NGBS Green Certificate #NGBSGCP-000052

Products: CertainTeed Restoration Millwork

Manufacturer: CertainTeed – Saint-Gobain Corporation

The product(s) shown on this report have been independently verified as eligible products for use in achieving points toward project certification under ICC-700 National Green Building Standard. Home Innovation Research Labs authorizes accredited verifiers to award points toward certification without additional documentation when the product(s) is used as noted below.

2015 NATIONAL GREEN BUILDING STANDARD			
PRACTICE #	PRACTICE DESCRIPTION	POTENTIAL POINTS AVAILABLE	ADDITIONAL CONDITIONS OF USE TO AWARD POINTS
2015 NGBS 601.7	Prefinished building materials or assemblies listed below have no additional site-applied finishing material are installed.	2 or 5	For 5 points, 90% or more of the installed trim must be this product. For 2 points, 50 - 90% of the installed trim must be this product.

<p>2015 NGBS 602.1.6</p>	<p>Termite-resistant materials are used in portions of the building.</p>	<p>2,4, or 6</p>	<p>To earn 2 points, product is used in conjunction with other termite-resistant materials for the first 2 ft of all the foundation, floor, and structural wall, wall cladding, and exterior deck components in zones with slight to moderate termite infestation. Four points are awarded when used in conjunction with other termite-resistant materials for the first 3 ft in moderate to heavy termite zones, and 6 points are awarded for use with other termite-resistant materials for all of the foundation, floor, and structural wall, wall cladding, and exterior deck components in areas of very heavy termites.</p>
<p>2015 NGBS 610.1.2.1</p>	<p>A product with improved environmental impact measures compared to another product is selected.</p>	<p>3</p>	<p>Points are available when this product is selected over another option based on LCA analysis. The material to which this product is compared must be suitable and reasonable for the building and local market.</p>

2020 NATIONAL GREEN BUILDING STANDARD			
PRACTICE #	PRACTICE DESCRIPTION	POTENTIAL POINTS AVAILABLE	ADDITIONAL CONDITIONS OF USE TO AWARD POINTS
2020 NGBS 601.7	Prefinished building materials or assemblies listed	2 or 5	For 5 points, 90% or more of the installed trim must be this product. For 2 points, 50 - 90% of the installed trim must be this product.
2020 NGBS 602.1.6	Termite-resistant materials are used in portions of the building.	2, 4, or 6	To earn 2 points, product is used in conjunction with other termite-resistant materials for the first 2 ft of all the foundation, floor, and structural wall, wall cladding, and exterior deck components in zones with slight to moderate termite infestation. Four points are awarded when used in conjunction with other termite-resistant materials for the first 3 ft in moderate to heavy termite zones, and 6 points are awarded for use with other termite-resistant materials for all of the foundation, floor, and structural wall, wall cladding, and exterior deck components in areas of very heavy termites.
2020 NGBS 610.1.2.1	A product with improved environmental impact measures compared to another product(s) intended for the same use is selected. 2 points for product with 4 impact measures; 3 points for product with 5 impact measures. 10 points max.	3	Points are available when this product is selected over another option based on LCA analysis. The material to which this product is compared must be suitable and reasonable for the building and local market.
