

Let Integrity[®] rigid insulation be **AT THE CORE OF YOUR SUCCESS[®]**

Atlas EPS understands that in a manufacturing environment, your process depends on our products performing the same day after day, year after year. Each Atlas manufacturing facility uses state of the art vacuum molding technology to assure the most consistent materials, proprietary cutting technology to deliver precise thickness, and customized packaging to fit your manufacturing needs. Density and recycle content combinations are discussed so we fully understand the critical aspects of your product, and internal product codes assure the same agreed material type is used each time. This is Integrity[®].

For more than 40 years, Integrity rigid insulation has proven its superior versatility, strength and insulating qualities in a wide variety of applications:

- ✓ Garage Door Manufacturing
- ✓ Concrete Solutions
- ✓ Packaging
- ✓ Panel Manufacturing
- ✓ SIPs
- ✓ RV Wall, Roof and Floor Panel Manufacturing
- ✓ Spa Cover Manufacturing

Integrity[®]
Component Solutions

Definition of INTEGRITY COMPONENT SOLUTIONS

- 1 : Performance based components that utilize OEM grade raw materials :
ATTAIN TIGHT TOLERANCES, SMOOTH SURFACES AND CONSISTENT RESIN FUSION
- 2 : Lightweight, high-strength and easily fabricated :
ABILITY TO REDUCE WEIGHT, WHILE MAINTAINING STRENGTH
- 3 : Zero global warming potential (GWP)*:
ENVIRONMENTALLY FRIENDLY
- 4 : State of the art CAD/CAM technology including CNC, heat embossing, edge shaping and face lamination capability :
ABILITY TO MEET THE STRICTEST OF TOLERANCES
- 5 : Lamination grade expanded polystyrene (EPS):
SPECIALLY MOLDED FOR LAMINATION APPLICATIONS WITH SMOOTH SURFACE, TIGHT & CONSISTENT THICKNESS TOLERANCE AND EXCELLENT FUSION
- 6 : Validated by Underwriters Laboratories and independent testing labs :
ASSURING COMPLIANCE WITH CODE REQUIREMENTS
- 7 : Manufactured under strict quality control standards :
OEM FOCUSED GROUP OF QUALITY ASSURANCE PROFESSIONALS

Atlas EPS is committed to providing the best in quality products and services, of the highest *integrity*.

Every piece. Every time.

*When the product leaves the factory
