

INTRODUCING

The Next Generation of Suspension Systems

CertainTeed
SAINT-GOBAIN

Our re-engineered suspension systems are faster and easier to install than ever.

With input from contractors and field installers, we've redesigned our acoustical suspension systems to create complete grid solutions that save you time and money.

Patented Latitude Holes™ - More frequent and higher hanger hole positions for greater installation speed and flexibility

Lower insertion force and easier removability after installation

Maximum strength & torsional rigidity

SAINT-GOBAIN

Our family of acoustical suspension systems has been redesigned for speed and ease.

- 9/16" EZ Stab Elite Narrow System
- 15/16" EZ Stab Classic System
- 15/16" EZ Stab Classic Aluminum Capped System
- 15/16" EZ Stab Classic Environmental System
- 15/16" EZ Stab Cleanroom System
- 9/16" EZ Stab Bolt Slot System – 1/8" Reveal

SAVE TIME AND MONEY WITH OUR NEW FEATURES

» LATITUDE HOLES™ - MORE FREQUENT AND HIGHER HANGER HOLE POSITIONS

Patented Latitude Holes spaced every 3" and added high on the tee to allow for greater installation flexibility and speed.

» REDESIGNED EZ CLIP

Redesigned clip allows for low insertion force and easy removability after installation without destroying clip or slot.

» NEW CENTERING TABS

All 9/16" products now have centering tabs to keep trim edge panels positioned within the opening so there are no gaps around the edges.

» WIDER SLOTS

Larger openings allow easier location of slots when installing from distances.

» TWO ROWS OF CONTINUOUS STITCHING

Stitching creates maximum strength and torsional rigidity and allows for firm cross tees when installing tees from distances.
