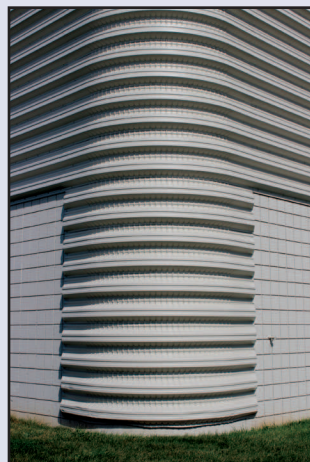

This exposed fastened panel can be installed vertically or horizontally in a variety of areas to include walls, mansards, and equipment screens. It can also be perforated.

The product offers opportunities for new and retrofit applications, and is offered in both steel and aluminum.

The Belvedere BWR360 Rib Panel is manufactured in a wide variety of standard and premium finishes of Kynar 500® PVDF and Hylar 5000® PVDF .

This product can also be crimp curved for architectural detail and Elite Corners are available.

BWR360 is supplied in a minimum length of 6'-0, shorter lengths to 3'-0 are available with panel cutting charges . Consult factory for pricing and availability.
