

#12 SOFFIT DRIP EDGE[®] SPECIFICATION

The **#12 SOFFIT DRIP EDGE[®]** is manufactured for soffit and recessed windows head application. The 45° slope allows water to weep out of the assembly. The Drip edge provides a place for water to drip from rather than travel back along the soffit. The #12 SOFFIT DRIP EDGE is part of CEMCO's Water Management Products of Stucco Accessories fabricated from minimum 0.018-inch thick hot dipped galvanized steel complying with ASTM A653 having a minimum G-90 coating complying with ASTM A925. **Water tested per ASTM E1105.**
