A TYPICAL HODGE-PODGE ROOF

Most roofing contractors try to sell roofs the same way... a hodge-podge of individual components. Your shingles will come from one company, your underlayment from another, your hip & ridge from another, so on and so forth.

PRO-CUT® HIP & RIDGE

Featuring

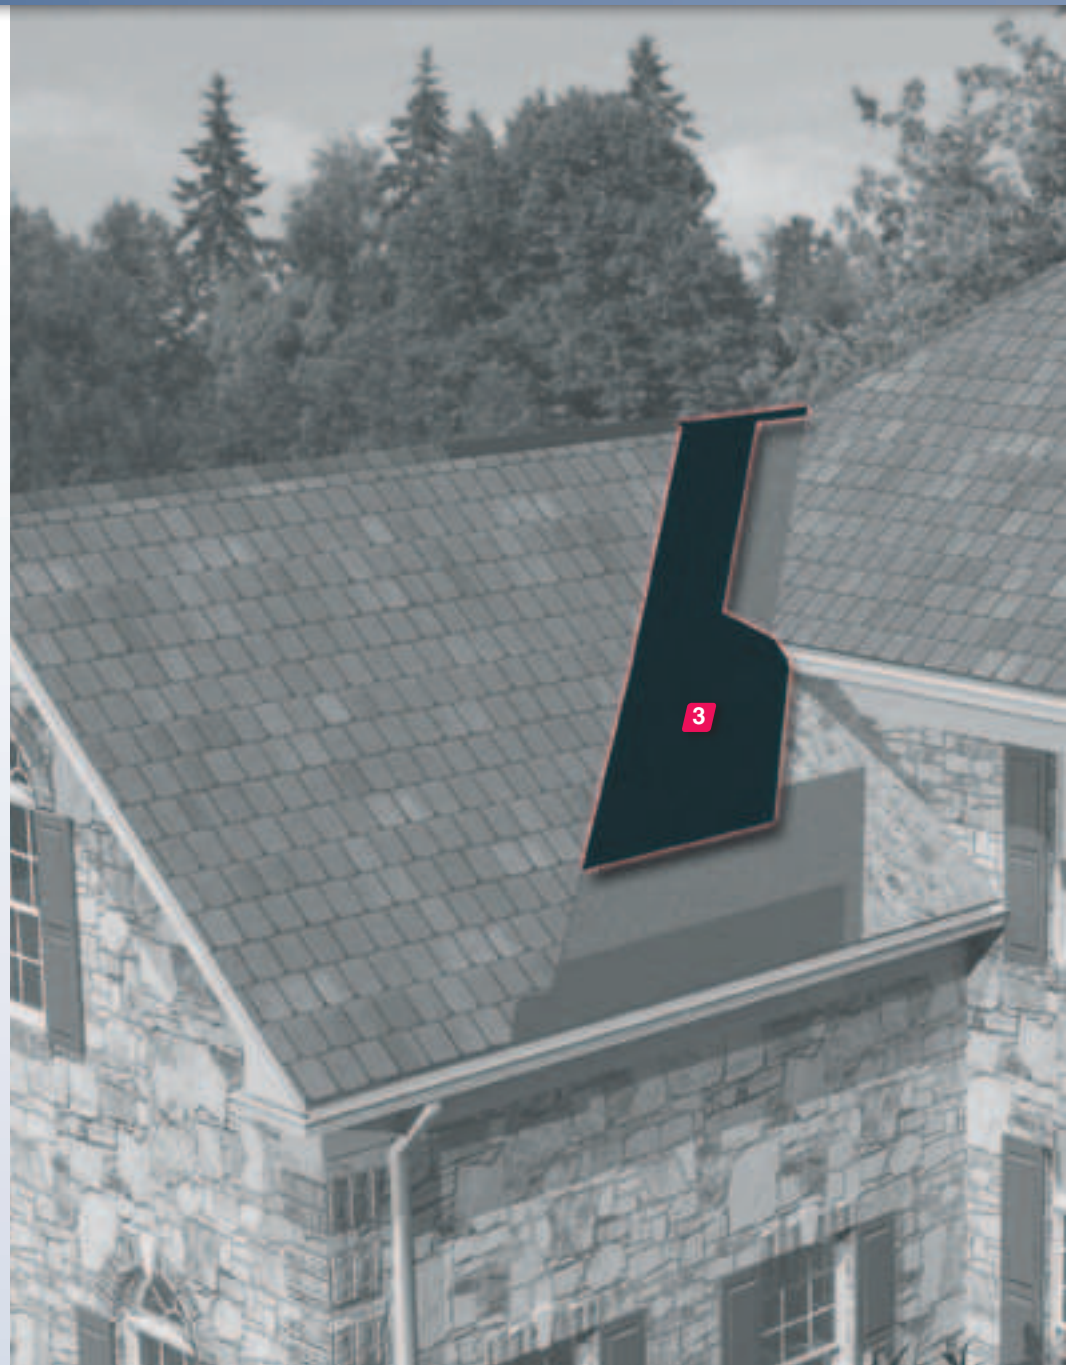

The Pro-Cut® Hip & Ridge shingles featuring Scotchgard™ Protector

provide superb hip and ridge protection by capping the external angles of your roof to give your home that beautiful finished look.

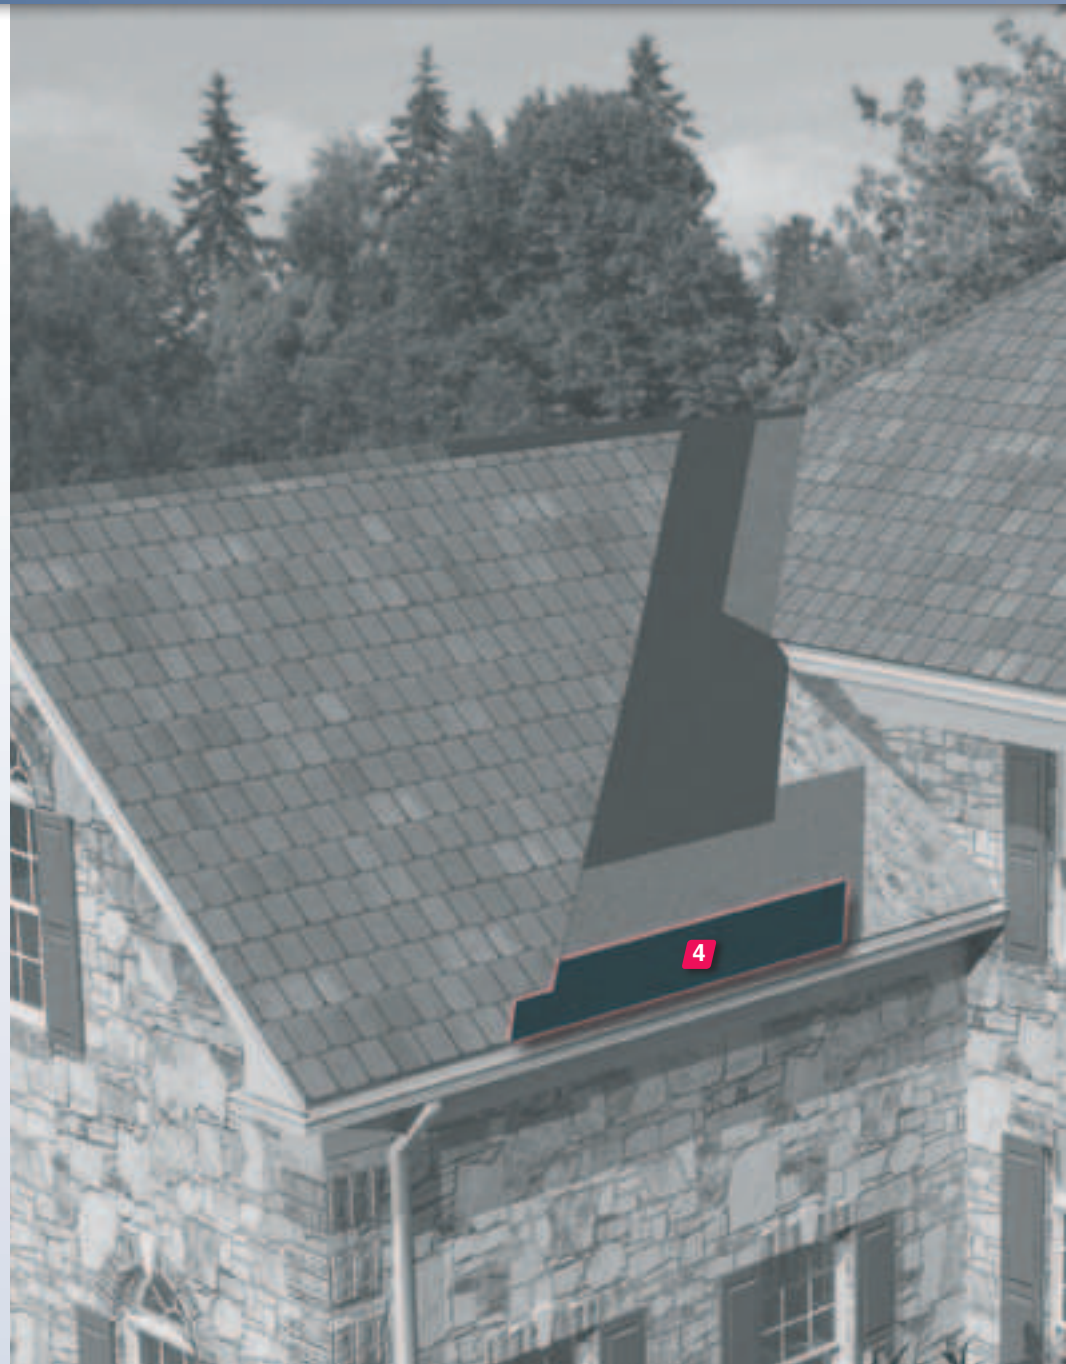

Atlas has long been the world's largest producer of roll roofing and saturated felt. With that longevity comes a wealth of experience. Our underlayments protect your entire roof deck surface and are manufactured to ensure flawless performance and peace of mind.

PRO-CUT® STARTER STRIP

The Pro-Cut® Starter Strip protects the roof edge and provides the hold down features needed to provide high wind resistance at the critical roof areas of the eaves and rakes.

The Atlas Signature Select® Roofing System is a unified assembly of specially chosen Atlas Roofing products. Each component is carefully selected to work in conjunction with the other products in the system.

That's why we'll upgrade your Premium Protection Period to increase your standard coverage when you install an Atlas Signature Select® Roofing System.

A warranty that provides real peace of mind and long term value.
