Ingestion: Get medical advice if you feel unwell or are concerned.

SAFETY DATA SHEET

4.2 Most important symptoms / effects acute and delayed:

Eye Contact: Particles from cutting may cause irritation as an abrasive in the eye.

Skin Contact: Sharp edges may cut the skin.

4.3 Indication of any immediate medical attention and special treatment needed:

Not applicable

Section 5: Firefighting Measures

5.1 Extinguishing media:

Use water and other extinguishing media appropriate to the surrounding fire conditions.

Product is combustible if involved in a fire.

Under fire conditions products of combustion may include sulfur oxides, carbon monoxide and carbon dioxide.

5.3 Special protective equipment and precautions for fire-fighters:

As for any fire, evacuate the area and fight the fire from a safe distance. Firefighters must wear full protective equipment including self-contained breathing apparatus with chemical protection clothing.

Section 6: Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures:

Wear gloves as needed to protect hands from sharp edges.

6.2 Environmental precautions:

Prevent releases into the environment.

6.3 Methods and material for containment and cleaning up:

Pick up or scoop spilled material and place in an appropriate container for re-use or disposal.

Section 7: Handling and Storage

7.1 Precautions for safe handling:

Wear protective gloves as needed to protect hands from sharp edges.

Normal and recommended cutting methods are the use of hand-held snips. Avoid sanding, grinding and cutting operations that generate dusts.

SAFETY DATA SHEET

8.2 Exposure controls:

Engineering Controls: General ventilation is adequate for application of product in its original form. If airborne particulates are generated, monitor dust concentrations in air and provide local exhaust ventilation when any exposure guideline is exceeded.

Eye/Face Protection: Not required but it is good practice to wear safety glasses.

Skin Protection: Wear protective gloves as needed to prevent cuts.

Respiratory Protection: When dust concentrations in air exceed the occupational exposure guidelines, always take the following precautions:

- Wear a NIOSH approved dust respirator.
- Maintain adequate ventilation and air circulation.
- Warn others in the area.

A respiratory protection program that meets the regulatory requirement, such as OSHA's 29 CFR 1910.134, ANSI Z88.2 or Canadian Standards Association (CSA) Standard Z94.4, must be followed whenever workplace conditions warrant a respirator's use.
