

PRODUCT UPDATE

**New 5' FleeceBACK® PVC & KEE HP
September 2025**

To: Carlisle SynTec Systems' Authorized Applicators

Carlisle SynTec Systems is pleased to introduce 5' FleeceBACK PVC and KEE HP membranes in lengths of 100' and 75'. Membranes will be available in both 115- and 135-mil thicknesses. This product is ideal for complex projects with multiple penetrations or jobs with small surface areas.

Made with aesthetics in mind, this product will be available in a variety of colors including white gray.

Product Code	Description	Weight
360238	115-mil White PVC FleeceBACK - 5' X 100'	232 lbs.
