# Pinnacle® Pristine Natural Expressions

Designer colors, inspired by our natural world, preserved with Scotchgard™ Protector from 3M.

The colors of nature will be an integral part of your home when you choose the Pinnacle® Pristine Natural Expressions color palette from Atlas Roofing. Make a statement with the bold, impactful, long-lasting colors of Pinnacle® Pristine Natural Expressions with Scotchgard™ Protector from 3M.

## Natural Expressions

Imagine standing on the windswept coast of Maine. Feel a little thrill to see how the color of the rocks almost matches the pounding seas? If so, then **Coastal Granite**, a deep gray that's anything but neutral, may be your shingle of choice.

Are you drawn to wide-open spaces and big, dramatic vistas? Then **Copper Canyon** shingles may be for you. Looking like they came directly from the rugged landscapes of the Old West, these shingles can't help but inspire your sense of adventure.

You know how historic trees have a certain dignity about them? Some homes do too. When your aesthetic is formal and traditional, you want a shingle to match. **Majestic Shake** delivers with a look that's serious without being severe.

Golden sunlight and a market basket overflowing with the bounty of the garden – if anything inspires warmth and contentment, this is it. **Morning Harvest's** golden tones offer a simple message: welcome.

The world just seems fresher after a good rain. The air smells clean and rain-washed cobblestone streets shimmer like jewels. **Summer Storm** shingles capture that mood of renewed optimism, all with not a cloud on the horizon.

To provide homeowners the most accurate representation of color options, several photo scans and house shots were utilized in various lighting conditions. Variations in lighting illustrate the color gradients on asphalt shingle roofs.

Color blends vary from shingle to shingle. Before installation, consult with your contractor and request to view the actual shingles being installed on your roof to ensure confidence in your final color selection.
