**NOISEREDUCER™**

Sound Control Fiber Glass Insulation

## You're in charge of keeping the peace when you install NoiseReducer® sound control insulation.

Today's homeowners are looking for privacy and quiet in their homes—particularly in areas such as in-home offices, master bedroom suites, entertainment rooms, kitchens, baths and utility rooms. Now you can add the privacy, quiet and peace of mind that homeowners demand to the homes you insulate with the quiet comfort of NoiseReducer fiber glass insulation.

NoiseReducer sound control batts are designed for wood stud interior walls and floors to help you add “the sounds of silence” to any home, as well as helping you differentiate yourself from your competition.

How does NoiseReducer achieve optimal interior sound control? Quite simply, NoiseReducer sound control batts provide a sound-absorber that fills the void between interior wood studs. This absorber effectively breaks the path of sound. In other words, NoiseReducer batts keep the peace in new homes and work environments—limiting sound levels without limiting normal activity. CertainTeed's NoiseReducer batts are lightweight, easily installed, and can help add 4 to 12 points to the STC (Sound Transmission Class)\* rating depending on the type of assembly.

\*STC is a numerical rating of the ability of a wall, floor or ceiling to reduce sound transmission.

### NOISEREDUCER IS AVAILABLE IN TWO SIZES:

ITEM NO.	FACING	THICKNESS		WIDTH		LENGTH	PIECES	AREA/PKG.	
	TYPE	in.	mm	in.	mm	in.	PER PKG	ft <sup>2</sup>	m <sup>2</sup>
900309	White	3½	89	15	381	93	16	237.67	22.08
900308	White	3½	89	23	584	93	16	155.00	14.40

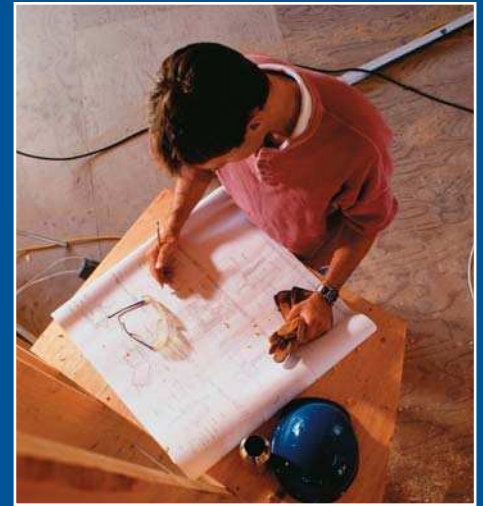

## ADDING VALUE.

Peaceful, quiet interior spaces enhance the value of a work or home environment. And your ability to add this kind of benefit to the homes you insulate can significantly enhance your professional reputation for high quality. Homeowners will appreciate how NoiseReducer sound control batts can improve sound control between rooms. Just as with zoned heating, you can create “zones of silence” for the homeowner, a valuable consideration in most state-of-the-art construction.

NoiseReducer sound control batts are faced with a special white kraft paper. The facing is printed with easily-recognized graphics that help sell the value of adding insulation to interior walls for sound control. These graphics help builders, homeowners, and building inspectors quickly identify the product. The facing also provides stapling flanges for ease of installation and to prevent blow-out prior to drywalling.

## NOISEREDUCER MEETS ALL INDUSTRY STANDARDS.

- California quality standards.  
Registry number CA-T024 (PA)
- ASTM C 665
- NER-149
- Tested for use under  
NYS UFPBC Article 15

## GET SMART ABOUT BUILDING SCIENCE.

Building Science continues to gain attention and grow in importance. A number of factors—from code requirements to increased media coverage—have brought this issue to the forefront. CertainTeed understands the role insulation and innovative products like NoiseReducer play in the overall integrity of a building system. We have a dedicated Building Science department that works regularly with building professionals to solve critical building envelope issues and provide solutions that have a positive and lasting effect on the industry.

# CertainTeed is the right choice for your business.

## THE RIGHT PRODUCTS.

CertainTeed has been making quality building products for more than 100 years and is part of the largest building materials company in the world, Saint-Gobain. We offer you a full line of fiber glass insulation products to meet the needs of your business and your customers.

And even though we've been doing this for a long time, we're always looking for new and better ways to improve our products and increase productivity. Many of our manufacturing plants are registered to ISO 9001:2000 standards. So you know you're getting the best products possible.

## THE RIGHT PERFORMANCE.

Our fiber glass insulation products have achieved GREENGUARD® Certification for superior indoor air quality performance. This means our products will contribute very low levels of volatile organic compounds (VOCs) and other pollutants to the indoor environment.

## THE RIGHT DELIVERY.

It's tough for you to sell something when it's not there. CertainTeed delivers product when we say we will—or we will credit you 3% of the invoice amount. Our Customer Bill of Rights guarantees it.

## THE RIGHT PROGRAMS.

Our ultimate goal, of course, is to deliver the absolute best products and programs for your business. We offer solutions that streamline inventory and incentives to maximize sales as well as margins.

## THE RIGHT SUPPORT.

We don't just sell insulation. We listen. We want to understand the unique needs of your business in order to deliver solutions that actually work. From our Building Science department to our dedicated sales team, we work to earn your trust and your business—order after order, year after year.

*For questions regarding specifications, building codes and installation practices, contact our Technical Services Department at (800) 233-8990.*

*In addition to these fiber glass insulation products, CertainTeed offers a full line of commercial and HVAC insulation products.*
