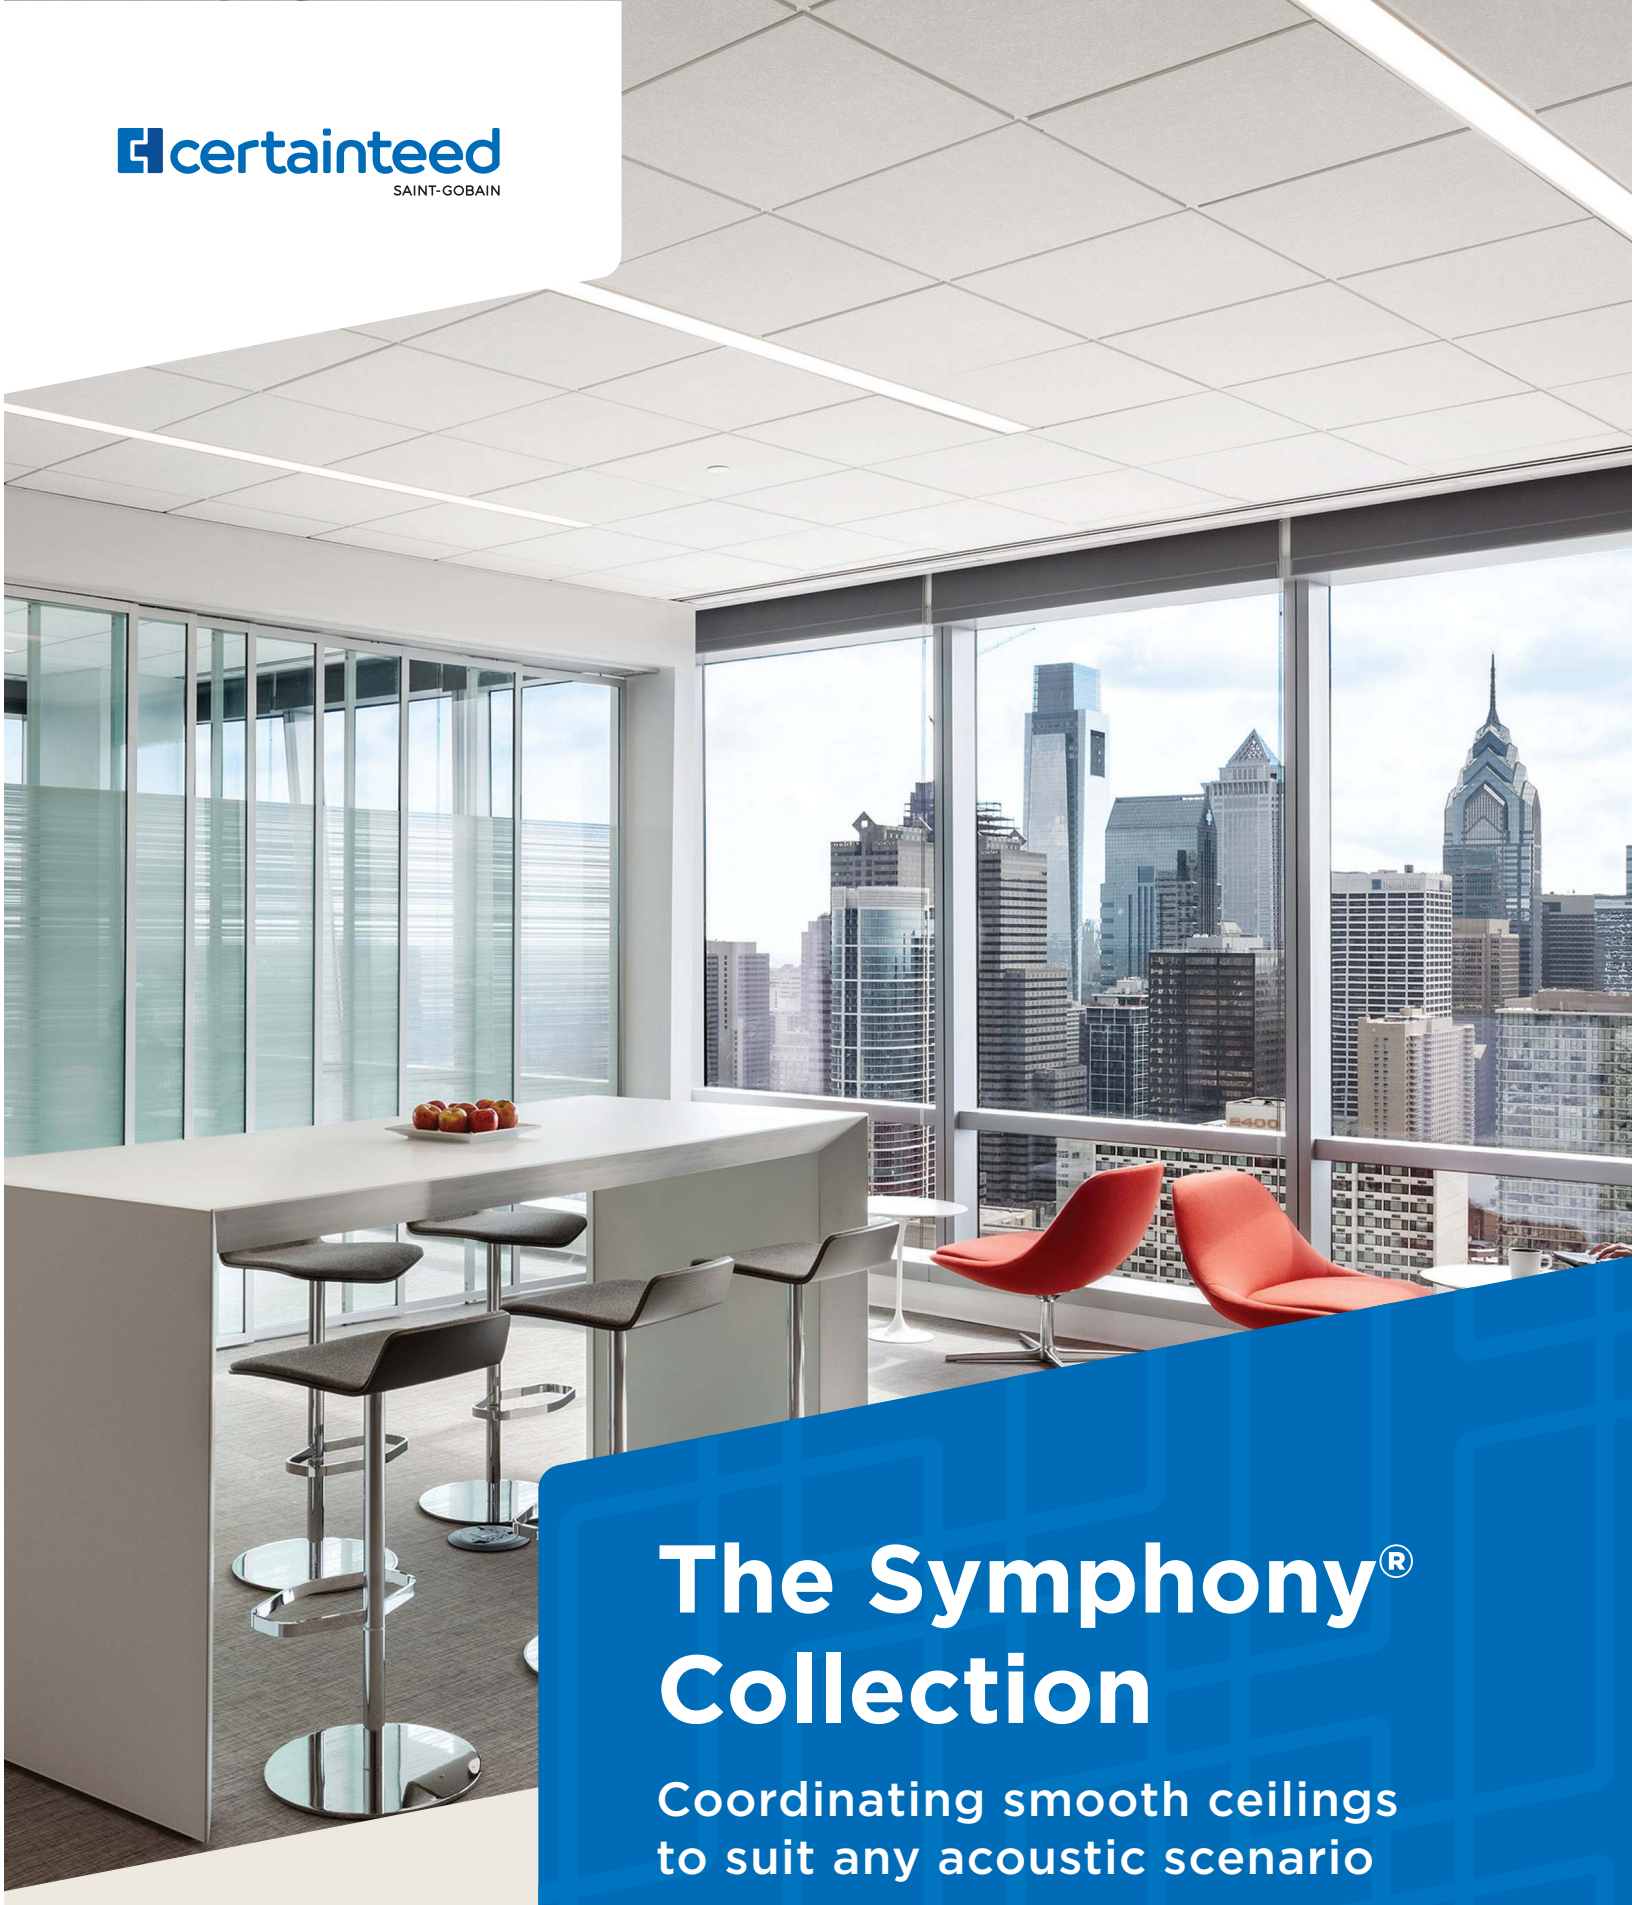
SAINT-GOBAIN



The Symphony® Collection

Coordinating smooth ceilings to suit any acoustic scenario

SAINT-GOBAIN

Targeted acoustics: performance for a variety of spaces

The Symphony® collection is a comprehensive line of coordinating durable acoustic solutions with a consistent look, balancing acoustic performance, design flexibility and budget control. Together with the coordinating Adagio® line, Symphony lets you maintain a consistent look while meeting diverse performance requirements.

ALL SYMPHONY AND ADAGIO CEILINGS

- **The most popular look in suspended ceilings** — Smooth, bright white surface available in trim, reveal, and narrow reveal edge details
- **A complete range of acoustic options** — Choose the level of sound absorption, noise blocking, or combined capabilities that fits the acoustic requirements of the individual space
- **High 90% light reflectance** — Enhances conventional lighting to reduce energy use, fatigue and eye strain
- **A highly durable surface** — Puncture and scratch resistant, and chemically cleanable up to 1,000+ washes, our panels are tough enough to resist damage and stay looking great before, during and after installation
- **Low VOC and low particle emissions** — Select products are even suited to clean room environments

Choose the right Symphony® panels for your acoustic priority

Balanced sound absorption and noise blocking

SYMPHONY *m*

- Standard mineral fiber panels including High NRC & High CAC options for excellent acoustic performance
- New High NRC 0.85 panels offer enhanced sound absorption with moderate noise blocking
- Certified clean room component to ISO Class 4 (the highest among comparable products)

APPLICATIONS:
Offices, conference rooms, classrooms, libraries, doctor's offices, exam/treatment rooms, patient rooms

Extreme cleanability and performance for demanding healthcare environments

SYMPHONY *m* RX & SYMPHONY *f* RX

- Acoustic performance plus superior stain resistance and water repellency
- Cleanable with most sanitizing chemicals and wash-tested to 2,000+ cycles
- Exceeds FGI guidelines for cleanability and acoustic performance in most healthcare applications
- Suited as clean room component to ISO Class 3 (highest among comparable products)

APPLICATIONS:
Patient rooms, emergency rooms, treatment rooms, semi-restricted surgical areas, kitchen/food prep areas

Highest combination of sound absorption and noise blocking

ADAGIO,® ADAGIO HIGH CAC

- Unique composite panel with encapsulated fiberglass provides NRC 0.90 and CAC 36–38 for premium acoustic comfort
- High CAC panels provide NRC 0.80 and maximum noise blocking with CAC 40–42
- Can enhance space privacy compliance assists with HIPAA requirements in healthcare

APPLICATIONS:
Offices, conference rooms, music rooms exam/treatment rooms, patient rooms

Maximum sound absorption

SYMPHONY *f*

- Fiberglass panels offer maximum NRC 0.90–1.00 and optional CAC foil backing for minimal sound blocking
- Certified clean room component to ISO Class 4 (the highest among comparable products)

APPLICATIONS:
Open plan offices, computer rooms, libraries, waiting rooms, nurses' stations

Declare.

Symphony *m* and Symphony *m* Rx are **Declare℠ Red List Free**

USDA CERTIFIED BIOBASED PRODUCT

Symphony *m* and Symphony *m* Rx are **USDA Certified Biobased Products at 98%**

All Symphony *m* & Symphony *f* products **exceed FGI guidelines for cleanability and acoustic performance in most healthcare applications.**

SmartFit Panels
Available in the Symphony *f* and Symphony *m* lines, this series of popular panel sizes is for use alongside linear lighting, ventilation and utility areas.

Pair with the SmartFit Yoke to reduce installation time by eliminating on-site fabrication and using standard ceiling components.

Put together the perfect combination of Symphony panels for your next project.

For specification information, samples and more, contact your CertainTeed representative, call 800-233-8990 or visit CertainTeed.com/Symphony.
