

ROOF GARDEN

Vegetated Sedum Mats (SM)

Description

CCW's Vegetated Sedum Mats are a quick and cost-effective method of obtaining instant vegetative coverage on your building's Green Roof. CCW's Vegetated Sedum Mats ensure a no-hassle installation and immediate vegetative coverage.

Features and Benefits

- Instantaneous vegetative coverage
- No waiting for plants to "grow in"
- Greatly reduced plant maintenance
- Easy and cost-effective installation

Installation

The rolls of CCW's Vegetated Sedum Mats are hoisted to the rooftop and unrolled over a minimum 2.5" of CCW's pre-moistened Growth Media. The rolls are placed adjacent to each other with no overlap. The Green Roof is then irrigated until fully saturated.

Size and Coverage Rate

- 21.1 square feet per mat
- 39"-wide by 78"-long
- Approximately 6 lbs/sq. ft. fully saturated
- Approximately 100 lbs per roll, as delivered
- Minimum 85% vegetative coverage

Plants

CCW's Vegetated Sedum Mats come pre-vegetated with many different varieties of sedums. Below are some of the most commonly found varieties.

- Sedum Acre
- Sedum Album
- Sedum Ellacombianum
- Sedum Pulchellum
- Sedum Reflexum
- Sedum Sexangular
- Sedum Spurium (Dragons Blood)
