## Installation Instructions:

Briarwood Pro (Super Wide 42") Installation InstructionsBriarwood Pro (Super Wide 42") Quick Start Guide Install Starter At All Rakes And Eaves For Proper Shingle Seal Down

#### **Starter Course**

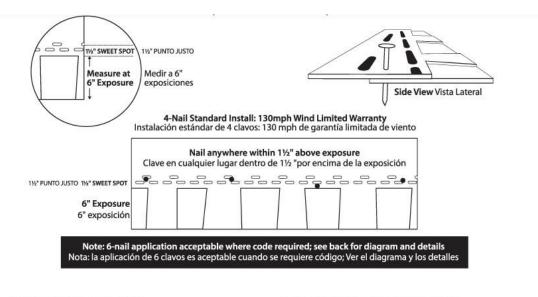

Trim 6" of first shingle.
Sealant line should always be positioned along eave.

 Overhang starter shingle ¼" to ¾" over eave.

#### Hilera de inicio

Corte 6" de la primera teja.
La línea de sellado debe colocarse siempre a lo largo del alero. Saliente el listón de arranque de ¼" a ¾" sobre el alero.

### 11/2" Sweet Spot Nailing Area; 6" Exposure

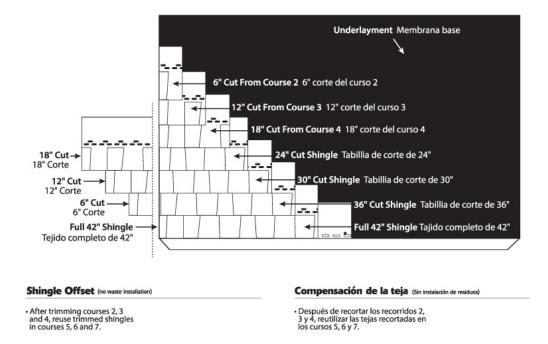

#### **Nail Application & Exposure**

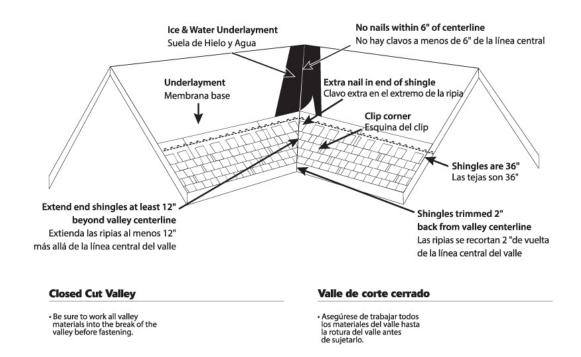

#### Aplicación de los clavos y exposición

 Install 4 or 6 nails as indicated below the top sealant line and above the shim exposure.
 Install shingle with 6" exposure.  Instale 4 o 6 clavos como se indica debajo de la línea de sellador superior y por encima de la exposición de la cala. No sobreimente las uñas.
Instale la teja con una exposición de 6".

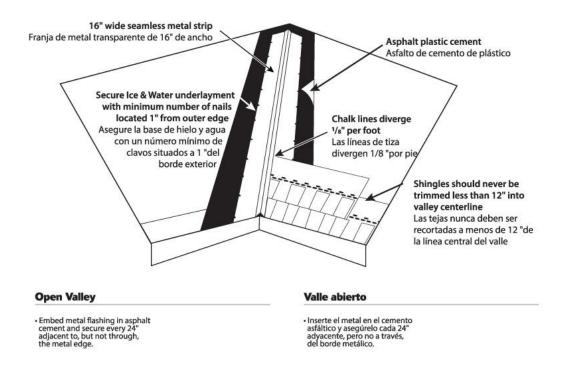

### Zero Waste, 6" Offset

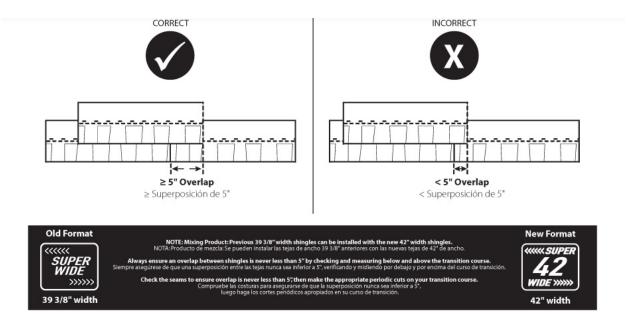

Weave Shingles Min. 12" Past Valley Center Line Before Fastening

# Open Valleys Require 16" Wide Valley Metal

### **Mixing Product**
