NOTICE OF ACCEPTANCE (NOA)

CertainTeed LLC
20 Moores Road
Malvern, PA 19355

SCOPE:

This NOA is being issued under the applicable rules and regulations governing the use of construction materials. The documentation submitted has been reviewed and accepted by Miami-Dade County RER - Product Control Section to be used in Miami-Dade County and other areas where allowed by the Authority Having Jurisdiction (AHJ).

This NOA shall not be valid after the expiration date stated below. The Miami-Dade County Product Control Section (in Miami-Dade County) and/or the AHJ (in areas other than Miami-Dade County) reserve the right to have this product or material tested for quality assurance purposes. If this product or material fails to perform in the accepted manner, the manufacturer will incur the expense of such testing and the AHJ may immediately revoke, modify, or suspend the use of such product or material within their jurisdiction. RER reserves the right to revoke this acceptance, if it is determined by Miami-Dade County Product Control Section that this product or material fails to meet the requirements of the applicable building code.

This product is approved as described herein, and has been designed to comply with the Florida Building Code including the High Velocity Hurricane Zone of the Florida Building Code.

DESCRIPTION: Landmark Series Asphalt Shingles

LABELING: Each unit shall bear a permanent label with the manufacturer's name or logo, city, state and following statement: "Miami-Dade County Product Control Approved", unless otherwise noted herein.

RENEWAL of this NOA shall be considered after a renewal application has been filed and there has been no change in the applicable building code negatively affecting the performance of this product.

TERMINATION of this NOA will occur after the expiration date or if there has been a revision or change in the materials, use, and/or manufacture of the product or process. Misuse of this NOA as an endorsement of any product, for sales, advertising or any other purposes shall automatically terminate this NOA. Failure to comply with any section of this NOA shall be cause for termination and removal of NOA.

ADVERTISEMENT: The NOA number preceded by the words Miami-Dade County, Florida, and followed by the expiration date may be displayed in advertising literature. If any portion of the NOA is displayed, then it shall be done in its entirety.

INSPECTION: A copy of this entire NOA shall be provided to the user by the manufacturer or its distributors and shall be available for inspection at the job site at the request of the Building Official.

This NOA revises NOA # 22-0614.01 and consists of pages 1 through 6.
The submitted documentation was reviewed by Rafael Macedo.

LIMITATIONS:

1. Fire classification is not part of this acceptance; refer to a current Approved Roofing Materials Directory for fire ratings of this product.
2. Shall not be installed on roof mean heights in excess of 33 ft.
3. All products listed herein shall have a quality assurance audit in accordance with the Florida Building Code and Rule 61G20-3 of the Florida Administrative Code.

INSTALLATION:

1. Shingles shall be installed in compliance with Roofing Application Standard RAS 115.
2. Flashing shall be in accordance with Roofing Application Standard RAS 115
3. The manufacturer shall provide clearly written application instructions.
4. Exposure and course layout shall be in compliance with Detail 'A', attached.
5. Nailing shall be in compliance with Detail 'B', attached.

LABELING:

1. Shingles shall be labeled with the Miami-Dade Product Control approved seal as seen below or the wording "Miami-Dade County Product Control Approved".

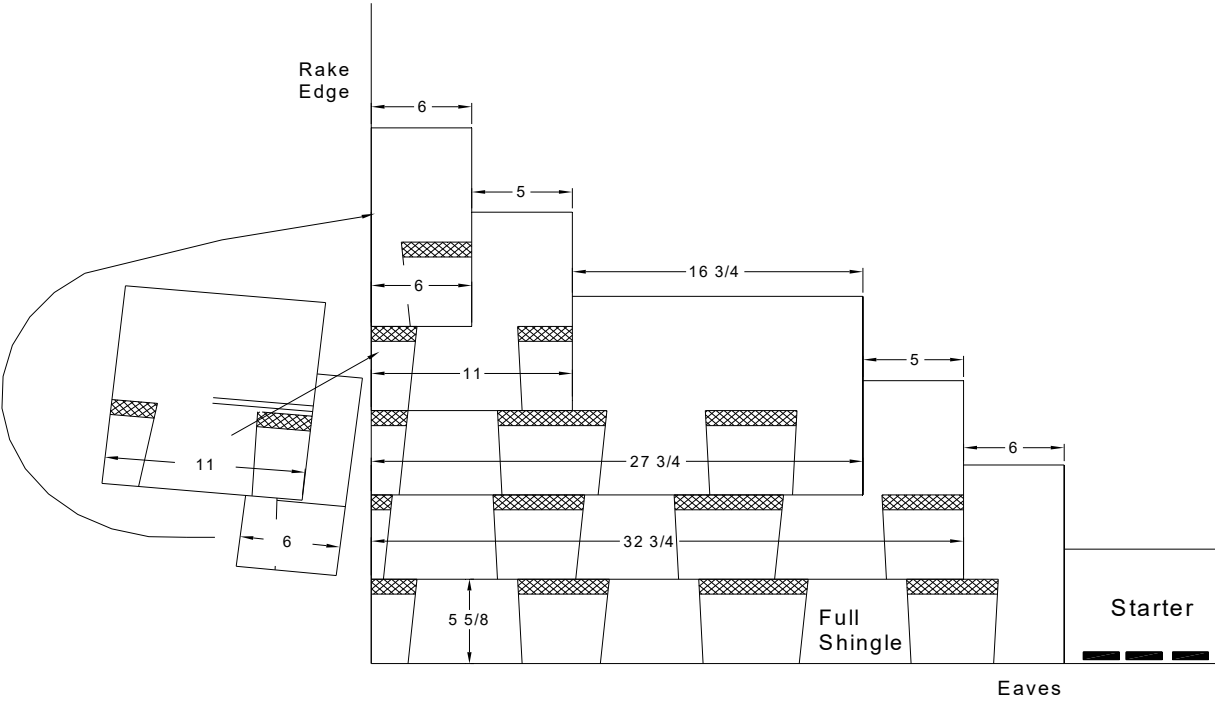

BUILDING PERMIT REQUIREMENTS:

1. Application for building permit shall be accompanied by copies of the following:
 - 1.1 This Notice of Acceptance.
 - 1.2 Any other documents required by the Building Official or the applicable code in order to properly evaluate the installation of this system.

SHINGLE LAYOUT DETAIL A

LANDMARK, LANDMARK PRO, LANDMARK PREMIUM, LANDMARK SOLARIS, AND LANDMARK PRO SOLARIS

Technical drawing of a cross-section of a road shoulder showing the nailing area for low and standard slopes. The drawing includes dimensions for the nailing area, nail spacing, and exposure.

Dimensions and Labels:

- Overall width: $38 \frac{3}{4}"$
- Release Tape (top layer)
- Nailing area for "low & standard slopes (from 2:12 to 21:12)"
- Nail between upper & lower nail lines.
- 12" (spacing between nail lines)
- 14 $\frac{3}{4}"$ (total width of nailing area)
- 1" (margin from edge)
- 13 $\frac{1}{4}"$ (total height of nailing area)
- 7 $\frac{1}{2}"$ (height of upper nail line)
- 6" (height of lower nail line)
- 5 $\frac{5}{8}"$ Exposure (height of exposed aggregate)
- WIDE NAILING AREA (indicated by a triangle pointing to the left)

Technical drawing of a roof edge detail showing nailing area for steep slopes. The drawing includes the following dimensions and labels:

- Release Tape:** Indicated at the top of the roof assembly.
- Nailing area for "steep" slopes (greater than 21:12):** The central area where nails are placed.
- Nail between bottom 2 nail lines:** A note indicating the spacing between the bottom two nail lines.
- Dimensions:**
 - 12" (span from edge to first nail line)
 - 14 3/4" (span between nail lines)
 - 12" (span from last nail line to edge)
 - 1" (span from edge to first nail)
 - 1" (span from last nail to edge)
 - 5 5/8" Exposure (height of the roof assembly)
 - 6 1/8" (height of the roof assembly)
 - 13 1/4" (total height of the roof assembly)
