Shadow Ridge®

Hip & Ridge Accessory Shingles

Shadow Ridge® accessory shingles are used to finish the hips and ridges of your roof and carry the same warranty as the shingles they are applied over. They have a deep, vibrant shadow line that complements the **Landmark Series** shingles.

- **Classified as UL 2218 Class 4 Impact Rated.**
- Single-layer coverage for **product versatility.**
- Easy to separate into individual pieces by folding along pre-cut lines
- **CertaSeal® seals roofs tight** against wind and weather.
- Use on shingle over vents or directly over centerline of hip or ridge
- Can be double-coursed to accent rooflines and enhance overall appearance
- **Lifetime limited warranty**

CertainTeed products are tested to ensure the highest quality and comply with the following industry standards:

Specifications:

- **English** — 12" x 36", with 5" exposure; covers 30 linear feet per bundle

Fire Resistance:

- UL Class A
- UL certified to meet ASTM D3018 Type 1

Wind Resistance:

- UL certified to meet ASTM D3018 Type 1
- ASTM D3161 Class F

Tear Resistance:

- UL certified to meet ASTM D3462
- CSA standard A123.5

Wind Driven Rain Resistance:

- Miami-Dade Product Control Acceptance

Acceptance Quality Standards:

- ICC-ES-ESR-1389 & ESR-3537

Integrity Roof System™

A COMPLETE APPROACH TO LONG LASTING BEAUTY AND PERFORMANCE

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

1. Waterproofing Underlayment

The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment

Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Starter Shingles

Starter Shingles are the first course of shingles that are installed and designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles

Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Ventilation

A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.

6. Hip & Ridge Caps

Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.
