To Whom It May Concern:

RE: CCW – Purchase of Raw Materials

This letter is in response to a request for additional LEED information regarding the MR Credit 5.

Due to the competitive nature of our business, our raw materials used in these products are purchased in an open market. Our sources are numerous and vary significantly in geography. The timing and specific quantity of raw material acquisition fluctuates over the course of the manufacturing process.

Subsequently we are unable to accurately determine the amount of raw materials that are extracted within a 500 mile radius of our manufacturing facilities.

Best regards,

*Cristal S. Green*
