FAS 093X-V (Vinyl Fire Rated Control Joint)

CEMCO's FAS-093X-V Vinyl Fire Rated Control Joint is a composite control joint with intumescent tape factory applied to the back side of the control joint. The FAS-093X-V has been tested according to UL-2079 5th Edition "Test For Fire Resistance of Building Joint Systems for 1 and 2 hour wall assemblies" and is used to relieve stresses of expansion and contraction of drywall interior partitions or ceilings running in a horizontal or vertical direction. The FAS 093X-V features a co-extruded flexible PVC center that is designed to provide a full 3/8" of protection against the stresses of expansion and contraction.

- **NO** Drywall Rips Required
- **NO** Fire Sealant Required
- **NO** Mineral Wool Required
